- Linksys Partner Program - LPC
- Coming Soon
- Q&A

- Focused on building products for the Small Business
These are business with office sites of < 100 employees
Sweet spot is 5-30 employees
- What does “Purpose Built for Small Business” mean?
Our products are NOT consumer or enterprise products made to “fit” small businesses
Our products are built exclusively for addressing small business needs:
LAN, WAN, Remote Access, Security, Voice, Applications and Storage
 - QoS, Security, Advanced Features, Management, IPv6
- Moving from product-focused to solutions-focused (combining 3rd party software with Linksys hardware as a bundled solution)

Wireless-G VPN Router with RangeBooster

Five 10/100/1000Mbps, half/full duplex, switched ports

Forwards and filters packets at non-blocking, full wire speed

All ports have auto speed negotiation and auto MDI/MDI-X crossover detection

Supports address learning and aging, 802.3x flow control and head-of-line blocking prevention

BUSINESS SERIES

Model No. WRT54GL

Q2 CY08

- **Enhances the availability of the Linksys One Solution**
- **Provides power redundancy for up to 6 devices (one at a time)**
 - Detects when power of attached device fails and supplies power to it
 - No loss of data or reboot on part of device
 - Backs off from powering failed device when it regains its internal power supply
- **Provides power redundancy for multiple Linksys One products**
 - Switching Portfolio - SGE2000P, SGE2000, SFE2000, SFE2000P family
 - NAS devices – NSS4000, NSS6000

- **8 FE, 24 GE, and 24 GE Service Provider Switches**
- **SP features to enable Metro-E deployments**
- **Key Features:**
 - Security features (IP Source Guard, Dynamic ARP inspection, etc)
 - Manageability (CLI, DHCP Option 82, IPv6 Host Mode for manageability over IPv6)
 - Services rollout features (QinQ, MVR, etc)

- **Key Differentiators – Full portfolio, Cisco/Linksys**

End-End solution

- **Availability**
 - NAM – Q1 CY08
 - EMEA/APAC – Q1 CY08

Routing & Security Solutions

WRV54G

- 802.11g
- Support Up to 50 VPN Tunnels
- VPN Tunnel Pass-Through
- Omni-Directional Antenna

WRV200

- 802.11g MIMO
- Support Up to 10 VPN Tunnels
- Omni-Directional Antenna – 1x2 MIMO
- Multiple SSID

WRV4400N

- Draft N MIMO
- Based on RSV4000 Security Router
- SPI Firewall + IPS
- 5 User IPSEC VPN
- Gigabit WAN/LAN

WRVS4420N (Dekker)

- 802.11n
- Based on RSV4000 Security Router
- SPI Firewall + IPS
- 30 Users IPSEC VPN Tunnels
- Gigabit WAN/LAN

Merckx-W

- 802.11n
- (2) GigE WAN + (4) GigE LAN
- Integrated SPI Firewall
- IPsec and **SSL** VPN (100 tunnels)
- IPS + **AV**
- Trend Micro Email and Web filtering

LINKSYS®

A Division of Cisco Systems, Inc.

Product Family Comparison:

	NSS4000	NSS4100	NSS6000	NSS6100	Notes
HARDWARE					
Processor	600MHz w/256KB L2 Cache	600MHz w/256KB L2 Cache	900MHz w/256 L2 Cache	900MHz w/256 L2 Cache	
Memory	128MB SDRAM	128MB SDRAM	512MB DDR	512MB DDR	
Pre Installed Hard Disks ²	N/A	(4) x 250GB	N/A	(4) x 250GB	HD are 24x7 Rated
SOFTWARE					
Volume Snap Shot	No	No	Yes	Yes	
Virtualization Host	No	No	Yes	Yes	Host Required To Have RAID Sets Span Boxes ¹
MAXIMUM AGGREGATE SIMULTANEOUS CONNECTIONS/OPERATIONS					
CIFS	15	15	75	75	Windows/MAC Clients
FTP	2	2	50	50	
NFS	20	20	20	20	Linux/Unix Clients
GUI Access	1	1	1	1	
NMS Access	1	1	1	1	
System Backup	1	1	1	1	
Snapshot	0	0	1	1	File Undelete

¹ All RAID Volumes Must Be On The Same Subnet For Them To Participate In A Virtualized Or Aggregated RAID Set
² References Pre-Installed Hard Disks, Other Sizes Are Supported.

Support RAID Types

NSS4100 Based Configuration
4 x 250GB [7200RPM] High Duty Cycle SATA HDs

RAID 0 Striped No Parity

RAID 5 Stripe with Parity

RAID 1 Mirrored

RAID 5 Stripe with Parity + Spare

RAID 1 Mirrored + Spare

RAID 10 Mirrored & Striped

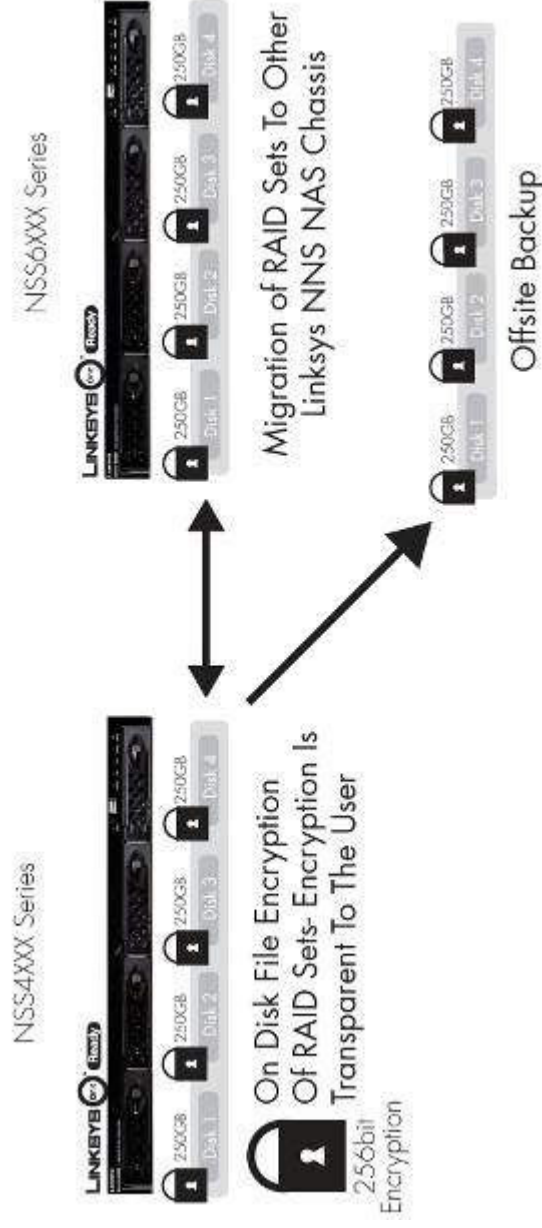

Virtualization Examples

A Virtualization Master Unit Can Host Up To 4 Exported/Networked Disks or RAID Sets

