

Product Bulletin - Public #452

Cisco IOS™ Software Release 11.0(6) Supported on Cisco 1000 Series Only

To provide additional time for testing of software fixes associated with recently discovered defects in IBM remote source-route bridging (RSRB) functionality, Cisco IOS Software Release 11.0(6) will be supported only on the Cisco 1000 series of routers, which do not support IBM functionality and thus are not affected by these RSRB issues.

A complete set of Cisco IOS Software images for all platforms supported on Release 11.0 will be available in Release 11.0(7) scheduled for availability in early April. Release 11.0(7) will provide the same functionality as Release 11.0(6) and will incorporate the fixes for these RSRB issues.

If you have any questions regarding this issue, please contact Kevin Delgadillo at (408) 526-7334 or send email to delgadil@cisco.com.
