

# End-of-Life Announcement for the CiscoWorks LAN Management Solution 1.X

Cisco Systems® announces the end of life of the CiscoWorks LAN Management Solution (LMS) 1.0 software and related 1.X maintenance releases. The last day to order LMS 1.0 was on May 1, 2001. Cisco® recognizes the popularity of the LMS 1.X product and plans to make important update releases available for an extended period of time, while encouraging all customers to upgrade to the LMS 2.x product release train prior to the end-of-support period for LMS 1.X. Customers with appropriate service contracts will continue to have access to online updates posted on Cisco's Software Center download site, and receive support for LMS 1.X from the Cisco Technical Assistance Center (TAC) until May 1, 2004. All LMS 1.X customers are encouraged to migrate to the latest CiscoWorks LMS software release, which provides enhanced device support, new application features (including device fault management), and updated third-party operating system and client browser support. Read Table 1 for the milestones and effective dates of this end-of-life notice. Table 2 lists the product part numbers affected by this announcement.

At the time of this posting, LMS 2.2 is the recommended migration path for LMS 1.X customers to use. Table 3 provides details on migration options consistent with LMS 2.2. Please refer to the LMS products page at the following link for additional information and the latest details about the current release version and supported features:
