

Borough of Manhattan Community College Internship Marketing Letter

April 5, 2000

Mr. Sung Kim
Manager of Technical Recruiting
Globix
139 Centre Street 7th Floor
New York, NY 10013

Dear Mr. Kim:

Thank you for your willingness to explore mentoring our soon to be CCNAs. I've enclosed a description the Local Academy Program, the Cisco curriculum, the BMCC internship program and a brief student profile. Students are eligible for internship assignments only after they have successfully completed semester 2 (see curriculum). Our students are entry-level in the networking field but have varied work experience and education. Some have been on interviews for internships and are at varying stages in the process.

I would appreciate an opportunity to bring a couple of candidates for you to meet and at that time discuss how this can be a mutually beneficial arrangement. I will call you Friday to follow up. If you have questions before then, please feel free to call me at 212-346-8346.

Yours truly,

David Kohn
Director
