Getting Started with Search for Courses

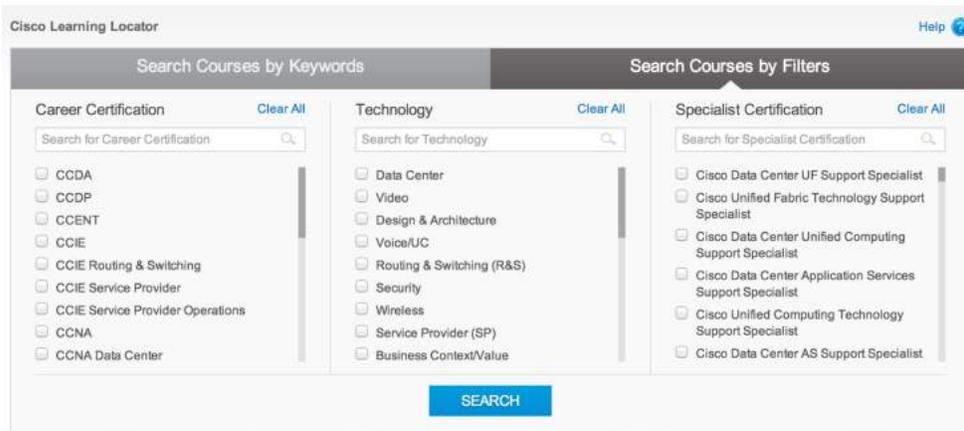

Search Courses by Keywords :

By entering specific keywords such as Course Acronym, other technology, certification or specialization terms in the Search Box and clicking on “Search” Button. **Note:** The banner images may be changing periodically.

Search Courses by Filters :

By selecting specific value(s) of Technology, Certification or Specialization from the list of corresponding boxes and clicking on “Search” Button

“Cisco Learning Locator” Tool is publicly available and does not require login. User can perform the search either by logging in as CCO user OR without having to log in to the tool. If the user has already logged into Cisco.Com and navigates the Cisco Learning Locator, the logged in status of the user shall continue as is.

Course Listing Page

Search results either by entering the keywords or by applying the filters etc., results in listing of courses that match the criteria.

In the following example, user is searching for “CCNA Data Center” as keyword. System supports search for keywords by identifying them within the Title, Description or to any of the associated course metadata. Course(s) with higher level of relevancy get listed at the top. Tool also displays the count of courses that met the search criteria.

The screenshot shows the Cisco Learning Locator search results page. At the top, there is a navigation bar with the Cisco logo and links for Products & Services, Support, How to Buy, Training & Events, and Partners. A search bar is located on the right side of the navigation bar. Below the navigation bar, the page title is "Cisco Learning Locator > Search Result". A search bar contains the text "CCNA Data Center" and a "SEARCH" button. Below the search bar, it says "Top Searches : CCNA, Routing & Switching, CCIE Data Center, CCNA Security, Cisco Call Manager". The main content area shows "Total 12 Results Found." and a "Refine Search by" sidebar. The sidebar has sections for "Career Certification (4)", "Technology (2)", and "Specialist Certification(33)". The main content area lists several courses:

- Introducing Cisco Data Center Networking (DCICN) 1.0** (139 Offerings)
 - Leads to certification(s) : CCNA Data Center
 - Introducing Cisco Data Center Networking (DCICN) helps prepares the learner for a CCNA Data Center exam certification. It covers the Cisco Data Center networking components and technologies. Course Objectives...
- Introducing Cisco Data Center Technologies (DCICT) 1.0** (144 Offerings)
 - Leads to certification(s) : CCNA Data Center
 - Introducing Cisco Data Center Technologies (DCICT) helps prepare the learner for a CCNA Data Center exam certification. It covers Data Center Cisco technologies, including Unified Computing / virtualization and Unified Fabric (Nexus product...
- Cisco Data Center Unified Computing Troubleshooting 1.0** (30 Offerings)
 - Leads to certification(s) : CCNA Data Center
 - Cisco Data Center Unified Computing Troubleshooting Specialist course (DCUCTS) v1.0 is a 4-day hands-on course which enables the UCS Partners...
- Interconnecting Cisco Networking Devices: Accelerated (CCNAX) 1.0** (16 Offerings)

Course Details Page

Course Details :

Once user clicks on a particular course or the count of offerings displayed, tool navigates the user to the “Course Details Page”.

Top section of the page is divided into Course Description and Course Summary Information. Summary Section has details such as Career Certifications, Technology, Delivery and Duration. Course Description lists Course Prerequisites, Course Content Description Text, Course Objectives, Course Outline and Who Should Attend details.

The screenshot shows the Cisco Learning Locator interface. At the top is a navigation bar with links for Products & Services, Support, How to Buy, Training & Events, and Partners. Below this is a breadcrumb trail: Cisco Learning Locator > Search Result > Course Details. The main heading is 'Course Details'. A search bar contains the text 'Start New Search' and a 'SEARCH' button. The course title is 'Interconnecting Cisco Networking Devices, Part 1 (ICND1) 2.0'. The page is divided into two main columns. The left column contains sections for Prerequisites (Basic computer literacy, Basic PC Operating System navigation skills, Basic Internet usage skills, Basic IP addressing knowledge), Course Content (ICND1 v2.0 includes major updates and aligns to an updated blueprint...), and Course Objectives (Upon completing this course, the learner will be able to meet these overall objectives: Describe network fundamentals and build simple LANs, Establish Internet connectivity, Manage network device security, Expand small to medium-sized networks with WAN connectivity). A 'More' link is at the bottom right of this column. The right column contains summary information: Career Certifications (CCENT; CCNA; CCNA Routing and Switching), Technology (Routing & Switching (R&S)), Delivery (Classroom, Virtual Classroom), and Duration (5 Days).

Offering Listing (List View):

Bottom Section of the Page lists individual course offerings for the select course. These are the course offerings offered by different Learning Partners across the Globe in multiple geographical locations, starting on different dates and also in different languages. These offerings are primarily divided into two types - Instructor-Led Trainings and Virtual Class Offerings. User can toggle between the List view and the Map view of the Offering Listing.

Offering Listing (Map View):

User can toggle between the List View and the Map View of the Course Offerings. Map view displays the Google Map location of the course offering. This derived based off of address provided by the Learning Partner at the time of scheduling the offerings thru Cisco's Learning Partner Management System (LPMS).

Filters :

Filters are available by clicking on the collapsed filter-bar. Upon clicking the filter panel expands to display the available set of options. Filters can be applied to narrow down the list of Offerings that meet the criteria and preferences of the users.

NOTE: Offerings listed on this page are pre-filtered by the specific Geography from where the tool is being accessed. In case of Instructor Led Trainings (ILT), the Country and State geography of the user is determined based off of the IP location. In case of Virtual Class, the Country of the user is determined.

Following section of the page depicts the filter options and how to modify/change these preset or selected filters.
