

Termination of IBM Host On-Demand Entitlement Option

A stylized graphic of a globe with white grid lines on a blue background, positioned on the left side of the page.

As of December 31, 2000, IBM has terminated the entitlement option wherein Cisco Systems customers who purchased a Cisco TN3270 Server license could request a package shipment of IBM Host On-Demand with entitlement for 50 registered users at no charge. IBM Host On-Demand provides Java-based terminal emulation from a standard Web browser.

The original entitlement option was jointly announced by IBM and Cisco on February 23, 2000, and allowed new or existing Cisco TN3270 Server customers to request a shipment of the Host On-Demand product. IBM continues to offer the Host On-Demand application, and the Cisco TN3270 Server continues to support the Host On-Demand application client for both secure and nonsecure sessions. For additional information on the Host On-Demand product, visit IBM's Web site at <http://www-4.ibm.com/software/webservers/hostondemand/>.
