Connected Women Leadership Forum 2011

Bangalore, June 9, 2011

Event Background

Today, there is growing participation of women in the workforce around the world as engineers, scientists, sociologists, teachers, and students. It is with the intent of connecting all these women across the ecosystem, that the Cisco Connected Women (CCW) India is hosting its 4th Annual **Connected Women Leadership Forum** (CWLF) on June 9th, 2011 in Bangalore. This event is a day of learning and networking for leaders and professionals from across the industry.

The theme for CWLF 2011 forum is **Celebrating Multidimensional Women** with special emphasis on Leadership, Career, Finance and Community.

The event starts with a keynote address by Vinita Bali, Managing Director, Britannia Industries Limited and Wim Elfrink, Executive Vice President & Chief Globalization Officer, Cisco. This will be followed by a panel discussion on "Confluence of Skills" that highlights the power of networking, negotiation, executive presence, and communication skills required to excel professionally and personally. The second half includes two parallel workshops and a short play.

Program Abstract

- **Key Note Address, Wim Elfrink**, Executive Vice President & Chief Globalisation Officer, Cisco.

Wim Elfrink, Executive Vice President & Chief Globalisation Officer, Cisco., will provide insight into entrepreneurship and leadership in a disruptive environment.

- **Key Note Address, Vinita Bali**, Managing Director, Britannia Industries Ltd.

Vinita Bali, Managing Director, Britannia Industries Ltd., will provide insight into her career journey and key traits that enabled her to be successful as a multidimensional leader. She will be focussing on what it takes to be a resilient and a successful leader.

- **Panel Discussion - Confluence of Skills**

Explore best practices around communicating with confidence and how to handle difficult conversations, conflicts and negotiations. Learn to address these challenges with effective networking strategies and tactics, thereby creating solid professional relationships.

Panel Members:

- 1) Dr. Sunita Maheshwari, Doctor & Entrepreneur, RxDx Multispecialty Clinic
- 2) D Ashok, CEO of Gossamer Consultants (Executive Coach)
- 3) Priya Chetty Rajagopal, Vice President & Partner, Stanton Chase International
- 4) Faiyaz Shahpurwala, Senior Vice President, Cisco Services
- 5) Alka Manchanda, Director, Engineering will be the moderator for this Panel discussion.

- **Parallel Session 1: Steps for Success - Managing Career and Financial Future**

Speakers:

- 1) Shubha Apte, Assistant Vice President, Thomson Reuters
- 2) Dinesh Gopalan, Director, Fidelity India

Our distinguished speakers will focus on career and financial planning. Shubha Apte will provide insights on planning and pursuing a successful career, while having to shoulder multiple responsibilities. Dinesh Gopalan will provide practical tips on personal finance management.

- **Parallel Session 2: Enabling Community via Technology, Aravind Sitaraman**, Vice President, Inclusive Growth, Cisco

By virtue of being multidimensional, women need to juggle their priorities between professional and personal lives while being able to contribute positively to the society. One of the key challenges is to be able to keep pace with current and future industry trends in technology and be able to fulfil their social responsibilities by leveraging innovative technology.

Aravind Sitaraman, VP/Managing Director, Cisco will give us an insight into future industry trends in technology and how Cisco plays an important role in shaping it. This session focuses on inclusive growth and emphasizes how technology enables community outreach and how women can actively participate in inclusive growth.

- **Short Play: Just a Woman by Laxmi Chandrashekar**

The play talks about women in a man's world, where Laxmi blends in the stories of five women from mythology, such as Gandhari, Sita, and Draupadi to the contemporary real-life characters, such as Roop Kanwar and Bhanwari Devi, portraying a quiet strength and resilience.

About Cisco Connected Women India (CCW-India)

Cisco recognises the need for more female participation in high technology. Cisco has programs and resources to help women develop their skills as individual contributors, managers, and executives. Cisco actively leads and participates in activities within and outside the company. In line with its inclusive organisational culture, Cisco has a number of employee networks to support the development and growth opportunities of staff. The Cisco Connected Women (CCW) has a broad vision “to contribute to the strategic effort to enhance Cisco's success in attracting, developing and retaining talented women employees”. Cisco views the CCW as an integral part of its business success.

