

Grow your business faster with a company-wide collaboration solution.

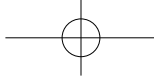

Gain a strong competitive edge by making online collaboration part of your business strategy. Empower people throughout your organisation to reach further and complete projects faster. WebEx® applications from Cisco make it easy and affordable to:

- Drive faster revenue growth by maximising productivity in every department.
- Accelerate time-to-market by optimising processes and operational effectiveness.
- Reduce costs significantly and see a direct impact on your bottom line.
- Rely on highly secure, enterprise-grade architecture to serve business-critical needs.

Achieve even greater success by engaging us to adapt our technology to address your unique business challenges and opportunities.

Make WebEx the standard for your collaboration strategy.

Manage highly-collaborative business processes using leading Internet technology to minimise costs while accelerating growth, knowledge dissemination and product time-to-market. Integrate WebEx solutions into your business processes and dramatically increase efficiencies in both internal and customer-facing activities.

Take advantage of rich functionality you won't find anywhere else.

Collaborate over the web with colleagues, customers, prospects and partners, across the street or across the globe.

Deliver presentations, share documents and applications, even your desktops, and work together interactively, just as you do in person. Captivate audiences with rich, interactive multimedia functionality in any format, including presentation animations and transitions, and full video.

Count on our full suite of scalable solutions to serve the broad needs of everyone in your organisation, using any system, any platform, any browser, or any device in any country.

Integrate WebEx meeting applications with your core business processes.

Start an online meeting any time from any application. And join a WebEx meeting from a smartphone - no computer required. WebEx offers out-of-box integration with a growing number of popular business, portal and presence applications. Schedule and start online meetings directly from everyday applications like email and instant messaging, as well as specialised business applications like CRM, LMS and others. Switch seamlessly between WebEx meetings and productivity applications with convenient single sign-on capabilities. Engage WebEx professional consultants to develop customised integration to your critical business applications.

Your WebEx solutions are delivered on-demand over our highly secure Cisco WebEx Collaboration Cloud, a US\$150M investment that includes 2000 servers in 36 collaboration clusters.

Trust WebEx to provide a solution that's secure, reliable, and cost effective.

Your Cisco WebEx collaboration applications are delivered on-demand over the global Cisco WebEx Collaboration Cloud, so they're easy and affordable to implement and support. Unique to the industry, this private, intelligent IP-based switching network provides a superior collaboration experience without the inherent delay and uncertainty of the public Internet. Business professionals worldwide rely on WebEx because they can:

- Conduct business using the richest possible set of interactive data, voice and video services.
- Expect superior performance, with better than 99.99%+ "always-on" reliability.
- Share even highly sensitive information confidently, using enterprise-grade security.

Cisco WebEx collaboration solutions deliver exceptional security and are submitted to regular third-party audits and certifications, including ISO-17799 and SAS 70 Type II.

Increase productivity in every area with a full suite of Cisco WebEx web meeting applications.

Complete projects faster and get more done with Cisco WebEx Meeting Center™

Keep dispersed teams coordinated, keep projects on track. Conduct regular meetings and take care of business more efficiently than with back-and-forth email.

Stage large events online with Cisco WebEx Event Center™

Give everyone a front-row seat at your next web seminar, PR event, sales kick-off, earnings call or all-hands. Simplify events with automated, customised HTML invitations, pre- and post-event support, and integrated broadcast audio.

Deliver engaging interactive training with Cisco WebEx Training Center

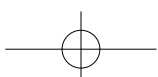

Maximise training effectiveness with testing features, threaded Q&A and breakout rooms. Set up hands-on labs for practice and review. Record sessions to play back later. Create revenue-generating programs with self-service registration and payments.

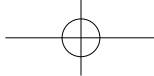

Service remote users with Cisco WebEx Support Center™

Work through most firewalls using standard ports, view and control remote desktops or applications, install or transfer files, record sessions, apply patches and updates in real-time.

Create a superior meeting experience with integrated audio

Give meeting hosts a single interface to schedule and manage both the audio and web portions of a meeting. Choose WebEx Audio, which include toll or toll-free calling with global coverage using a call-in or call-back connection, or VoIP. Or select Cisco MeetingPlace Audio Server, to leverage your investment in Cisco telephony solutions.
