

**Joydeep Bose****Senior Director for Corporate Development - Investments and Acquisitions,  
Cisco**

Joydeep Bose is the Senior Director for Corporate Development - Investments and Acquisitions at Cisco, responsible for Asia Pacific Japan and Cisco Services M&A worldwide.

Before joining Cisco, Bose spent eight years at Intel India where he was the Managing Director for the Emerging Market Platforms Group. In this role, he was responsible for the company's 'World-Ahead' business and is credited with the very successful, category defining Classmate PC project worldwide.

Prior to this, Bose was the head of technology investments at Intel Capital India. As the key deal maker, Bose invested in several new generation technologies and served as a broad observer for several years. With his expertise in deal creations, execution, portfolio advocacy and disposition, most of these investments have fetched significant strategic and financial upside while working with the venture community in India.

Before joining Intel, Joydeep spent six years at AT&T Asia Pacific in several roles including Country Managing Director for its Managed Services & Solutions business, responsible for India and Singapore. Joydeep also spent 7 years in Singapore where he was the technology head for the Infrastructure Group of the National Information Infrastructure Division at National Computer Board (now IDA), Singapore. There, he contributed significantly to developing new business through technology incubation. Bose started his career as an R&D engineer at the Centre for Development of Telematics in New Delhi

Joydeep holds a graduate degree in engineering from Jadavpur University Calcutta, India and has completed a management program from AT&T Business School, New Jersey.
