

Cisco IOS Software Roadmap

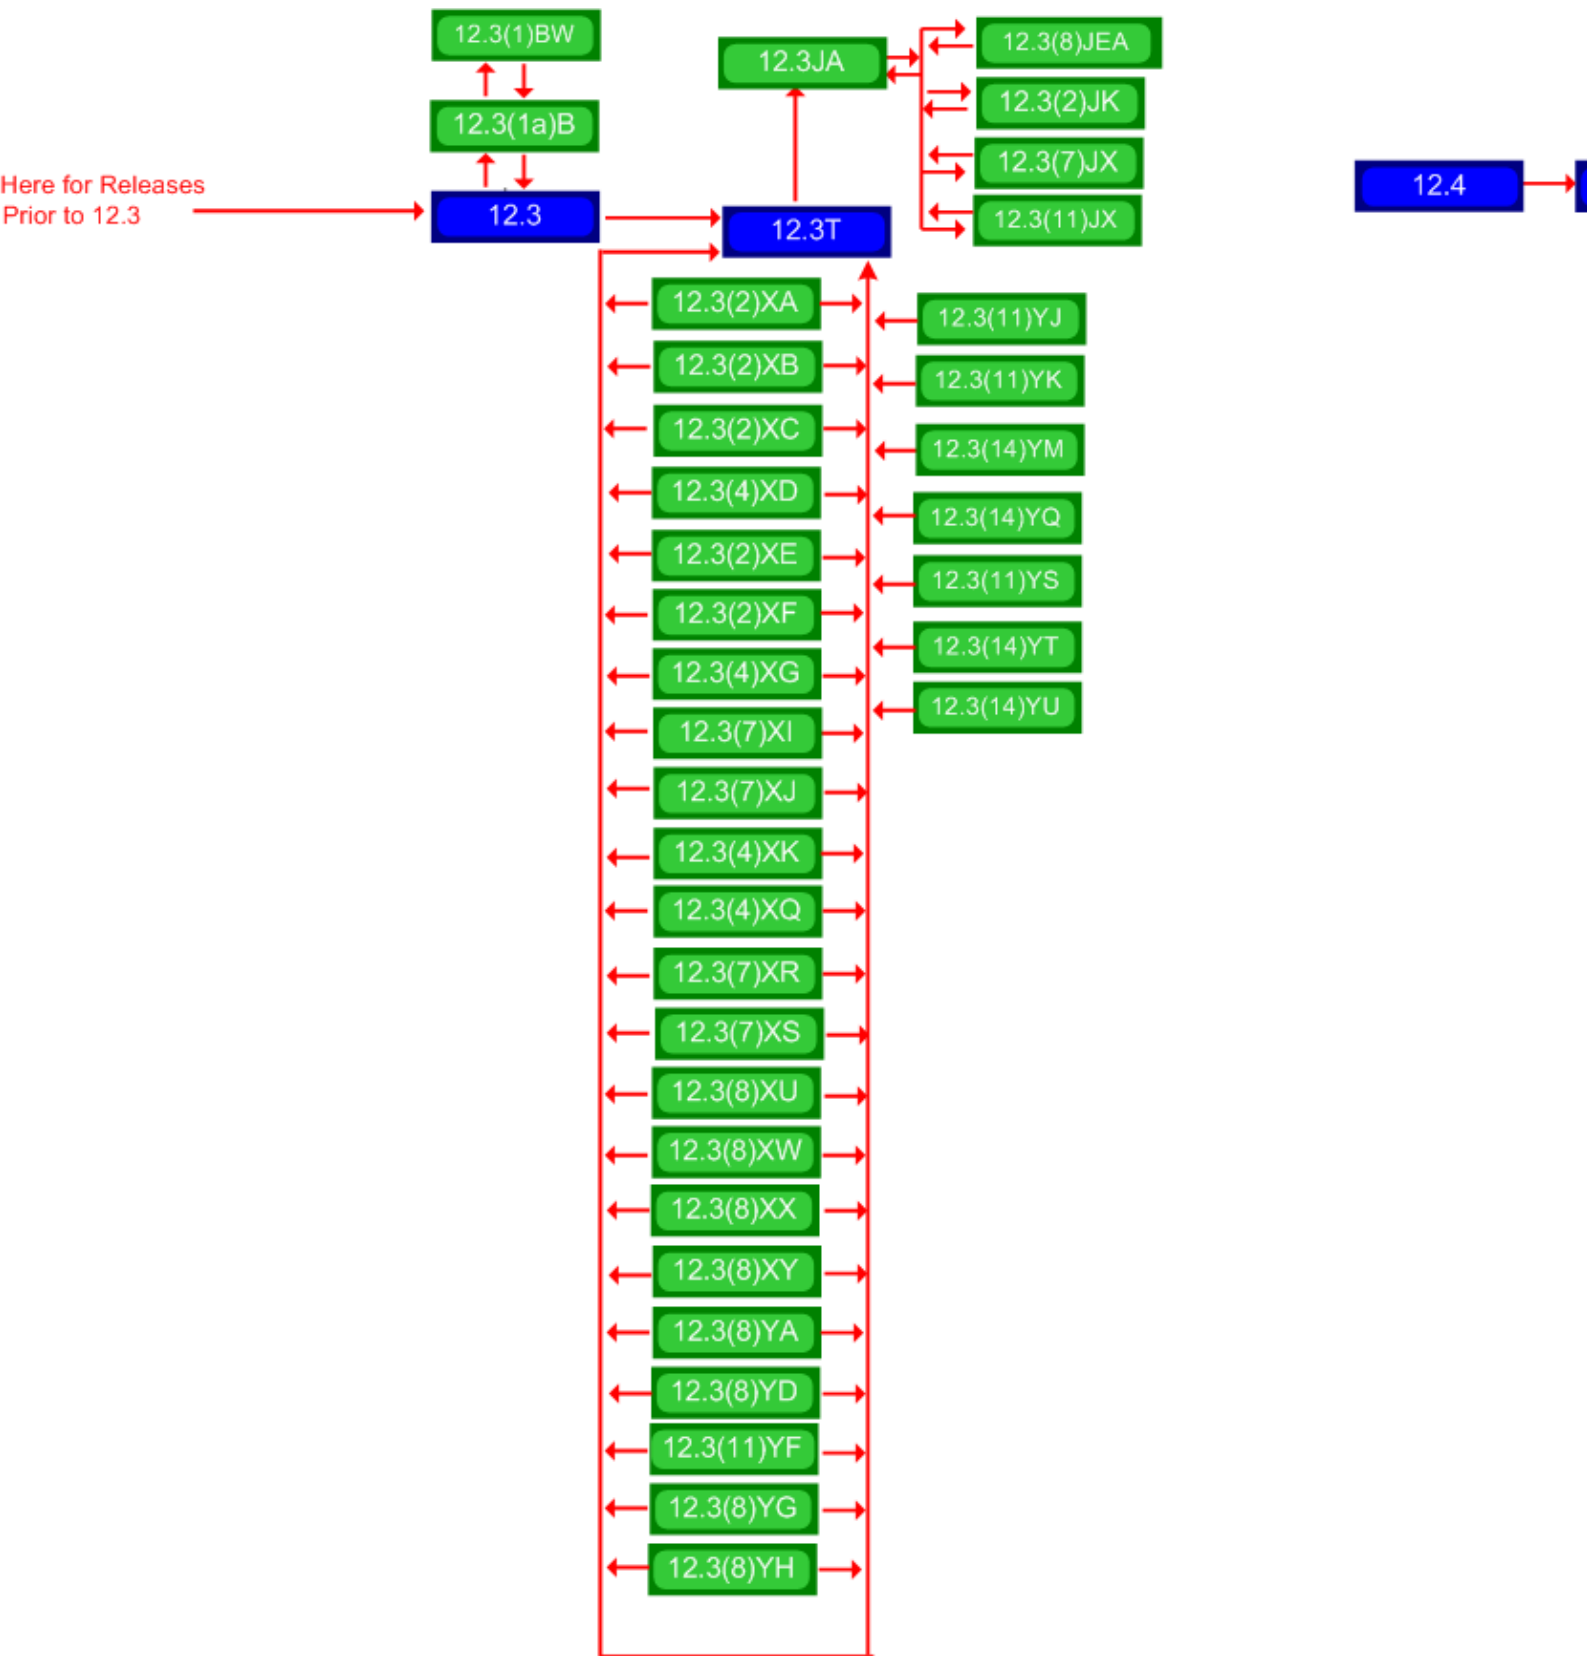

Document ID: 45045

To learn more about a Cisco IOS® software release, **click** the associated release number in the flow chart below.

Note: You can not download software from the following IOS Roadmap pages. These pages serve only as reference. To actually download, go to the TAC Software Center. You must be a registered user to download some software. For more information on becoming a registered user, go to User Registration. For specific help with the registration process, go to Registration Help.

For more information on IOS software, see the following pages:

- **Software Advisor**
- **White Paper: Cisco IOS Software Reference Guide**
- **A Brief History of Cisco IOS**
