

Cisco 12000 Series GBIC Product Code Transition

Cisco Systems® is migrating the Cisco 12000 Series Gigabit Interface Converter (GBIC) product codes to standard Cisco® product codes. There is no change in functionality, compatibility, or compliance because the physical hardware will remain the same. Only the product code will change. The Cisco Short Form Pluggable (SFP) optics names will remain the same as GLC-SX-MM, GLC-LH-SM, and GLC-ZX-SM.

Product Code Transition Matrix

Table 1 details the new product codes that will be available for purchase on the Cisco 12000 Series.
