

Mission High School Student Contract

CISCO/Mission High Networking Class Student Contract

I _____ am choosing to participate in the CISCO Networking Academy because I want to learn about networking and take advantage of some of the skills that I will learn in the class so that I can obtain new opportunities for life after Mission High School. The CISCO Networking Academy is a **two year** course that will teach 11th and 12th grade students the fundamentals of how networks function and how computers work on the **Internet**. This two year commitment will take students through the basics of networking during the first semester, advanced networking during the second semester, and additional advanced course work during semesters 3 and 4. This two year course is offering students the opportunity to become knowledgeable about the networking industry through our sponsor Cisco Systems (San Jose, Ca.), in addition we are currently negotiating with City College of San Francisco offer advanced classes on their campus that will assist students in passing the national certification exam. This course will offer students a view of how the networking industry works, and if students have mastered the course work, the possibility of an internship or job in the field of networking is likely upon completion of all of the course work. This course will sometimes require that students **stay after class** (after 3:10pm) to complete the wiring work that will be done throughout the building. This is a requirement for the course and all students and student teams must participate to both events to pass the class, and to move to the next level for the coming semester. Should students fail to respect their peers, fail to show-up for class everyday on time (exceptions are for those with a valid excuses), or fail to complete the course work that is required, then students will be transferred out of the CISCO Academy into another class. If you do not agree with any of the above statements or if you do not want your child to participate because of the course work listed above, please DO NOT sign this document.
