

# Egypt Expo

**Massimo Migliuolo**

Vice President  
GTM – Emerging Market

# Transformation Begins with a **Vision...**

- Enable a national infrastructure empowers citizens, government, and businesses
- Connecting the catalysts of a nation's growth on a common *intelligent information network*

\* Information and communications technologies

# The New Normal

# What is **The New Normal**? Technology and Business Decentralization

## Business/Financial

- Globalization
- Scale → speed
- Productivity

## Society

- Digital Divide
- Mobility
- Consumer-driven
- Green

## Administration

- Compliance
- Governance
- Policy
- Security

## Technology

- Continuous connectivity
- Real-time information
- Web 2.0 and richer content/applications

## Competitive

- Empowered employees
- Consumers demanding more
- Borderless enterprise

# The Need to Build Broadband Equity

**“While global business may be mobile, communities are not. Communities everywhere have the same goal: to be a place where people can raise their children and give those young people enough economic opportunity to allow them to stay and raise children of their own. ”**

Intelligent Community Forum, <http://www.intelligentcommunity.org/>

**“To date, broadband has been deployed unevenly, with lower-cost, higher-income areas receiving access first. ... In fact, such market forces will continue to deprive low-income and rural areas of broadband access, without government intervention .”**

“Framing a National Broadband Policy,” Dr. Robert Atkinson, President of Information Technology and Innovation Foundation, a Washington D.C. based technology policy think tank.

# Broadband Economy: Catalyst for Social and Economic Development

- Increased productivity is a major driver of development and growth
- Productivity gains are achieved through social inclusion, extending access to services across all levels of society, and increasing attractiveness to residents and investors
- Ubiquitous broadband promises greater socioeconomic development for:

Education

Safety and security

Health

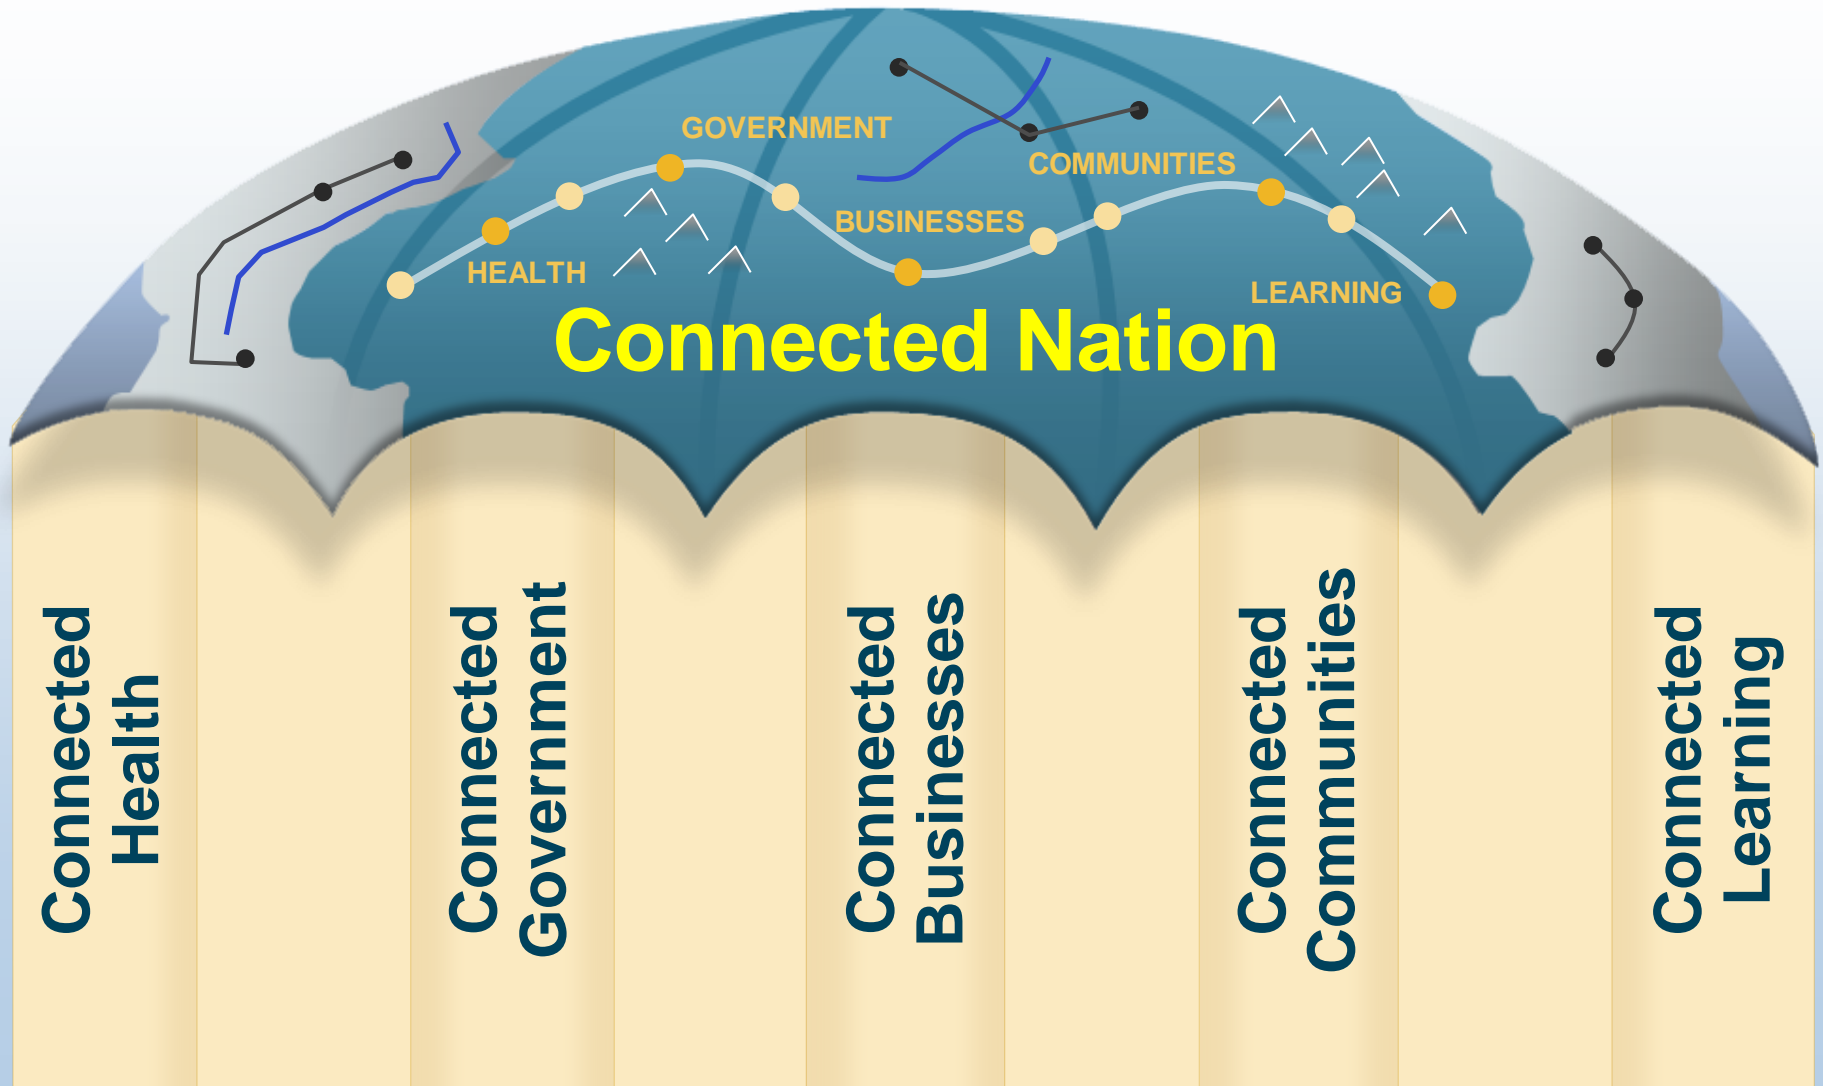

Transportation

Government

Living and doing business

# ...That Leads to a Connected Nation

# Broadband: Bigger than Telco...

## It's the Country's Enabler

- The public sector is between 40 – 50 percent of GDP
- The sector is challenged by bureaucracy and inefficiency:

Example: 152 days to start a company in Brazil – 2 days in Australia – 33-47 days in Russia

- Results show the public sector can enjoy at least a 1.5%\* productivity gain per year
- In just a few years, this gain is greater than total telecom market
- NET NET: The Country Case is far more significant than the Telco business case

- Doing the math—assume GDP at US\$1,300B:

3-year cumulative productivity benefit for the public sector = **US\$ 59 M**

Typical size of the total telecoms market at 3% of GDP\*\* = **US\$ 39 M**

Typical 3 year NGN investment by Incumbent operator \*\*\* = **US\$ 35 M**

Sources: \* WEF 2006; \*\*OECD—sample of Emerging Markets with Telecoms representing 3% of GDP;  
\*\*\*CSFB average of incumbent NGN investment rates (invest/sales ratio at 30%)

# Evolve The Operating Model to enable Broadband as the 4<sup>th</sup> Utility

---

AppStore open economy in which customers can offer and purchase services on equal terms

