**PROXY STATEMENT
FOR
ANNUAL MEETING OF SHAREHOLDERS**

These proxy materials are furnished in connection with the solicitation of proxies by the Board of Directors of Cisco Systems, Inc., a California corporation (the "Company"), for the Annual Meeting of Shareholders (the "Annual Meeting") to be held at 10:00 a.m. on November 13, 2001, at Paramount's Great America in the Paramount Theater, located at 1 Great America Parkway, Santa Clara, California 95054, and at any adjournments or postponements of the Annual Meeting. These proxy materials were first mailed on or about September 28, 2001 to all shareholders entitled to vote at the Annual Meeting.

PURPOSE OF MEETING

The specific proposals to be considered and acted upon at the Annual Meeting are summarized in the accompanying Notice of Annual Meeting of Shareholders. Each proposal is described in more detail in this Proxy Statement.

VOTING RIGHTS AND SOLICITATION

Voting

Holders of the Company's common stock ("Common Stock") are the only securityholders of the Company entitled to vote at the Annual Meeting. On September 13, 2001, the record date for determination of shareholders entitled to vote at the Annual Meeting, there were 7,334,019,051 shares of Common Stock outstanding. Each shareholder of record on September 13, 2001 is entitled to one vote for each share of Common Stock held by such shareholder on that date. Holders of a majority of the outstanding shares of Common Stock must be present or represented at the Annual Meeting in order to have a quorum. Abstentions and broker non-votes will be treated as shares present for the purpose of determining the presence of a quorum for the transaction of business at the Annual Meeting. In the election of directors, the eleven nominees receiving the highest number of affirmative votes will be elected. Proposal No. 2 requires the approval of the affirmative vote of a majority of the shares of Common Stock present or represented and voting at the Annual Meeting, together with the affirmative vote of a majority of the required quorum. Abstentions and broker non-votes can have the effect of preventing approval of a proposal where the number of affirmative votes, though a majority of the votes cast, does not constitute a majority of the required quorum. If the persons present or represented by proxy at the Annual Meeting constitute the holders of less than a majority of the outstanding shares of Common Stock as of the record date, the Annual Meeting may be adjourned to a subsequent date for the purpose of obtaining a quorum. All votes will be tabulated by the inspector of election appointed for the Annual Meeting, who will separately tabulate affirmative and negative votes, abstentions and broker non-votes.

Voting Electronically via the Internet or by Telephone

Shareholders whose shares are registered in their own names may vote either via the Internet or by telephone. Specific instructions to be followed by any registered shareholder interested in voting via Internet or by telephone are set forth on the enclosed proxy card. The Internet and telephone voting procedures are designed to authenticate the shareholder's identity and to allow shareholders to vote their shares and confirm that their voting instructions have been properly recorded.

If your shares are registered in the name of a bank or brokerage firm and you have not elected to receive your Proxy Statement over the Internet, you may be eligible to vote your shares electronically over the

Internet or by telephone. A large number of banks and brokerage firms are participating in the ADP Investor Communication Services online program. This program provides eligible shareholders who receive a paper copy of this Proxy Statement the opportunity to vote via the Internet or by telephone. If your bank or brokerage firm is participating in ADP's program, your proxy card will provide instructions. If your proxy card does not reference Internet or telephone information, please complete and return the proxy card in the self-addressed, postage paid envelope provided. Shareholders who elected to receive the 2001 Proxy Statement and Annual Report over the Internet will be receiving an e-mail on or about September 28, 2001 with information on how to access shareholder information and instructions for voting.

Proxies

Whether or not you are able to attend the Annual Meeting, you are urged to submit your proxy, which is solicited by the Company's Board of Directors (the "Board of Directors" or the "Board") and which when properly completed will be voted as you direct. In the event no directions are specified, such proxies will be voted FOR each of the nominees of the Board of Directors (Proposal No. 1), FOR the ratification of the appointment of PricewaterhouseCoopers LLP as the Company's independent accountants for the Company's fiscal year ending July 27, 2002 (Proposal No. 2), and in the discretion of the proxy holders as to any other matters that may properly come before the Annual Meeting. You may revoke or change your proxy vote at any time before the Annual Meeting by sending a written notice of revocation or submitting another proxy with a later date to the Secretary of the Company at the Company's principal executive offices before the beginning of the Annual Meeting. You may also revoke your proxy vote by attending the Annual Meeting and voting in person.

Solicitation of Proxies

The Company will bear the entire cost of this solicitation of proxies, including the preparation, assembly, printing, and mailing of this Proxy Statement, the proxy, and any additional solicitation material furnished to shareholders by the Company. Copies of solicitation material will be furnished to brokerage houses, fiduciaries, and custodians holding shares in their names that are beneficially owned by others so that they may forward the solicitation material to such beneficial owners. In addition, the Company has retained Georgeson Shareholder Communications Inc. to act as a proxy solicitor in conjunction with the Annual Meeting. Under the terms of an agreement dated September 10, 2001, the Company has agreed to pay \$10,000, plus reasonable out of pocket expenses, to Georgeson Shareholder Communications Inc. for proxy solicitation services. The original solicitation of proxies by mail may be supplemented by solicitation by telephone, telegram and other means by directors, officers, and/or employees of the Company. No additional compensation will be paid to these individuals for any such services. Except as described above, the Company does not presently intend to solicit proxies otherwise than by mail and via the Internet.

PROPOSAL NO. 1
ELECTION OF DIRECTORS

General

The names of persons who are nominees for director and their positions and offices with the Company are set forth in the table below. The proxy holders intend to vote all proxies received by them for the nominees listed below unless otherwise instructed. In the event any nominee is unable or declines to serve as a director at the time of the Annual Meeting, the proxies will be voted for any nominee who may be designated by the Board of Directors to fill the vacancy. As of the date of this Proxy Statement, the Board of Directors is not aware of any nominee who is unable or will decline to serve as a director. The eleven nominees receiving the highest number of affirmative votes of the shares entitled to vote at the Annual Meeting will be elected directors of the Company to serve until the next Annual Meeting of Shareholders and until their successors have been elected and qualified. The affirmative vote of a majority of the shares of Common Stock present or represented and voting at the Annual Meeting, together with the affirmative vote of a majority of the required quorum, is required to ratify such appointment.

In the event the shareholders fail to ratify the appointment, the Board of Directors will reconsider its selection. Even if the appointment is ratified, the Board of Directors, in its discretion, may direct the appointment of a different independent accounting firm at any time during the year if the Board of Directors determines that such a change would be in the Company's and its shareholders' best interests.

Compliance with SEC Reporting Requirements

Under Section 16(a) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the Company's directors, executive officers and any persons holding more than ten percent of the outstanding Common Stock are required to report their initial ownership of Common Stock and any subsequent changes in their ownership to the Securities and Exchange Commission ("SEC"). Specific due dates have been established by the SEC, and the Company is required to disclose in this Proxy Statement any failure to file by those dates. Based solely of its review of (i) copies of Section 16(a) reports that the Company received from such persons for their transactions during the Company's 2001 fiscal year and (ii) written representations received from one or more of such persons that no annual Form 5 reports were required to be filed for them for the Company's 2001 fiscal year, the Company believes that all reports required to be filed under Section 16(a) have been filed on a timely basis by the foregoing persons for the Company's 2001 fiscal year, except as follows. Ms. Cirillo, a member of the Board of Directors, filed a late Form 5 report for the Company's 2000 fiscal year and failed to timely file Form 4 reports with respect to (i) seven purchase transactions that occurred over a twenty-two month period beginning in December 1998 and covered a total of 1,920 shares of Common Stock and (ii) five sale transactions that occurred over a twelve month period beginning in January 2000 and covered a total of 205 shares of Common Stock. These transactions were subsequently reported by Ms. Cirillo in May 2001 as follows: a late Form 4 for October 2000 in which one of the late purchase transactions was reported; an amendment to a previously filed Form 4 for December 2000 in which one of the late sale transactions was reported; and an amendment to the Form 5 filed for the Company's 2000 fiscal year in which the remaining six late purchase transactions and four late sale transactions were reported. Mr. Morgan, a member of the Board of Directors, filed an amended Form 3 in September 2001 in which he reported 300 shares of Common Stock owned by his spouse which he failed to report on his original Form 3. Mr. Morgridge, a member of the Board of Directors, filed a late Form 4 on March 8, 2001 with respect to 346 shares of Common Stock distributed to him in October 2000 from a partnership in which he held a limited partnership interest. In addition, Mr. Richardson, one of the Company's Senior Vice Presidents, filed an amended Form 3 in September 2001 in which he reported an additional 445 shares of Common Stock

