

Hacker Busters

Peter Packet Theme Song Lyrics

Peter Packet hears the call
On Internet protocol
Jumping through the firewall
(Peter Packet!)
For every path that he takes
A router tries not to make
bandwidth mistakes

Peter Packet is on the go,
Helping the world—you can't go slow
Peter Packet is on the go, on the go
(Peter Packet!)

A server sends the packets out
Each one takes a different route
Speed is what it's all about
(Peter Packet!)
They dodge each virus met
Trying not to get
Caught in the hacker's net

Peter Packet is on the go,
Helping the world—you can't go slow
Peter Packet is on the go, on the go
(Peter Packet!)
