

# Cisco 6100/6130 End of Life Announcement

## Overview

The Cisco Digital Subscriber Line Business Unit (DSLBU) is announcing the End of Life for the Cisco 6100, 6110, 6120, and 6130 chassis, along with all associated line cards, network interface modules, cables, and hardware. Customers are encouraged to purchase the Cisco 6160 IP DSL Switch platform for continuing digital-subscriber-line (DSL) rollouts, and participate in the Technology Migration Program for the Cisco 6100, 6130, NI-1 interface, and two-port line-card products.

The CISCO6110 (DOH Cross-Connect Chassis) and CISCO6120 (POTS Splitter chassis) will also be discontinued. The replacement for the 6110 is direct-connect technology, which does not require a cross-connect chassis. The 6120 has been replaced by 3rd party splitters.

Product IDs and dates (Last-Time Buy, End of Hardware Support, and End of Software Support) are listed below.