purchased under the Company's Employee Stock Purchase Plan which he failed to include in his Common Stock holdings reported on his original Form 3.

EXECUTIVE COMPENSATION AND RELATED INFORMATION

Compensation/Stock Option Committee Report

The Compensation/Stock Option Committee (the "Committee") of the Board of Directors sets the compensation of the Chief Executive Officer, reviews the design, administration and effectiveness of compensation programs for other key executives, and approves stock option grants for all executive officers. The Committee, serving under a charter adopted by the Board of Directors, is composed entirely of outside directors who have never served as officers of the Company.

Compensation Philosophy and Objectives

The Company operates in the extremely competitive and rapidly changing high technology industry. The Committee believes that the compensation programs for the executive officers should be designed to attract, motivate and retain talented executives responsible for the success of the Company and should be determined within a framework and based on the achievement of designated financial targets, individual contribution, customer satisfaction and financial performance relative to that of the Company's competitors. Within this overall philosophy, the Committee's objectives are to:

- Offer a total compensation program that takes into consideration the compensation practices of a group of specifically identified peer companies (the "Peer Companies") and other selected companies with which the Company competes for executive talent.
- Provide annual variable incentive awards that take into account the Company's overall financial performance in terms of designated corporate objectives and the relative performance of the Peer Companies as well as individual contributions and a measure of customer satisfaction.
- Align the financial interests of executive officers with those of shareholders by providing significant equity-based, long-term incentives.

Compensation Components and Process

The three major components of the Company's executive officer compensation are: (i) base salary, (ii) variable incentive awards, and (iii) long-term, equity-based incentive awards.

The Committee determines the compensation levels for the executive officers with the assistance of the Company's Human Resources Department, which works with an independent consulting firm that furnishes the Committee with executive compensation data drawn from a nationally recognized survey of similarly sized technology companies which have been identified as the Peer Companies. A significant number of the Peer Companies are listed in the Hambrecht & Quist Technology Index, which is included in the Stock Performance Graph for this Proxy Statement. Certain companies not included in this Index were considered Peer Companies because the Company competes for executive talent with those companies. However, some organizations in the Hambrecht & Quist Technology Index were excluded from the Peer Company list because they were not considered competitors for executive talent or because compensation information was not available.

The positions of the Company's CEO and executive officers were compared with those of their counterparts at the Peer Companies, and the market compensation levels for comparable positions were examined to determine base salary, target incentives and total cash compensation. In addition, the practices of the Peer Companies concerning stock option grants were reviewed and compared.

Base Salary. The base salary for each executive officer is determined at levels considered appropriate for comparable positions at the Peer Companies. The Company's policy is to target base salary levels between the 25th and 50th percentile of compensation practices at Peer Companies.

