

End-of-Sale Announcement for Cisco 1720 VPN Security Bundles

Last Day to Order Cisco 1720 VPN Security Bundles is October 31, 2002

The widely popular Cisco 1720 VPN security bundles have proven effective at delivering discounted VPN and security solutions. However, with the release of the Cisco 1721 Modular Access Router, you can create VPN security bundles based on this more feature-rich platform. The Cisco 1721 offers many significant feature enhancements over the Cisco 1720 router, including: greater memory architecture, faster processing, and 802.1Q VLAN support. Additionally, the Cisco 1721 is priced equally to the Cisco 1720 router. Because of the Cisco 1721 advantages, Cisco has created a Cisco 1721-based VPN bundle. Therefore, the Cisco 1720 VPN security bundles will reach EOS November 1, 2002.

The following product numbers will not be orderable after October 31, 2002:

Product Number

CISCO1720-VPN-M/K9

CISCO1720-VPN-M/K8

Replacement Products

New VPN security bundles based on the Cisco 1721 Series routers have ceased to offer customer greater performance, value, and

investment protection. The replacement routers for the Cisco 1720 VPN security bundles are as follows:

EOS Product	Replacement Product
CISCO1720-VPN-M/K9	CISCO1721-VPN/K9
CISCO1720-VPN-M/K8	CISCO1721-VPN/K9

The Cisco 1721 VPN Security Bundle referenced above is priced at US\$2,495; its price is identical to the Cisco 1720 VPN security bundles.

The Cisco 1721 VPN Security Bundle offers customers several advantages over Cisco 1720 VPN security bundles, including:

- Faster processing CPU
- Increased default Flash memory (16 MB)
- 16 MB DRAM upgrade (to 48 MB)
- Inter-VLAN (802.1Q) routing

Note: The Cisco 1721 VPN Security Bundle does not include the WIC-1ENET.
