

Open House in the Networking Lab

OVERVIEW

Prospective students meet in the Networking lab. The Networking instructor facilitates this activity, with the Cisco engineer/s providing assistance.

OBJECTIVE

To portray the practical application of computer networking knowledge, specifically how students can network their home computers.

AUDIENCE

Middle school & high school level students

ESTIMATED TIME

60 minutes

NUMBER OF VOLUNTEERS

2 (1 volunteer for every 7 - 10 students)

METRICS

Pre and Post survey will measure attitudinal change.

GETTING STARTED

The Cisco AAM (Area Academy Manager) can help you identify an academy in your area who can host the event.
