- **Presentation Layers:** Develop integrated users interfaces for citizens, businesses, government in order to drive better informed actions

CUD Community

- Global Conferences
- Online Community Exchange
- Web Collaboration
- TP workstreams seminars
- Toolkits

The screenshot displays the homepage of the Connected Urban Development website. At the top, there is a navigation menu with links for Home, Forum, Blog, and a search bar. The main banner features a cityscape image and the text 'CONNECTED URBAN DEVELOPMENT IS CHANGING THE WAY WE LIVE'. Below the banner, there are several content sections:

- PROGRAM OVERVIEW:** Lists various topics like Mobility, Energy, Buildings, and ICT/Infrastructure.
- INTRODUCING CONNECTED URBAN DEVELOPMENT:** A text-based article explaining the concept of CUD and its goals.
- Amsterdam 23rd-24th September 2009:** A news item about the second Connected Urban Development Cluster Conference.
- Digital Statements - The Next Model for Distributed Collaboration and Decision Making:** A featured article discussing digital statements and their impact on urban development.
