

**By the time you finish  
this sentence, 35 new people  
will have joined the Internet.**

**No wonder he demands his  
service provider displays this logo.**

This month, 18 million people will go online for the first time. Next month? Probably more. The impact on your business will be huge. And your service provider will play a vital role in your success. But how do you choose the right one?

Fortunately, the answer is simple. Look for service providers who display the Cisco Powered Network logo. It means they employ Cisco technology, the same technology that carries virtually all of today's Internet traffic. They can help whether you need Internet access, ATM, Frame Relay, voice or any other network services.