CCW India has more than 350 employees as members. CCW activities are strategized and executed by a core team of volunteers, with the guidance of executive sponsors and thought leaders. The volunteers develop programmes in line with the business guidelines and employee-needs in the context of the local culture. The executive sponsors provide thought leadership, business direction and funding for such initiatives.

Like its other employee networks, Cisco's CCW in India maintains a business plan, with specific goals in several focus areas that support the company's business objectives.

These include:

- Business Partnerships
 - The **Connected Women Leadership Forum** is an initiative to bring professionals from Cisco and corresponding leaders from our customers and partners to share business practices and learn from each other to build a stronger ecosystem in the industry.
- Recruitment
 - The **'Girls in Technology'** programme focuses primarily on building an interest in technology among female college students.
- Professional Development
 - The **Powered Development Sessions** is an open event for all employees, giving them an opportunity to hone their technical and soft skills. Panel discussions, seminars, networking events like International Women's Day celebration have helped build a strong network among employees at Cisco. The CCW website and WIKI are key initiatives to sustain the growth and success of this human network.
 - The **Mentoring Programme & Executive Shadowing** helps in connecting junior women employees with senior managers and executives for focussed mentoring sessions on career development at Cisco.
- Critical Success Factors
 - A clear framework for vision, strategy, execution and metrics for this employee resource group
 - Alignment with business objectives
 - Visible support from senior management
 - Dedicated team of volunteers

About Cisco

Cisco is the worldwide leader in networking for the Internet. Today, networks are an essential part of business, education, government and home communications, and Cisco Internet Protocol-based (IP) networking solutions are the foundation of these networks. Cisco hardware, software, and service offerings are used to create Internet solutions that allow individuals, companies, and countries to increase productivity, improve customer satisfaction and strengthen competitive advantage. The Cisco name has become synonymous with the Internet, as well as with the productivity improvements that Internet business solutions provide. At Cisco, our vision is to change the way people work, live, play and learn.

Cisco was founded in 1984 by a small group of computer scientists from Stanford University. Since the company's inception, Cisco engineers have been leaders in the development of Internet Protocol (IP)-based networking technologies. Today, with employees and development spread worldwide, the tradition of innovation continues with industry-leading products in the core areas of routing and switching, as well as advanced technologies in areas such as Home Networking, IP Telephony, Optical, Network Security, Storage Networking and Wireless LAN.

Cisco India Pvt. Ltd. commenced operations in 1995. With sales and marketing operations spread across 7 key cities in India - New Delhi, Mumbai, Bangalore, Chennai, Pune, Kolkata and Hyderabad and a Global Development Centre in Bangalore (largest outside of the US), Cisco dominates the networking market in core technologies of routing and switching, as well as WLAN and network security. The total India headcount is over 7000 employees, including R&D, sales and business support staff.

In October 2007, Cisco opened operations in India at the new Globalisation Centre Campus, which was inaugurated by Cisco's Chief Executive Officer Mr. John Chambers and the honourable former President Dr. Abdul Kalam. The centre also includes a state of the art Global Briefing Centre with the latest technologies from Cisco on display including the award winning Cisco Telepresence Systems.

For more information please refer to <http://www.cisco.com>

Wim Elfrink
Executive Vice President, Emerging Solutions & Chief Globalisation Officer
Cisco

Wim Elfrink is Cisco's Chief Globalisation Officer and Executive Vice President for Emerging Solutions. In this role, Elfrink heads three global functions; leading Cisco's Global Emerging Solutions and Emerging Countries initiatives, and driving the company's globalisation strategy from Cisco's Globalisation Centre East in Bangalore, India, where Elfrink has lived with his family since 2007. Elfrink is a direct report to Cisco Chairman and CEO John Chambers and is an officer of the company. Elfrink's role as Cisco's first ever Chief Globalisation Officer is to lead Cisco's efforts to become the world's most globally relevant company, by incubating new business models and partner ecosystems, growing in strategic markets, and transforming global operations. The globalisation strategy is designed to help Cisco deliver a greater spectrum of solutions, business models and partners for its customers worldwide. Elfrink also leads Cisco's Smart+Connected Communities initiative, which uses the network as the platform to transform physical communities to connected communities, run on networked information, to enable economic, social and environmental sustainability.