Variable Incentive Awards. To reinforce the attainment of Company goals, the Committee believes that a substantial portion of the annual compensation of each executive officer should be in the form of variable incentive pay. The annual incentive pool for executive officers is determined on the basis of the Company's achievement of the financial performance targets established at the beginning of the fiscal year and also includes a range for the executive's contribution, a measure of customer satisfaction and a strategic component tied to the Company's performance relative to a select group of competitors. The incentive plan sets a threshold level of Company performance based on both revenue and profit before interest and taxes that must be attained before any incentives are awarded. Once the fiscal year's threshold is reached, specific formulas are in place to calculate the actual incentive payment for each officer. A target is set for each executive officer based on targets for comparable positions at the Peer Companies and is stated in terms of an escalating percentage of the officer's base salary for the year. In fiscal year 2001, the Company failed to achieve its corporate financial performance targets. As a result, despite exceeding both the strategic target tied to revenue performance relative to the selected competitor group and the corporate target for customer satisfaction, and in accordance with the variable incentive award formula, no variable incentive awards were paid to the executive officers.

Long-Term, Equity-Based Incentive Awards. The goal of the Company's long-term, equity-based incentive awards is to align the interests of executive officers with shareholders and to provide each executive officer with a significant incentive to manage the Company from the perspective of an owner with an equity stake in the business. The Committee determines the size of the long-term, equity-based incentives according to each executive's position within the Company and sets a level it considers appropriate to create a meaningful opportunity for stock ownership. In addition, the Committee takes into account an individual's recent performance, his or her potential for future responsibility and promotion, comparable awards made to individuals in similar positions with the Peer Companies, and the number of unvested options held by each individual at the time of the new grant. The relative weight given to each of these factors varies among individuals at the Committee's discretion.

During fiscal year 2001, the Committee made option grants to Messrs. Carter, Chambers, Justice, Richardson and Volpi under the Company's 1996 Stock Incentive Plan. Each grant allows the officer to acquire shares of the Company's Common Stock at a fixed price per share (the market price on the grant date) over a specified period of time. Options granted to this group of individuals in November 2000 and in May 2001 vest in periodic installments over a five year period, contingent upon the executive officer's continued employment with the Company. Accordingly, the option grants will provide a return only if the officer remains with the Company and only if the market price appreciates over the option term.

CEO Compensation. The annual base salary for Mr. Chambers was established by the Committee on July 27, 2000, for the period July 30, 2000 to July 28, 2001. The Committee's decision was based on both Mr. Chambers' personal performance of his duties and the salary levels paid to chief executive officers of the Peer Companies, but set below the 25th percentile of the surveyed data in order to have a substantial portion of his total compensation, in the form of variable incentive awards and stock option grants, tied to Company performance and stock price appreciation. On April 1, 2001, Mr. Chambers requested that his base salary be lowered to a rate of \$1.00 annually. On May 11, 2001, the Committee agreed to honor this request until such a time as the Committee deems it appropriate to return Mr. Chambers' base salary to a market competitive level. The Committee continues to assess the market data for chief executive officers' salary levels at the Peer Companies to ensure that, when reinstated, Mr. Chambers' compensation is consistent with Cisco's stated compensation objectives relative to base salary.

Mr. Chambers' 2001 fiscal year incentive compensation was based on the actual financial performance of the Company in failing to achieve designated corporate financial objectives despite attaining a strategic revenue objective measured against competitor performance and a customer satisfaction rating in excess of target. Mr. Chambers did not receive an incentive award for fiscal year 2001 in accordance with the formula for the incentive plan used for all executive officers. The option grant made to Mr. Chambers during the 2001 fiscal year was awarded at the same time the Committee granted stock options to other employees under the Company's broad-based stock option program. The option grant made to Mr. Chambers was based upon his performance and leadership with the Company and placed a significant portion of his total compensation at

risk, since the value of the option grant depends upon the appreciation of the Company's Common Stock over the option term.