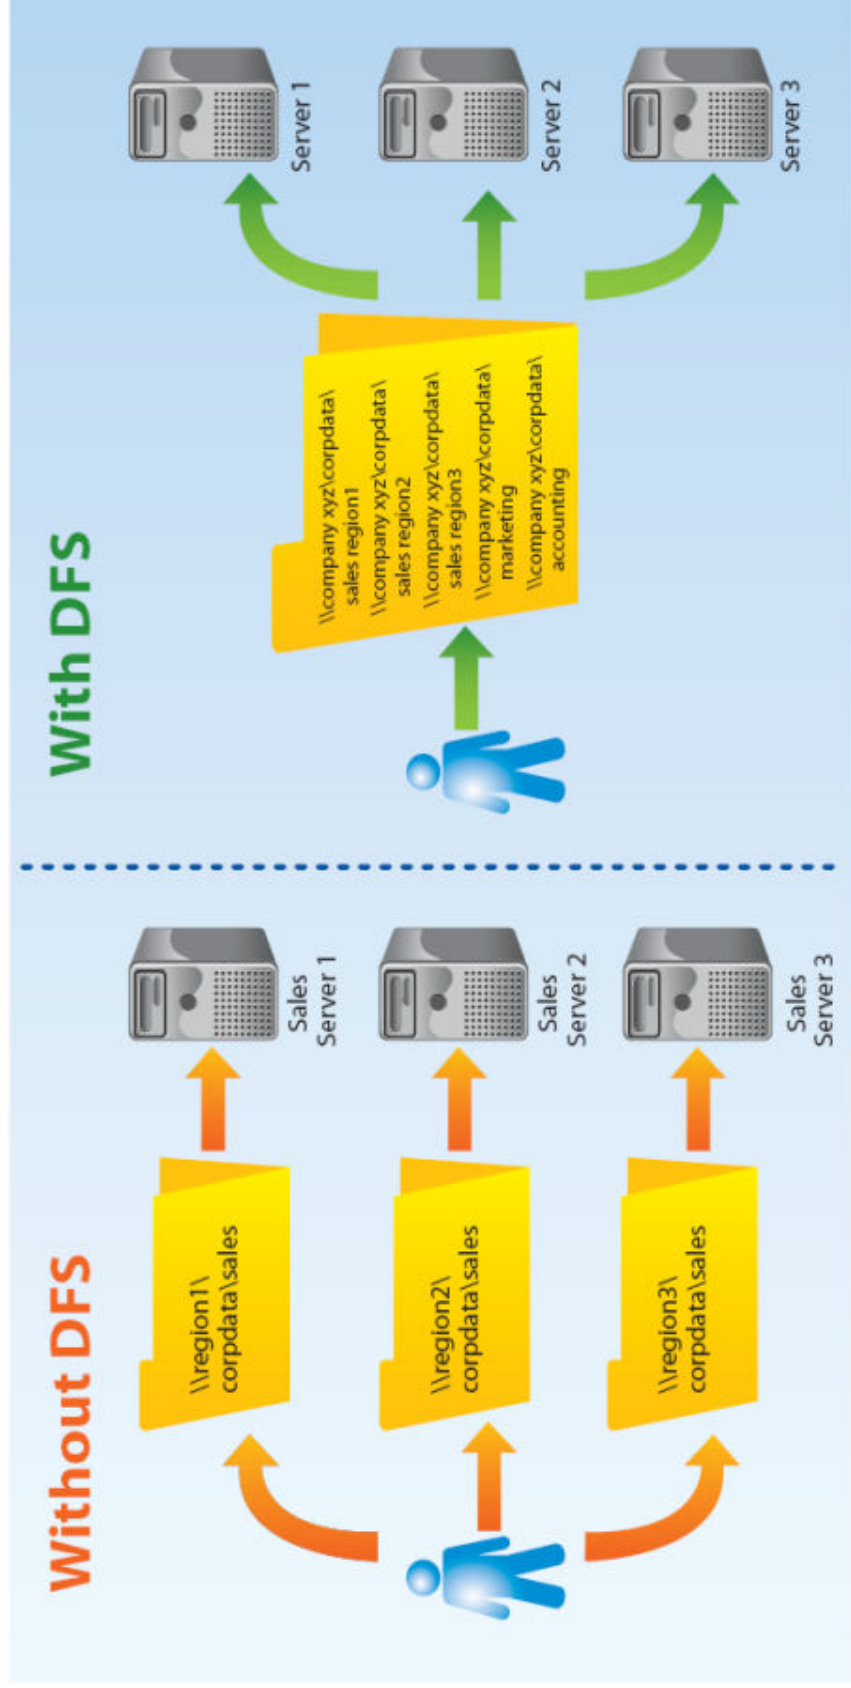

Diskless Chassis Based Design With Encryption

- Enables Migration of RAID Sets Between Systems
- Enables Secure Offsite Backup/Archiving of Data

