

Public Services Summit 2009

Ageing Well in a Connected World

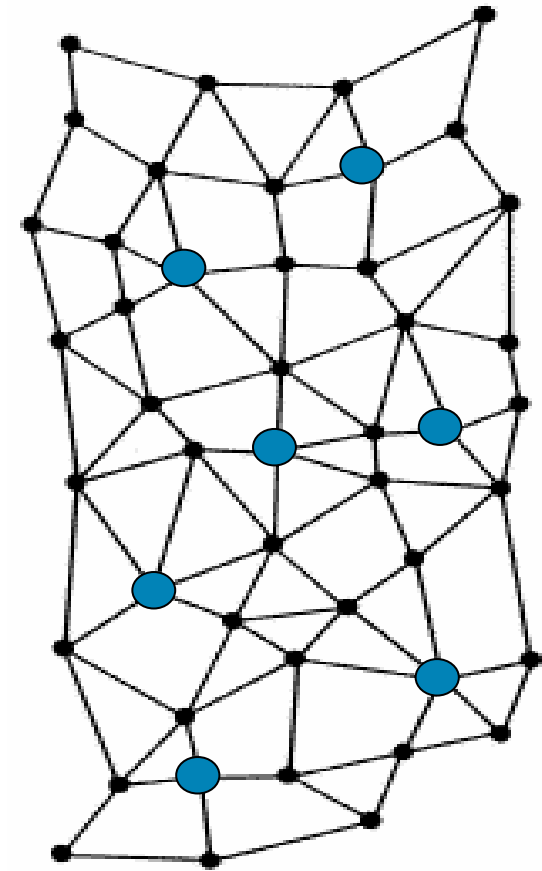

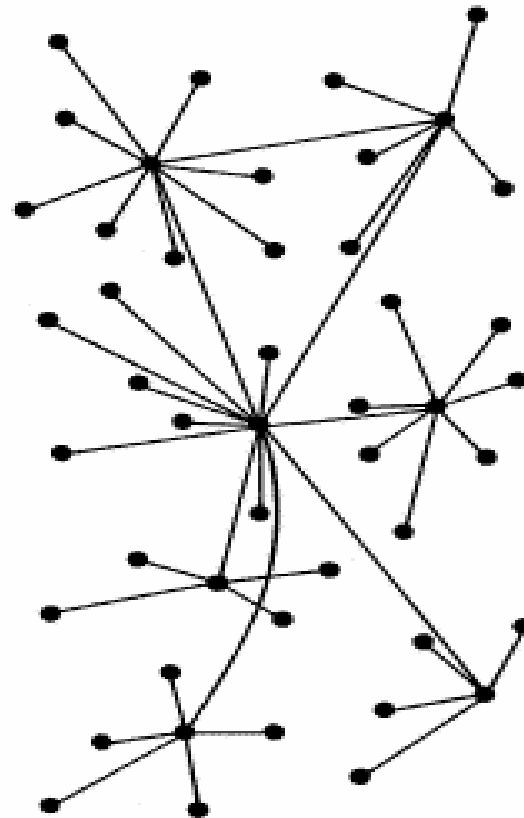

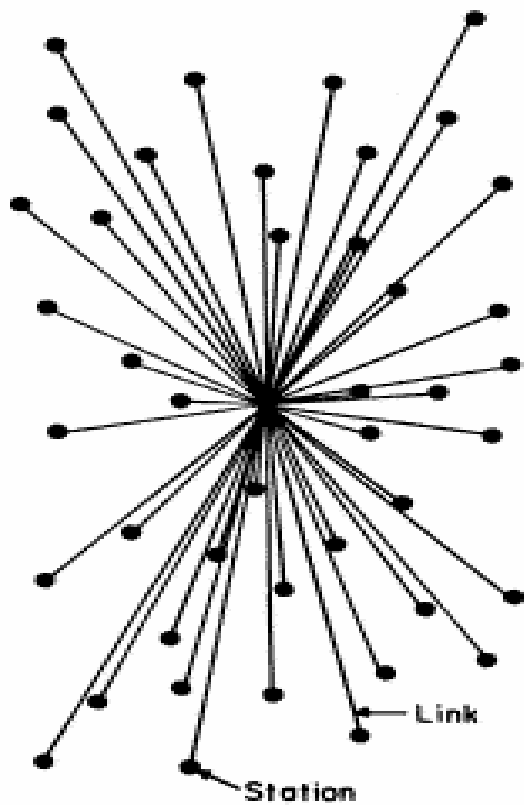

Ageing

Well ...

Paul Baran's Theory of Distributed Networks, 1969

Connected ...

World

Stockholm

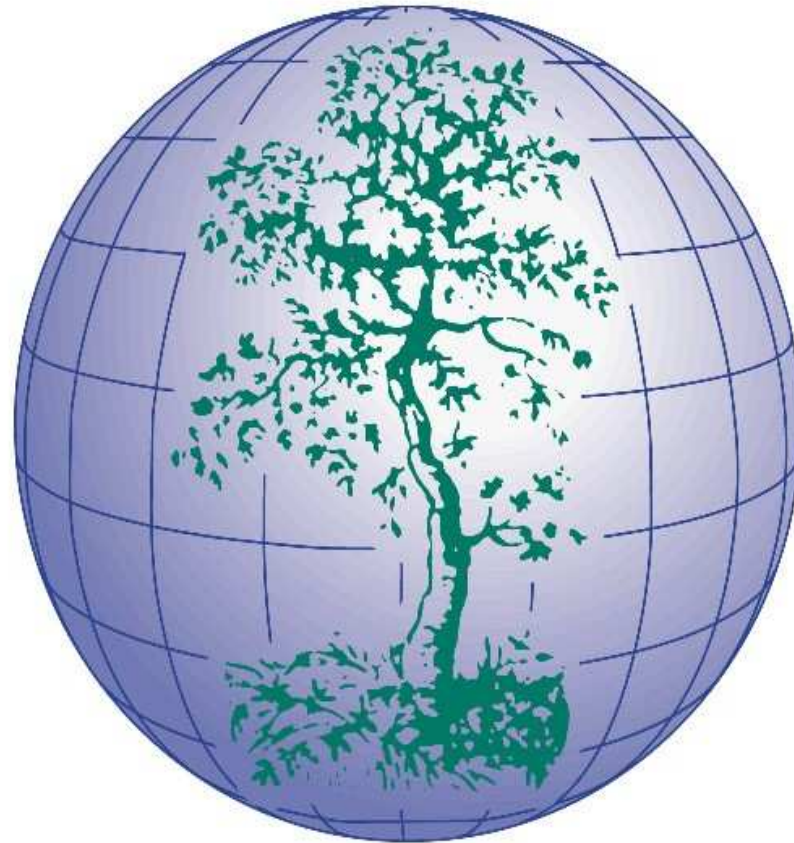

This morning

Q: When *physical* communication links are no longer a constraint:

- 1. What becomes possible, *at scale***
- 2. Why would this be *really good*?**

But first ..

IFA

Break out

Real innovation
for real needs

Q: When *physical* communication links are no longer a constraint:

- 1. What becomes possible, *at scale***
- 2. Why would this be *really good*?**

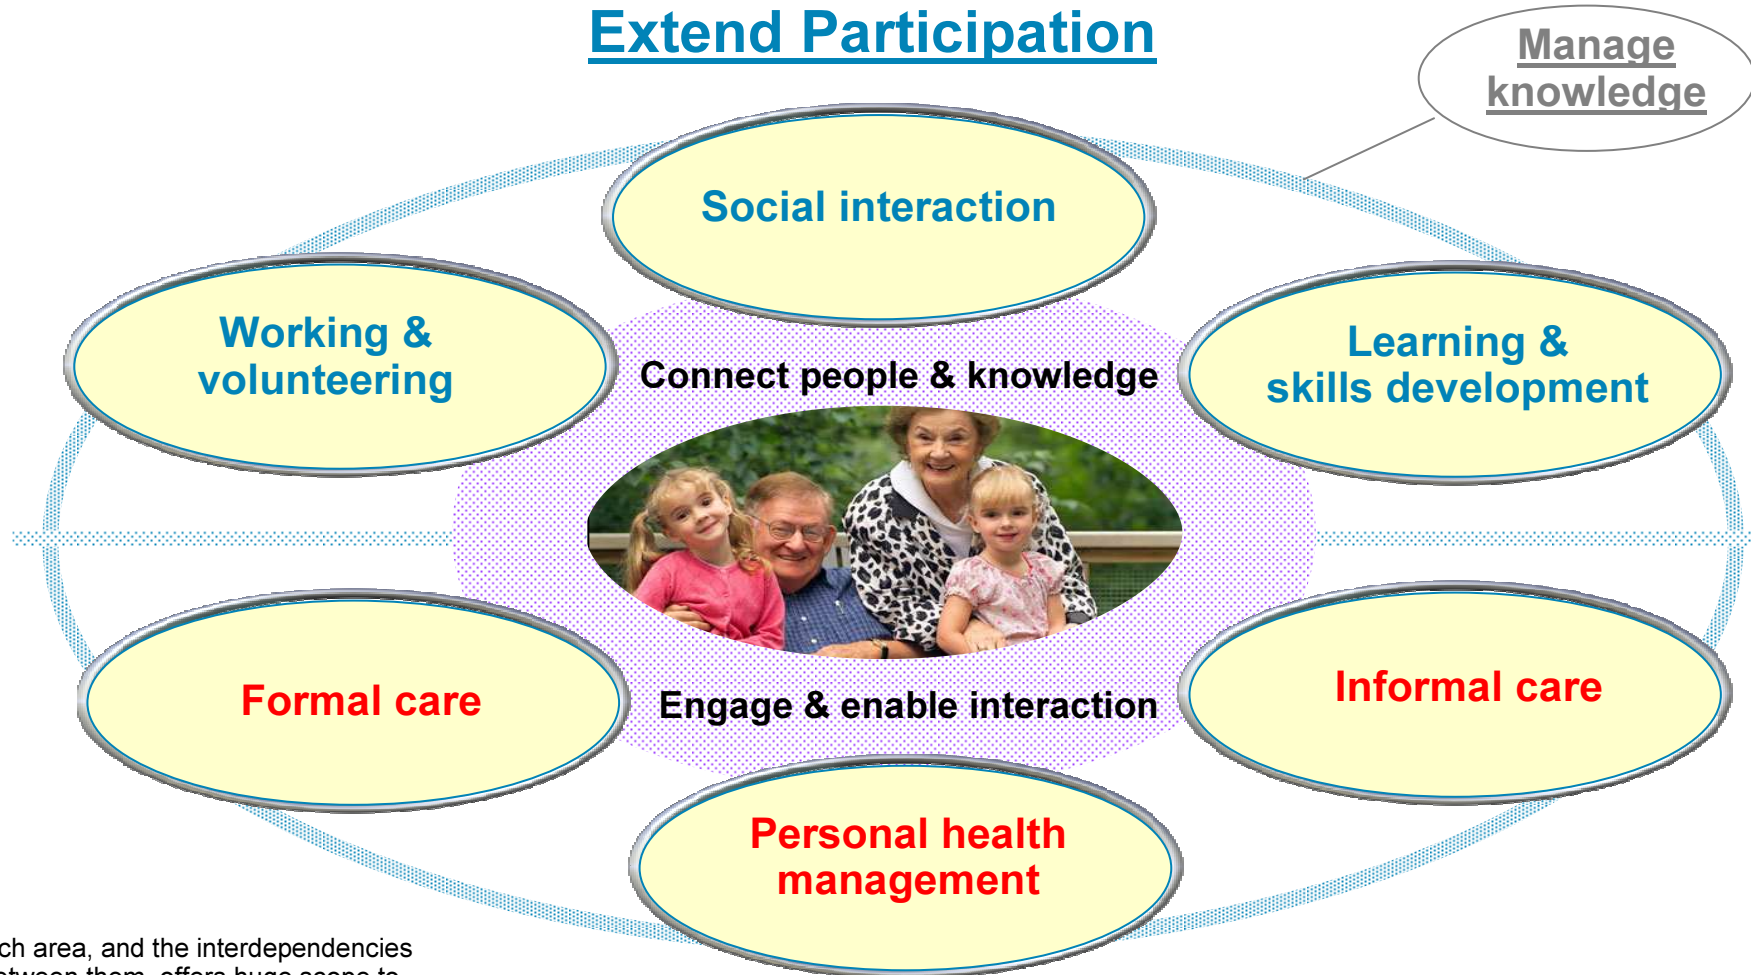

Consider this for:

- a) Human expectations and needs**
- b) Skills and labour-market needs**

~ Back together at 11:45 ~

Think holistically

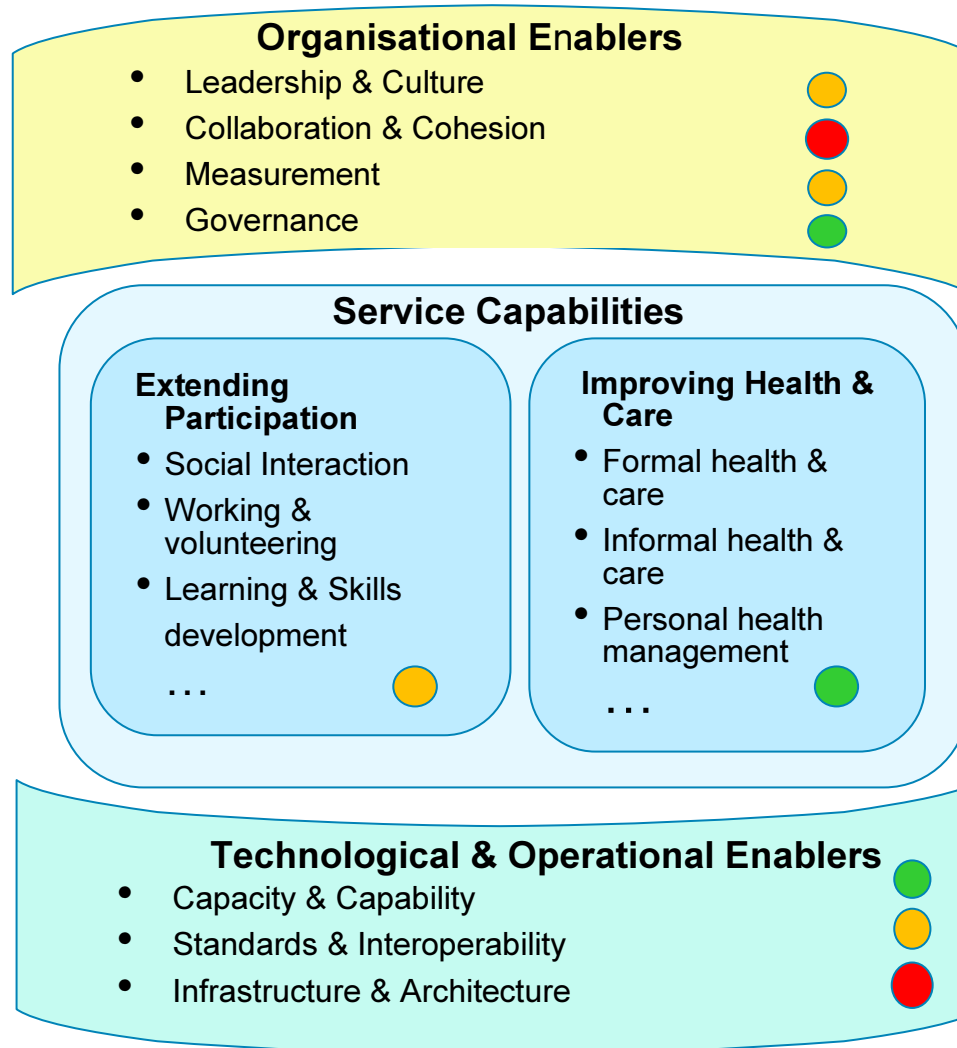

Extend Participation

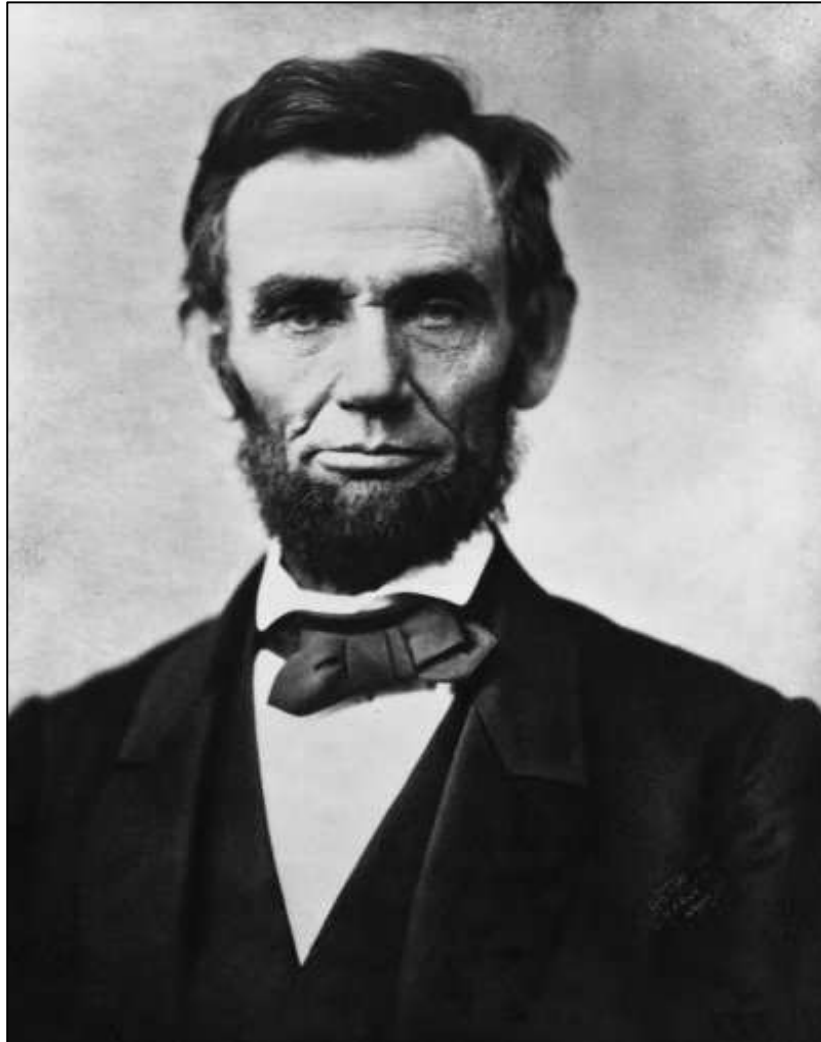

Each area, and the interdependencies between them, offers huge scope to benefit from innovative services, enabled by a connected communication platform

Improve Health & Care

Ageing Well in a Connected World: Readiness Assessment Tool

“In the end, it’s not
the years in your life
that count.

It’s the life in your
years”

Abraham Lincoln

Tack så mycket