Compliance with Internal Revenue Code Section 162(m). Section 162(m) of the Internal Revenue Code disallows a Federal income tax deduction to publicly held companies for compensation paid to certain of their executive officers, to the extent that compensation exceeds \$1 million per covered officer in any fiscal year. This limitation applies only to compensation which is not considered to be performance based. The Company's 1996 Stock Incentive Plan has been structured so that any compensation deemed paid in connection with the exercise of option grants made under that plan will qualify as performance-based compensation which will not be subject to the \$1 million limitation. Non-performance based compensation paid to the Company's executive officers for the 2001 fiscal year did not exceed the \$1 million limit per officer for any of the Named Officers subject to Section 162(m). The Committee has decided that it is not appropriate at this time to take any action to limit the Company's discretion to design the cash compensation packages payable to the Company's executive officers.

- (1) Options were granted on November 13, 2000 and May 14, 2001 and have a maximum term of nine years measured from the applicable grant date, subject to earlier termination in the event of the optionee's cessation of service with the Company. Each of the options granted in November 2000 will become exercisable for 20% of the option shares upon the completion of one year of service measured from the grant date and will become exercisable for the remaining shares in equal monthly installments over the next 48 months of service thereafter. Each of the options granted in May 2001 will become exercisable for the option shares in a series of successive equal monthly installments upon completion of each month of service over the 60-month period measured from the grant date. However, each of the November 2000 and May 2001 options will immediately become exercisable for all of the option shares in the event the Company is acquired by a merger or asset sale, unless the options are assumed by the acquiring entity, or in the event there is a hostile change in control or ownership of the Company.
- (2) The exercise price may be paid in cash or in shares of Common Stock valued at fair market value on the exercise date or may be paid with the proceeds from a same-day sale of the purchased shares. The Company also has the authority to finance the optionee's exercise of the option by loaning such individual on a full-recourse basis sufficient funds to cover the exercise price for the purchased shares, together with any federal and state withholding tax liability incurred by the optionee in connection with the option exercise.
- (3) There is no assurance provided to any executive officer or any other holder of the Company's securities that the actual stock price appreciation over the nine year option term will be at the assumed 5% or 10% annual rates of compounded stock price appreciation or at any other defined level. Unless the market price of the Common Stock appreciates over the option term, no value will be realized from the option grants made to the executive officers.

Option Exercises and Holdings

The table below sets forth information with respect to the Named Officers concerning their exercise of options during the Company's 2001 fiscal year and the unexercised options held by them as of the end of such year. No stock appreciation rights were exercised during the fiscal year, and no stock appreciation rights were outstanding at the end of the fiscal year.

Employment Contracts, Termination of Employment, and Change in Control Agreements

As of the end of the Company's 2001 fiscal year, none of the Company's executive officers had employment or severance agreements with the Company, and their employment could be terminated at any time at the discretion of the Board of Directors.

Each outstanding option under the Company's 1996 Stock Incentive Plan will vest and become immediately exercisable for all of the option shares at the time subject to that option in the event there should occur a hostile take-over of the Company, whether through a tender offer for more than thirty-five percent of the Company's outstanding voting securities which the Board does not recommend the shareholders to accept or a change in the majority of the Board as a result of one or more contested elections for Board membership.

Certain Relationships and Related Transactions

From time to time, the Company may provide loans to certain officers of the Company in connection with their employment. On December 24, 2000, the Company loaned Kevin Kennedy, who at the time was Senior Vice President, IOS Technologies and Service Provider Line of Business, the amount of \$3,800,000. The loan is a full recourse obligation of Mr. Kennedy and bears interest at the rate of 6.01% per year, compounded semi-annually. The entire balance of the loan (principal and accrued interest) is scheduled to become due and payable in one lump sum on December 26, 2002, subject to acceleration in the event Mr. Kennedy should cease to remain in the Company's service prior to that date. The loan documents provide that Mr. Kennedy must at all times maintain ownership of a sufficient number of vested stock options for the Company's common stock such that the after-tax value of the spread on those options (the excess of the fair market value of the vested shares subject to those options over the exercise price payable for those shares) is at least equal to the unpaid balance of the loan. To the extent the after-tax value of the spread on the vested options falls below the loan balance by reason of one or more option exercises, Mr. Kennedy must either pay down the loan balance or pledge vested shares of the Company's common stock as collateral for the loan. As of August 31, 2001, the outstanding unpaid balance of Mr. Kennedy's loan was approximately \$3,958,000.