Verticals Market Opportunities:

- Health Care
- Legal
- Accounting

Distributed File System Example

Source: Microsoft DFS Doc

Rack Mount

"Koga 1 & Koga 2"

NSS6000/NSS6100

NSS4000/NSS4100

Desktop

"Iga1" & "Iga2"
NSS3000/NSS3100 (4 Bay System)

Cousteau2
NSS2000/NSS2100 (2 Bay System)

Common Features:

- Linksys One Ready (Nugget 2.0)
- Disk-Less Chassis Based Design
- RAID Set Migration Between Chassis
- Compatible File Encryption
- Virtualization Compatible
- Microsoft Distributed File System Support
- RAID Set Expansion/Migration
 - Add Drives
 - Expand RAID Sets
- Media Server
- COBO IPv6 Strategy Compliant
- Microsoft Vista Support

Portfolio Overview

Linksys Voice Solutions

Voice Over Broadband • Leadership + Innovation

Residential – Gateways • Routers • ATAs (Voice & Video) • Telephones (Cordless & WiFi) • Home Phone Systems

SOHO & Very Small Business – Phone Systems • IP Phones (Desk + WiFi) • FMC Routers with VoIP

- Large, mature SIP-Based Product Line deployed by Service Providers Globally
- ATAs (FXS/FXO), ATAs w Routers, ATA/Router/WIFI, ATA/Router/WIFI/DSL...
- Residential IP Phones, Business IP Phones, WIFI Phones, IP Key Systems ...
- Large Breadth of SIP-Based Products with Deep Feature Set, Interoperability, Security
- #1 In Consumer VoIP – Vonage • AT&T • Earthlink • Telio (NOR) • ingen (AU) • 1,000s More . . .
- Over 10 Million Ports Shipped Since 2005

Linksys VoIP Growth 2004 - 2006

Currently counting over 10M ports shipped....

- Broad Product Line with Deep Feature Sets
 - Market Leading Combinations
 - WIFI/Router/VoIP = Linksys
 - Compact, Attractive, Stylish
 - Global Availability & Compliance
 - Sustained Interoperability Commitment
 - Device Management Features support FCAPS requirements
 - Customized Product Offerings
- Brand Name Recognition
 - Leverages Linksys / Cisco name
 - Highly visited web sites
 - Product Advertising / Promotion
- Dedicated Sales & Support
 - Knowledgeable Sales Teams
 - Strongest Retail Presence
 - Large Distribution and VAR base
 - Comprehensive Tools & Docs
 - Experienced Technical Support
 - Silicon Valley Feature Development
- Price enables Volume Deployments
 - Proven market changing products
 - ATAs
 - SPA900 Series IP Phones
 - LVS9000 IP PBX System

- Service Providers
 - Partners and Customers
- Equipment Vendors
 - Products to Fill Out Product Offering
 - Offer End-to-End Solutions
- Softswitch & SIP Proxy Vendors
 - Complimentary Product Offerings
- Distribution Partners
 - Provide Products to Our Customers
 - Service Providers
 - Value Added Resellers (VARs)
 - System Integrators

Now Working with:

- HotSip

The Linksys SPA900 Series Telephones are Fully Sylanthro,
Broadsoft and Tekelec Certified.

The SPA9000 is Broadsoft SIP Trunking Certified.

