

## Cisco CCIE Assessor Lab

Increase your confidence and improve your preparation for the CCIE lab exam with the CCIE Assessor Lab for Routing and Switching. Cisco offers the only official CCIE practice lab. Assess your strengths and weaknesses from your own desktop.

### Benefits

The CCIE Assessor Lab offers an opportunity to improve lab performance.

- Increases confidence and comfort level with lab exam
- Identifies gaps in preparation and knowledge
- Helps develop effective test-taking strategy
- Provides hands-on equipment practice time
- Cost effective assessment performed from candidate's desktop

### Description

CCIE Assessor includes a four-hour practice lab with scenarios similar to those on the actual exam; desktop access to live, dedicated Cisco equipment; a detailed performance assessment; and two hours of additional practice time on the equipment. CCIE Assessor lets first-time candidates experience what the exam is like and gives all candidates the kind of detailed feedback not provided in the score reports for actual exams.

### Results and Feedback

As in the actual lab exam, each question has specific objectives and an expected configuration. Performance is evaluated and scored similar to actual CCIE lab exams. An assessment report is available online during the session and is automatically emailed after the session expires. The report includes configuration tips, a line-by-line analysis of command lines, and suggestions for further study.

### Packages and Pricing

Two different versions of the four-hour practice lab are currently available, providing extended coverage of the topics included on the eight-hour exam. Each version contains a different selection of advanced topics from the lab. Blueprints listing the specific topic areas are available online at [www.cisco.com/web/learning/le3/ccie/preparation/index.html](http://www.cisco.com/web/learning/le3/ccie/preparation/index.html).

Candidates may purchase:

- A single, four-hour practice lab with two hours of additional equipment time at US\$279
- Both versions of the four-hour practice lab, with four additional hours of equipment time, for a total of US\$399

### Support and Assistance

The Cisco CCIE Assessor Lab runs on LabGear™ equipment from Technology Networks, Inc. (TNI) and makes use of the AutoVerify™ assessment engine from Remote Technology Solutions, Inc. Questions and non-urgent concerns about CCIE Assessor should be directed to Cisco Systems, Inc. at [ccie-assessor@cisco.com](mailto:ccie-assessor@cisco.com).

Urgent issues arising during the practice session are handled by TNI at (011) 775 450-6775. Live support is available Monday-Friday from 8am—5pm US Pacific Standard Time (excluding U.S. business holidays) and on-call 24 hours a day, everyday.

### Key Features

Cisco offers the only official CCIE lab assessment designed to provide candidates with an experience similar to the actual CCIE lab exam.

- Simulates difficulty and format of lab exam in four-hour time period
- Provides access to live Cisco equipment using standard Internet connectivity
- Gives detailed, command line feedback
- Suggests resources for topics requiring further study
- Designed and updated by Cisco CCIE program managers

### Technical Requirements

The CCIE Assessor Lab can be accessed via the Web from any location with Internet connectivity. The following ensure adequate performance:

- Bandwidth of 56K or higher
- Microsoft Windows 2000 or later
- Microsoft IE 5.5 or later, with default security and pop-ups allowed
- Security firewalls allowing outbound TCP
- Microsoft JVM or Sun JRE 1.5 or higher
- ActiveX and JavaScript enabled
- Adobe Acrobat Reader