However, in the event that the annual meeting is called for a date which is not within thirty days of the anniversary of the date on which the immediately preceding annual meeting of shareholders was called, to be timely, notice by the shareholder must be so received not later than the close of business on the tenth day following the date on which public announcement of the date of the annual meeting is first made. In no event will the public announcement of an adjournment of an annual meeting of shareholders commence a new time period for the giving of a shareholder's notice as provided above. The Bylaws of the Company further require, among other things, that the notice by the shareholder set forth a description of the business to be brought before the meeting and certain information concerning the shareholder proposing such business, including such shareholder's name and address, the class and number of shares of the Company's capital stock that are owned beneficially by such shareholder and any material interest of such shareholder in the business proposed to be brought before the meeting. The chairman of the meeting may refuse to permit to be brought before the meeting any shareholder proposal (other than a proposal made in accordance with Rule 14a-8) not made in compliance with these requirements. Similar procedures prescribed by the Bylaws of the Company are applicable to shareholders desiring to nominate candidates for election as directors.

In addition, the proxy solicited by the Board of Directors for the 2002 Annual Meeting of Shareholders will confer discretionary authority to vote on any shareholder proposal presented at that meeting, if the Company is not provided with notice of such proposal on or prior to July 30, 2002.

CHARTER FOR THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

1. Purpose

The primary function of the Audit Committee is to assist the Board of Directors in fulfilling its oversight responsibilities by reviewing the financial information which will be provided to the shareholders and others, the systems of internal controls which management and the Board of Directors have established, and the Company's audit and financial reporting process.

The independent accountants' ultimate responsibility is to the Board of Directors and the Audit Committee, as representatives of the shareholders. These representatives have the ultimate authority to select, evaluate, and, where appropriate, replace the independent accountants.

The Audit Committee will primarily fulfill these responsibilities by carrying out the activities enumerated in Section 3 of the Charter. The Committee shall be given full access to the Company's Internal Control Services group, Board Chairman, Company executives and independent accountants as necessary to carry out these responsibilities.

2. Composition of the Audit Committee

The Audit Committee shall be comprised of three or more directors, each of whom will be independent as defined by the National Association of Securities Dealers, Inc. (NASD).

All members of the Committee shall be able to read and understand fundamental financial statements, including a balance sheet, income statement, and cash flow statement.

At least one member of the Committee shall have past employment experience in finance or accounting, requisite professional certification in accounting, or any other comparable experience or background which results in the individual's financial sophistication, including being or having been a chief executive officer, chief financial officer or other senior officer with financial oversight responsibilities.

3. Responsibilities and Duties

To fulfill its responsibilities and duties, the Audit Committee shall:

1. Review annually the Audit Committee Charter for adequacy and recommend any changes to the Board.
2. Review the accounting principles, policies and practices followed by the Company in accounting for and reporting its financial results of operations.
3. Review the financial, investment and risk management policies followed by the Company in operating its business activities.
4. Review the Company's annual financial statements.
5. Review any management letter prepared by the independent accountants and review the Company's internal financial controls, including the activities of the Company's Internal Controls Services department.
6. Recommend to the Board of Directors the selection of the independent accountants.
7. Obtain on an annual basis a formal written statement from the independent accountants delineating all relationships between the accountants and the Company consistent with Independence Standards Board Standard No. 1, and review and discuss with the accountants all significant relationships the accountants have with the Company to determine the accountants' independence.

8. Review the effectiveness of the independent audit effort, including approval of the scope of, and fees charged in connection with, the annual audit, quarterly reviews and any non-audit services being provided.