In 2010, Elfrink's responsibilities as Chief Globalisation Officer were expanded to include co-leadership of Cisco's market adjacency strategy with Cisco Chairman and CEO John Chambers. The adjacencies function is to position Cisco's entry into new emerging markets and emerging solutions with a special focus on Brazil, Russia, China, India and Mexico.

During his 14 years at Cisco, prior to his current responsibilities, Elfrink has had roles leading European Services and then from 2002, Global Services, which Elfrink grew from \$3.3B when he assumed leadership to more than \$7.6B in 2010.

During his time based in India, Elfrink chaired the CII (Confederation of Indian Industry) Steering Committee on Intelligent Urbanization which in May 2010 recommended a Framework for Sustainable Urbanization for India. In December 2009 Daily News & Analysis, a leading Indian newspaper named Elfrink one of Bangalore's 50 Most Influential People – one of 12 from the corporate world and the only expat to be featured.

VINITA BALI
Managing Director, Britannia Industries Limited

Vinita Bali was appointed Managing Director on 31st May 2006. Vinita joined as Chief Executive Officer of the Company in January 2005. She received her Bachelor's Degree in Economics from LSR at the University of Delhi and her MBA at the Jamnalal Bajaj Institute of Management Studies at Bombay University. She pursued postgraduate studies in Business and Economics at Michigan State University on a scholarship from The Rotary Foundation, and was selected to work as a Graduate Intern at the United Nations headquarters in New York.

She started her career with Voltas Ltd.-a Tata Group company focusing on consumer products, where she launched Rasna soft-drink concentrate. In 1980, Vinita joined Cadbury India, where she had a successful career in roles of increasing responsibility, not just in India, but also in the UK, Nigeria and South Africa. Vinita also served on the Boards of Cadbury Nigeria and Cadbury South Africa.

The Coca-Cola Company chose her as its worldwide Marketing Director in 1994 where she was responsible for the worldwide strategy for Coke, and was one of the key players in doubling its historical growth rate. In 1997 she took over as Vice President of Marketing for Latin America, and in 1999 relocated to Chile as President of the Andean Division with sales in excess of USD 1 Billion. In 2001, she was made a corporate officer of The Coca-Cola Company and appointed Vice President of Corporate Strategy reporting to the Chairman.

After an eventful nine-year association with Coke, Vinita joined her mentor at Coke, Sergio Zyman at the Zyman Group in July 2003 as a Managing Principal and Head of the Business Strategy practice in the company's Atlanta office. As a member of the company's Board of Managers, Vinita shared responsibility for developing and managing Zyman Group's consulting business.

Dr. Sunita Maheshwari
Doctor & Entrepreneur, RxDx Multispecialty Clinic

This "Chief dreamer" trained in Pediatrics and Pediatric Cardiology at Yale University in Connecticut. She was the winner of the 'Young Clinician Award' from the American Heart Association and the 'Best Teacher Award' at Yale University. Apart from her medical clinical work she is a medical entrepreneur and in 2002 she helped set up Teleradiology Solutions, a one of its kind innovative health care IT company that provides teleradiologic interpretations to hospitals globally and now in remote areas of India. She also runs RDX, a multispecialty acute care clinic in Whitefield, which believes that health care delivery can be done in a way that doesn't let a patient "feel like a patient".

