Meet over the web in real time.

Launch or join a meeting using any web browser. It's easy with WebEx solutions. Communicate information and share documents, presentations, and applications just like you do in person. Pitch ideas. Demonstrate products. Discuss the hot issues. Give invitees the option to connect by phone or VoIP on their computer, or by mobile phone, regardless of location.

Coordinate meetings easily.

Keep everything running smoothly using WebEx Meeting Center PowerPanels with separate attendee and host views. Deliver clear, interactive full-screen presentations and show documents to participants. Manage meeting functions behind the scenes with control panels.

Count on Cisco for secure, scalable WebEx service.

WebEx services are delivered on demand over the global Cisco WebEx Collaboration Cloud. No new software or hardware is required, making these services easy to implement and scale as your needs change. The WebEx Collaboration Cloud offers better than 99.99% reliability, as well as robust security, to meet your strict requirements. Your session content is never stored on our servers, and 128-bit SSL and 256-bit AES encryption ensures privacy during transmission. WebEx services are stringently audited against ISO-17799 standards with compliance details provided in a SAS 70 Type II report and other third-party security reports.

Make online meetings easy and productive with a powerful set of features.

Document, Application, and Desktop Sharing

Show documents, applications, and your desktop to remote attendees in real time. Pass control to attendees so they can share their desktops, or annotate yours. Collaborate on content as you annotate and enlarge documents or graphics. Switch between different sharing modes without transitions or distractions. No need to upload files to a server.

Rich Multimedia Experience

Engage your audience by incorporating multimedia in your presentations: PowerPoint®, Flash™ animations, and audio and video.

Integrated Audio and VoIP

Offer a rich meeting experience with Cisco WebEx integrated audio. Choose toll or toll-free with call-in or call-back. Or give attendees the option to join using integrated VoIP on their computers.

Active Talker

Identify who's speaking by a flashing icon in the meeting participant panel.

Video Conferencing

Give your attendees a real-time visual reference. Simulate face-to-face meetings with participants from multiple locations using Multi-Point Video.

Meeting Recording, Editing, and Playback

Record meetings and applications for future reference, training, or demos.

Desktop Integration Suite

Initiate meetings instantly from Microsoft Office® Microsoft Outlook®, Lotus Notes, and a variety of instant messaging solutions, including Cisco WebEx Connect.

One-Click Meeting Access

Start a meeting and invite attendees instantly from your desktop, taskbar, or favorite applications.

Easy Meeting Invites

Send meeting invitations and reminders using an automated phone call, text message, email from your local client, or IM, including Cisco WebEx Connect and other instant messengers.

Enterprise Integration

Use a single signon to access WebEx Meeting Center and other enterprise applications integrated with WebEx.

Cross-Platform Support

Meet with anyone using WebEx, on all common operating system platforms: Windows, Mac, Linux, and Solaris—or even on a mobile device.

WebEx Collaboration Cloud Performance and Reliability

Conduct multipoint interactive meetings worldwide—without latency or interruptions.

Switched Network, 128-Bit SSL Encryption, and PKI Secure Meetings

Secure your most confidential meetings with end-to-end security encryption. Control access by requiring attendees to present PKI certificates to join.

PowerPanels™

Deliver full-screen views for attendees while you manage meeting activity behind the scenes.

Presentation Notes Panel

View presentation notes within a private panel while you share a presentation.

Manage meeting activity without distracting attendees. See attendee list, chat, manage video, and control audio—behind the scenes in floating PowerPanels. Monitor any activity, even when PowerPanels are minimized, with indicators on the toolbar.

Give attendees a clear, full-screen view with a discreet toolbar for navigation.