9. Review the performance of the independent accountants and approve any proposed changes in accountants when circumstances warrant.

10. Following completion of the annual audit, review separately with the independent accountants, the Internal Control Services department, and management any significant difficulties encountered during the course of the audit.

11. Report to the Board on the major items covered at each Audit Committee meeting and make recommendations to the Board and management concerning these matters.

12. Perform any other activities consistent with this charter, the Corporation's Bylaws and governing law as the Committee or the Board deems necessary or appropriate.

4. Audit Committee Meetings

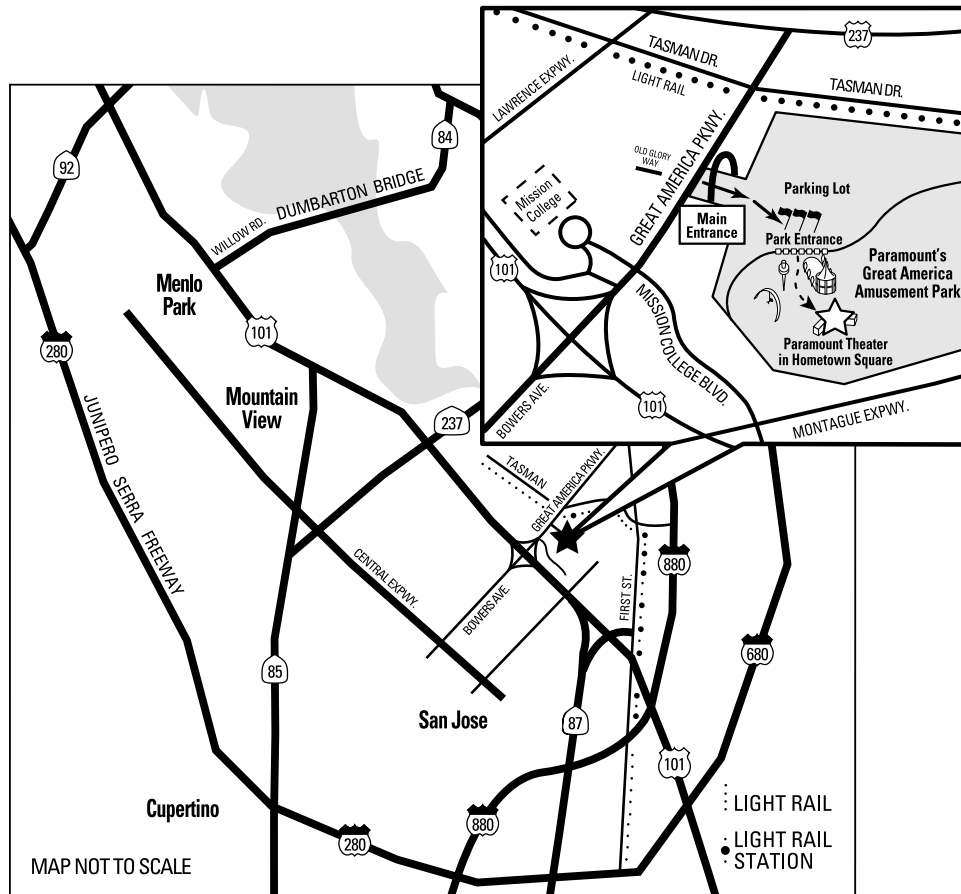

The Committee will meet on a regular basis, approximately 3 to 4 times each year, and will hold special meetings as circumstances require. The timing of the meetings shall be determined by the Audit Committee.

At all Audit Committee meetings a majority of the total number of members shall constitute a quorum.

5. Communication Between Audit Committee Meetings

The Committee will meet at any time if the independent accountants believe that certain communication to the committee (e.g., significant events, transactions or changes to accounting principles affecting the quality of financial statements) is required in connection with their review of quarterly reporting.