---

---

Services Exchange connecting users to services

---

---

Lean, live and intelligent network

---

---

Passive Infrastructure layer leveraging right of way and Utility economics

---

# Broadband is the 4<sup>th</sup> Utility !

...driving many applications...affordability and accessibility are key

## Entertainment

- Streaming Music
- Video Streaming
- IPTV
- DVB
- Video on demand
- HD video downloading
- Online gaming
- EPG
- Gambling
- Virtual world

## Productivity/ Business

- Collaboration
- Emailing
- Virtual world
- Web browsing
- File Sharing
- Data Backup
- Telecommuting
- TelePresence
- Cloud computing
- Remote Surveillance
- Building control management

## Government

- E-Government
- Digital TV channels
- Remote Education
- Collaborative workspace
- Online public services
- Disseminating public information
- Medical File sharing
- Remote Diagnosis
- Telemedicine

## Information & Communication

- News
- Web 2.0 services
- Instant Messaging
- Social networking
- Family Calendars
- Photo & Video albums

# Virtual Classroom - Project Lakshya

- TelePresence made it all possible by bringing the teams closer together and demonstrating the power of technology and its benefits and advantages to society.

- Lakshya has established five remote learning centers and has a target of 20 centers by 2010.
- Physics, computing, accountancy and English language skills classes held via WebEx.

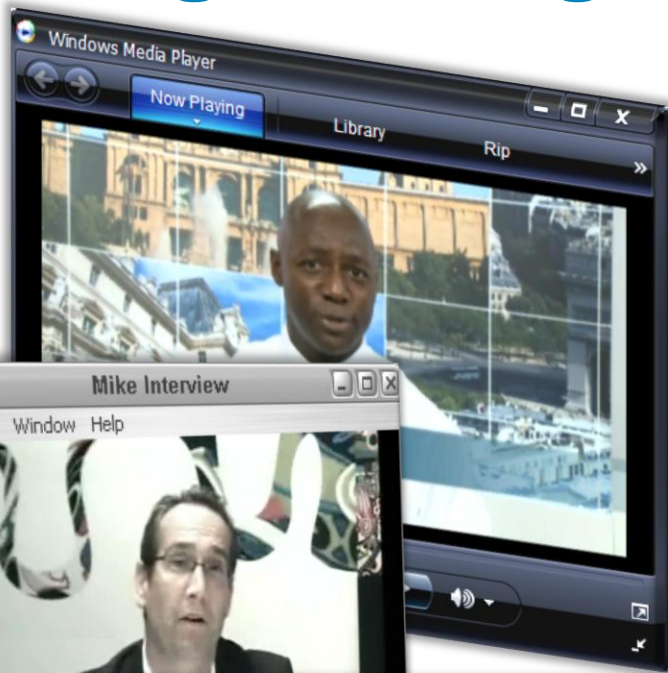

# Connected Hospital Solution

- Increase Hospital/Doctors/Patients (teacher/student/parents) experience
- Replicate in 40.000 Hospitals in Brazil

- Cost rationalization
- Process improvement and simplification
- Innovation

# Change Management

# Business without Boundaries: Alibaba.com

- B2B Global online marketplace matching sellers and buyers; online business, technology, marketing services.
- 1.1 M New jobs in last 3 years
- 42 million registered SMBS from 240 countries

## Join Us in Bahrain!

**1800+ attendees expected from Europe, Middle East, Africa and Asia**  
*at the Bahrain International Circuit, home to the Gulf Air Bahrain Grand Prix*

- ❖ **Event under the patronage of HRH, The Crown Prince of Bahrain**
  - Travel** - 50% flight discounts on Gulf Air and discounted hotel rates for all attendees
  - Visas** - Waiving visa fees and providing fast lanes through customs
  - Entertainment** - A special night kindly hosted by the Bahrain Ministry of Culture & Information
- ❖ **200+ sessions delivering innovation technology content covering Cisco's core technologies solutions and architectures:**
  - 168 breakout sessions split across 8 technology tracks
  - 17 technical seminars – whole day session focused on one technology solution (March 28)
  - 24 customer case studies
  - Walk in Labs & Cisco Career Certification
  - Unique keynote program staging holographic TelePresence & Cisco corporate guest speakers
- ❖ **World of Solutions Exhibition** – Cisco together with 45+ strategic partners showcase the latest in innovative technology solutions
- ❖ **IT Insights Program** – Addressing IT managers & business decision makers
- ❖ **Meet the Engineer** – Ability to discuss technology challenges with 300+ Cisco experts
- ❖ **Innovation Awards** – Honoring outstanding achievements that truly embrace innovation

knowledge  
 s power

**Conference Information & Registration Website:**
