

Public Sector Center of Excellence

At Cisco our passion and priority are our customers. We are committed to helping Public Sector organizations become more agile and adopt tomorrow's innovations to better support citizen-centric initiatives.

I would like to personally invite you to experience this commitment at our Public Sector Center of Excellence (COE) in Herndon, Virginia. Leveraging our leadership in the Public Sector market, we've built this world-class facility to provide Public Sector visitors from around the world the opportunity to share current and future technology needs, exchange ideas with Cisco experts, and experience advanced Cisco and partner solutions developed explicitly for the Public Sector.

To schedule your visit to the COE, contact your Cisco account team or email us at coeteam@cisco.com. We will reserve the facility, prepare a presentation that addresses your specific needs, and ensure that the right people are there to answer your questions.

For more information about the Public Sector Center of Excellence, visit www.cisco.com/go/coe. We look forward to seeing you soon.

Sincerely,

Bruce Klein
Senior Vice President
US Public Sector