- Shared Line Appearance (SLA)
- Dashboard Based Provisioning
- Call Park & Call Pickup
- Intercom (auto-answer)
- Distinctive Ringing
- Direct Inward Dial (DID)
- Multi-Party Conferencing
- Last Call Return
- Call Forward Indication
- Calling and Called Party Display

- deFacto SIP Standard – Mature & Proven
- Boot Time – Seconds versus Minutes
- QOS: Layer 2 and Layer 3 (DSCP) Packet Marking
- Flexible Dial Plan
- CODEC Support
 - Current: G.711, G.723, G.726, G.729
 - Future: Speex, iLBC, G.722 Wideband
- Security
 - Separate User and Admin Passwords for Web Configuration
 - Admin Password Optionally Required for Factory Reset
- SIP over TLS:
 - SPA2102, SPA3102, SPA922, SPA942, and SPA962 (October 2006)
- Physical Size – Less Desk Area Required
- WiFi Support – Routers, IP Phones, System Base Stations
- Configurable Parameters
 - Over 500 versus less than 200
- Broadsoft & Sylanro Certified on Real Service Provider Networks
- IP Media Loopback

- Linksys VoIP Endpoints Use the Same Remote Provisioning Interface
 - **Secure** TFTP, HTTP, and HTTPS Remote Provisioning
 - Remotely Read Configuration for Backup and Restore
 - XML Provisioning Files with Common Parameters
- Linksys VoIP Endpoints have Integrated HTTP Servers with Consistent Look and Feel

Latest Innovations in Voice

SPA962 IP Phone

- Most Affordable Color Phone on the Market
- Fully Integrated with LVS
- **SPA962 Available: December 2006**

SPA932 32 Button Sidecar

- SPA962 Sidecar for Attendants
- 1 In to 64 Additional Buttons / 2

WIP310 WiFi Phone

- SIP Standard
- Linksys Internally Developed
- Can Be Used w/ LVS Endpoint
- SPA-Style Remote Provisioning
- **WIP310 Available: CYQ1 2007**

SPA400 Analog PSTN Gateway SPA410 ISDN BRI PSTN Gateway

- Land Line Gateway for LVS Users
- SPA400: 4 x FXO (Analog) Ports
- SPA410: 2 x BRI (ISDN) Ports
- Integrated Voicemail Server
- **SPA400 Available: Now**
- **SPA410 Available: CYQ1 2007**

Software / Provisioning Innovations

- RC (Remote Customization) – Allows All the Benefits of Factory Customization without the Lead-time, Commitment & Cost
- SIP over TLS – Makes VoIP as Secure as On-Line Banking
- sRTP – Encryption of Voice Calls
- SIP Application Server Interoperability
- Localization of SPA900 Series Phones

Linksys IP Phones

Hardware Features of the SPA921/922, SPA941/942, SPA962:

- Distinctive Industrial Design
- Hi-Resolution Graphical Display
- 802.3af PoE (SPA922, SPA942, SPA962)
- Menu Driven User Interface
- Illuminated Line Keys (SPA941, SPA942, SPA962)
- Four Soft Keys
- Four Way Navigation Button
- Speakerphone with Hands Free Operation
- Headset Port – 2.5mm
- Hold Button
- Message Waiting Light
- Message Retrieval Button
- Volume Control
 - Handset
 - Speaker
 - Headset
 - Ringer
- Illuminated Speaker, Mute, and Headset Activation Keys
- Audible and Visual Incoming Call Alert

SPA941
SPA942

SPA921
SPA922

SPA901/921/922/941/942/962 Software Features:

- Comprehensive Interoperability
- Excellent Voice Quality
- Secure Calling via sRTP
- Remote Provisioning via HTTPS, HTTP, TFTP
- Fully SIP for Business Compliant
- Downloadable Ring Tones
- Network Based Ring Tone Support
- Call Transfer
- Call Back on Busy
- Call Forwarding
- Call Conferencing
- Do Not Disturb
- Hands Free Operation (On products with a Speakerphone)
- Independently Configurable Dial Plan Per Line
- IP Dialing (URI or IP Address) Support
- Personal Directory – 100 Entries
- Call Logs for Incoming, Outgoing, Missed Calls – 60 Entries

