ONE-SUPPORT®

Need help identifying issues with your existing integrated systems? ONE-SUPPORT® would prove most helpful,

We understand that businesses may be facing technological challenges even after implementation by their various vendors, our ONE-SUPPORT® approach has been welcomed by many troubled customers.

flexible solutions for
your business needs

CONNECTING YOUR BUSINESS TO THE TECHNOLOGY RESOURCES YOU NEED

Breaking traditional business model, Digital Domain recognize and address the need of small and mid-enterprise customer therefore effectively providing them with solutions that meet even their most specific requirements.

Finding the right vendor is now an ever daunting task for businesses in this fast changing technological environment. Using our ONE-SOLUTION® approach and methodology, we have grown to become a valuable asset to any growing businesses.

ONE-SOLUTION®

You know that you need IT to drive your business forward but how do you do that?

Our solution consultants are trained to find out your specific requirements and with a team of experienced technological specialist, we analyze and understand the current and future direction of your business, proposing ONE-SOLUTION® to you.

Partnering with only leading technological providers, we are able to bring highly effective and relevant solutions to our customers. Our unique business model allows us to serve customers across all industry and territorial borders.

When ready solutions are not available, our team develops solutions in-house, interfacing different technological platforms allowing us to bring to our customers with only ONE-SOLUTION®

CUSTOM SOLUTIONS

It is wise and most cost effective to customize not more than 30% of existing solutions to meet your business needs. However not all business requirements can be met by products in the market. Digital Domain has in-house resources to design and develop one for your unique business needs

WEB SOLUTIONS

From domain and email hosting, website design to development. Hosted software solutions, The list goes on. We provide businesses with customised web development and hosting solutions within our local or overseas premises.

UNIFIED COMMUNICATION SOLUTIONS

Effective and efficient communications are the key ingredient in any successful and fast growing businesses. Cisco® Unified Communications brings new meaning to business reach.

CONSULTING SYSTEMS INTEGRATION RESEARCH & DEVELOPMENT SUPPORT

Founded in February 1997, Digital Domain has evolved from an IT hardware reseller to a full-fledged IT Business Solutions Provider.

We drive our customers business with creative end-to-end solutions that are tailored to their own unique business needs.

Working closely with leading industry providers, we engage customers with our unique ONE-SOLUTION® approach, allowing them to view us as a true one-stop IT solutions provider.

We have demonstrated our commitment by investing over \$500,000 in 2007, acquiring our very own office and lab. Over \$150,000 has been spent on equipping our team with cutting edge technologies from Cisco® Microsoft® and IBM® to serve our customers best.