She is active in the social arena in India where she runs 2 trust funds. People4people puts up playgrounds in poorer sections of Karnataka, especially in government schools, and funds activities for children. Telrad Foundation provides telerad services to poor areas in Asia that do not have access to high quality medical reports. Patients at hospitals such as Ramakrishna Mission hospital in Arunachal Pradesh have been greatly benefited by diagnostic reporting by this foundation which brings high quality low cost diagnostics to remote India

Her other interests include teaching and spreading the word about children with heart disease and what can be done for them. She currently runs the first of its kind innovative e-teaching program for postgraduates in pediatric cardiology all across India and Nigeria using a Cisco platform.

Dr Sunita Maheshwari is a doctor, entrepreneur and a socially active human being. She was nominated as one of the top 20 women health care achievers in India and was one of the few innovative entrepreneurs chosen to meet President Obama on his recent trip to India.

FAIYAZ SHAHPURWALA
Senior Vice President, Cisco Services

As Senior Vice President, Cisco Services, Faiyaz Shahpurwala is part of a strong executive leadership team at the Cisco Globalisation Center East in Bangalore, India. Shahpurwala's organization is responsible for developing and driving the professional services strategy, competency, and portfolio for the global enterprise market segment. His team brings services innovation, globalisation models, deep technical expertise, and delivery excellence to accelerate customer success with Cisco solutions and advanced technologies.

In his role, Shahpurwala oversees Advanced Services in Asia Pacific and the Emerging Markets, and leads global Cisco Services Data Center Virtualization and Security efforts. As co-lead for the Cisco Safety and Security Board, and Data Center Virtualization Architecture Board, he helps drive overall company strategy, execution and key strategic data center partnerships. He also represents Services on the Cisco China Strategy Board, Cloud Board, and Cisco on Cisco Council.

Shahpurwala joined Cisco in 1992 in the Cisco Technical Assistance Center (TAC) organization. He then became a member of the team that founded a Network Supported Accounts (NSA) program and organization to provide proactive services to the company's largest enterprise and service provider customers. He held many senior leadership roles within the NSA organization, which grew to become the current Cisco Advanced Services team. To provide customers an additional level of services unique to the industry, he initiated the High Availability Services team and built the Advanced Services Tools team. He also pioneered the idea for NatKit, a remote network monitoring tool for which he was awarded a patent.

Shahpurwala holds an MS in Computer Engineering from Western Michigan University.

Shubha Apte
Assistant Vice President Technology, Thomson Reuters

Shubha has over 25 years of diverse experience in Sales, IT Delivery, Quality (Software Testing & Process) and Content Operations. She has served in several Leadership roles & has managed team size of 250 plus across different geographies. Shubha has worked with reputed MNC's like Motorola, Dell, Thomson Reuters and Indian Organizations like Blue Star, Escorts, and has always been recognized for her ability to build high performing teams.

Shubha currently serves as AVP-Technology for the US Law Firms Business Unit of Thomson Reuters in Bangalore. In this role she and her team are responsible for Application Development, Software Testing & Application Support.

Prior to her current role at TR, Shubha was Director – Global E-Commerce Operations at Dell International Services where she started and managed the offshore Content Operations and Development center in Bangalore. During her 5 years tenure at Dell, Shubha was also a part of the leadership team that managed offshore Global Development Center in Bangalore. In this role Shubha led the Global Development Center on its Quality journey and actively participated in development and implementation of the Global Process and Tools program.

Prior to Dell, Shubha worked with Motorola India Ltd. During her 7 year tenure in Motorola she was responsible for Managing National Service Operations and Service Quality for its Personal Communication Division. She was a key member of the Quality Management team and have worked extensively on Motorola 's Malcolm Baldrige and other Quality Initiatives'.

Shubha has spent close to 10 years of her initial career in Sales for, Office Automation, Telecom and IT products with leading Indian Multinationals.

Shubha holds a Bachelor 's degree in Electrical Engineering and is also a certified Lead Assessor for ISO. She has completed her training for "The Competent Coach" from International Coaching Federation (ICF) and is further pursuing the certification program for accrediting as Associate Certified Coach for conducting Executive Coaching.