**SPA941
SPA942**

**SPA921
SPA922**

SPA901

- Rugged design
- Single Extension
- Two Call Appearances
- Supports Bridge Line Appearances
- Indicators for Share Line Busy, Voicemail Waiting

- Speed Dial for Voicemail
- Menu/Settings button
- Mute button
- Headset button
- Speakerphone button

- Single Extension
- Two Call Appearances
- Otherwise, same features as the SPA941 & SPA942 Respectively
- Speakerphone
- Headset Jack (2.5mm)

- Four Extensions
- Ships with Two Extensions Enabled, Upgradable to Four
- Four Independent Line Keys
- Speakerphone
- Headset Jack (2.5mm)

- Six Extensions
- Six Independent Line Keys
- 320 x 240 Color Display
- Optional Sidecar for Attendant Console Applications
 - Up to 64 Additional Buttons

- SPA932
 - 32 Button Attendant Console (Sidecar)
 - Tri Color Programmable LEDs
 - Up to Two Consoles Can Be Attached – For a Total of 64 Buttons
 - Support for Broadsoft Busy Lamp Field
 - Support for Asterisk Line Monitoring (post FSS feature)
 - Powered by SPA962 – No Power Supply Required

- Linux Based WiFi Phone
- 802.11b,g
- Color Display
- Speakerphone
- 3-Way Conferencing
- Polyphonic Ring Tones
- Linksys Internally Developed Firmware
- Can Be an SPA9000 SIP Endpoint
- SPA Compatible Remote Provisioning
- Extended Battery Life
- Phase II Features:
 - Similar PBX Features as the SPA922
 - WPA Support – aka 7C
 - Roaming Support

- Land Line Gateway for Linksys LVS 9000 Users
 - 4 x FXO (Analog) Phone Ports
 - USB Master Port
 - Connects PSTN to LVS 9000 VoIP Network
 - Package Contents
 - SPA400 Device
 - 4 Phone Line Cables
 - USB Memory Stick
- Integrated Voicemail Server
 - Up to 32 Voicemail Accounts or "In-Boxes"
 - Enables LVS 9000 Phone System Users to Leave and Playback Voicemail Messages – Locally
 - Up to 16 Hours of Voice Messages Stored on USB Memory Stick (Included)
- SPA410 – ISDN Gateway with Voicemail Server
 - 2 BRI Ports (2 B+D)
 - In Concept Commit
 - Targeted for European Market

SPA400

- SPA900 Series Phones with Integrated PoE Support:

- SPA922
- SPA942

- PoE Ethernet Switch

- SRW224P
- SRW208P

- PoE Splitter

- POES5

New Marketing Tools

Next Generation Partner Program

- Network Attached Storage & Applications
 - Expand product portfolio with new desktop storage products
 - Partnership with IBM and their continuous data backup – real-time backup of data files
- IPv6 Infrastructure
- Expand 3rd Party Support And Integration With Application Appliances
- Expand Linksys To Cisco Trade Up Program

- IPv4: 32 bit addresses, which limits the max. IP addresses to 2^{32} max number of available addresses
4,294,967,296 (4 Billion)
~ 18 Million are reserved for private networks
~ 1 Million are reserved for multicast
- There is a shortage of IP addresses
- IPv6: 128 bit addresses, so max address range is 2^{128}
340,282,366,920,938,463,374,607,431,768,211,456
- Figure out how that number is called yourself ;-)
- The Earth surface is ~ 510 Million square km
=> ~ 1,500 IP addresses per m^2
- Should be enough for the near term future

- Offer complete SMB portfolio – Desktop to Rackmount
- Consistency in feature set and scalability (RAID levels, management, virtualization,.....)
- Tolly test completed and shows superior performance
- Complete solution offering incl. CDP software

Desktop

NSS3000/NSS3100 (4 Bay System)
(Estimated US Street) \$799/\$1399

NSS2000/NSS2100 (2 Bay System)
(Estimated US Street) \$499/\$899
