

Economic Stimulus Financing Offer from Cisco Capital

Small and Medium Sized Businesses

Get an Additional Economic Benefit

The United States government has made this a great year to invest in technology. The recent Economic Stimulus Act 2008 allows for bonus depreciation of assets used in conjunction with computer and telecom equipment acquired and placed into service by December 31, 2008.

For a limited time, Cisco is taking our tax benefits from the Economic Stimulus Act 2008 and passing them onto you through an interest-free, 3 month deferral for our Small and Medium Business (SMB) customers on new equipment financing through Cisco Capital. We understand conserving budgets and having the technology your business needs today is important for you to remain competitive. Cisco Capital is taking action by providing this additional incentive and making it possible for you to get the technology you need, when you need it.

There are no strings attached, no hidden charges. Cisco will cover your interest charges for 3 months. You will also enjoy not having to make payments until that timeframe is up as well.

Interest-Free 3 Month Payment Deferral for SMB Customers*

Interest free, 3 month deferral to help you adopt the latest Cisco networking and communication equipment, this year:

- Available on both our finance agreements and leases
- Applies to all Cisco technology solutions
- Includes Cisco SKUs only (Cisco services can be included on a "like term" basis. For example: for a 48 month term, 48 months of services can be included. Note: Maintenance-only renewals are not eligible; nor are non-Cisco gear or services).

- Available on all financing terms – 36, 48 and 60 month terms (deferral period included with the term. For example: a 36 month term will only require 33 payments, to begin after the interest-free deferral period).
- Now available through 12/31/2008

Cisco Capital

As the captive of Cisco, Cisco Capital is uniquely positioned to provide the aggressive and flexible financing for Cisco technology and services. Empowering businesses with the financial agility they need to evolve IT as business demands grow and technology advances. Cisco Capital delivers financing solutions designed to support business goals and technology needs, both today and in the future.

Benefits of Flexible Financing from Cisco Capital

Maximize resources with dynamic financing solutions:

- Save on the cost of Cisco equipment and services
- Tap into operating budgets, while preserving Capital funds for other projects
- Structure payments to match your budget cycles
- Manage technology lifecycles and avoid product obsolescence

Take Advantage of This Offer

Contact your Cisco account manager, Cisco Capital representative or Cisco channel partner to leverage this special offer.
