

Remanufacturing for a Greener Planet with Cisco Certified Refurbished Equipment

At Cisco, environmental responsibility is an integral part of the way we do business. The Cisco® Product Stewardship program and activities reduce the environmental impacts associated with our networking products throughout their entire lifecycle—from product development, and manufacturing, to use, service, and eventual product end-of-life. Through Cisco Certified Refurbished Equipment, remanufacturing is an example of Cisco’s commitment to minimizing its environmental impact through “reduce, reuse, recycle, and remanufacture.”

Reduce, Reuse, Recycle, and Remanufacture

Since 2001, Cisco Remarketing has provided 28,000 customers in 80 countries with Cisco Certified Refurbished Equipment in those cases where deploying new Cisco equipment is not an option. Employing comprehensive and rigorous ISO9001 and 14001 certified processes, Cisco Certified Refurbished Equipment are remanufactured to “like-new” condition and offer the same performance, quality, warranty, and support as new equipment.

Cisco Certified Refurbished Equipment Program Highlights

- More than 2800 current and end-of-sale product SKUs across all technology areas (routing, switching, wireless, telephony, security, storage, and peripherals)
- 25 to 70 percent off new Cisco product prices
- Remanufactured, upgraded, tested, and certified to Cisco specifications
- Cisco IOS® license included
- Same Cisco warranty and Cisco SMARTnet® support options as new products
- Financing is available (if needed) through Cisco Capital
- Ships in 24 hours (geographic limitations apply)

Good for Your Business. Good for the Environment.

All Cisco Certified Refurbished Equipment is remanufactured using environmentally responsible processes and materials. When a new Cisco product is not an option, Cisco Certified Refurbished Equipment provides peace of mind, genuine Cisco performance and quality, network security, no hidden costs, and low total cost of ownership.

Cisco Certified Refurbished Equipment: Part of a Complete Green Solution

By taking advantage of various Cisco offers, customers, resellers and Cisco can partner and go green and reduce their impact on the environment:

- Develop a technology end-of-life strategy and decommissioning plan in conjunction with your Cisco partner or Cisco Account Manager.
- Use the [Cisco Technology Migration program](#) or the trade-in program when upgrading to new Cisco technologies.
- Use the Cisco [Take-Back and Recycle](#) program to recycle end-of-life and other Cisco products not covered by the Cisco Technology Migration program.
- Use [Cisco Certified Refurbished Equipment](#) when new Cisco is not an option (immediate delivery, end-of-sale equipment, and budget/price constrained situations).
- Use [Cisco Capital leasing programs](#), including the technology migration and refresh programs, with the added benefit of outsourcing the end-of-life product lifecycle management tasks to Cisco Capital.

For More Information

Get started with the Cisco Certified Refurbished Equipment program today by contacting your participating authorized Cisco distributor or by visiting the Cisco Remarketing website at www.cisco.com/go/remarketing. Here you can access an online inventory and ordering tool, check pricing and availability, and find contact information for a sales representative in your area.

Not Just Refurbished. Cisco Certified Refurbished.

Cisco employs the industry's most comprehensive and proprietary remanufacturing processes to ensure that its products are returned to a like-new operating condition. Key steps include:

- Counterfeit screening
- Hardware and firmware upgrades; diagnostics, functional and network testing
- Repair, cleaning and cosmetic reconditioning
- Restoration of default settings; installation of IOS software license
- Recycling and disposal of components from rejected units in accordance with environmentally responsible practices