Dinesh Gopalan
Director, Fidelity-India

Dinesh Gopalan holds an MBA from IIM-A. He has 24 years of experience in corporate finance functions of several organizations, including ten years in the Tata Group. He is currently working as Director - Finance in Fidelity Investments, which has a large captive IT/ITES set-up in Bangalore.

He is passionate about the subject of Personal Finance and Investments. He has conducted several sessions on Personal Finance within Fidelity and outside as well. You can access his blog at (<http://www.dineshgopalan.com>)

Aravind Sitaraman
Vice President - Inclusive Growth, Cisco Systems

Aravind Sitaraman is a Computer Scientist with over 25 years of work experience. After pioneering work in several startup companies and US high-tech companies, he became one of Cisco Systems leading innovators with 54 US patents. He has led and been part of several international standards bodies.

As the Managing Director of the Cisco Development Organisation, Aravind held management responsibility for all R&D activities in India. He sponsored The Innovation Hub to incubate new technologies. In 2009, he started the Emerging Countries Solutions and Services Business Unit to focus on products and solutions for emerging countries. He led Cisco's Civic Council focusing on Corporate Social Responsibility and launched several successful programs including 'Feed a Child' and 'Adopt a School.'

In 2009, championing the cause for flood relief in Karnataka, Aravind became the Executive Sponsor for Project Samudaya to enable villages through technology. This project morphed as a vehicle to deliver inclusive growth worldwide. In October 2010, he was appointed as President for Inclusive Growth.

Aravind has published several papers on strategic and social issues in several Indian and foreign papers. In 1996, he was invited to visit the National Human Rights Commission of India in New Delhi. In 2006, he was invited to join the Asia Center in Bangalore. He was on the Board of Studies of Anna University and PSG College in Coimbatore. Aravind serves on the Board of Trustees of CLT India (educating rural children through technology) and Sivagami Ammal Memorial Trust (assisting artists, promoting Indian culture).

Since his relocation to India in 2000, Aravind has re-established whatisindia.com in Bangalore. From 2005 to 2007, Aravind focused on rebuilding a village for Tsunami victims in Southern India and digitising ancient inscriptions. In November 2010, Aravind wrote and produced an opera on the first woman freedom fighter of India called "Abbakka Rani: Queen of Spices".

Laxmi Chandrashekar
Managing Trustee - Kriyative Theatre

Born in 1951 in a small town in Hassan district of Karnataka, Laxmi Chandrashekar received her higher education in Mysore. She has post graduate degrees in English from the universities of Mysore and Leeds (U.K.) Laxmi started acting when she was still in school and has been in theatre for over four decades. Since 1977, she has been a member of the Kannada theatre group Samudaya which believes in using theatre as an instrument of social change and has acted major roles in most of their productions. She has acted in more than 25 plays, in Kannada as well as in English.

Laxmi has also played major roles in a number of popular television serials including Malgudi Days, and in award-winning films like Atithi, Matadana, Mouni and Beru. She was awarded the Aryabhata Award for Best Actress for the Year 2002 for her role in the path-breaking television serial 'Grihabhanga ', directed by Girish Kasaravalli, one of India's foremost film-directors. Since 1998 Laxmi has been busy touring with her solo performances, which she performs in Kannada as well as in English. Her first solo 'Hennallave' ('Just a Woman' in English), which is a compilation of women characters from various sources, has already seen more than 160 shows both within India and outside. An acclaimed translator, Laxmi has translated several short stories and plays from Kannada into English, including her own solo scripts 'Just a Woman' and 'Singarevva and the Palace' and the comedy 'All's Well'. Laxmi has written a weekly column on theatre for the popular English daily, The Hindu for over 15 years. She has contributed theatre reviews to 'The Economic Times' and 'The Times of India'. She has published academic articles on theatre and literature and won awards for her work in theatre and translation. Laxmi is the founder and Managing Trustee of 'Kriyative Theatre', an organization devoted to wholesome, artistic and socially relevant theatre.
