- Powerful Top mounted speaker system optimized for voice & multimedia
- 10 x optical x 2 digital zoom 80 HFOV
- 55 inch displays
- High quality LED Screens
- 2 Integrated bass units for powerful multimedia sound
- Integrated Cable Management
MX700 The Main Unit - Dual Camera

MX700 is a fully integrated unit with dual 55” LED Screens, speakers, camera and microphones tuned to work perfectly together.

- Powerful Top mounted speaker system optimized for voice & multimedia
- 10 x optical x 2 digital zoom
- 80 HFOV
- Optional Dual camera set up with speaker tracking capabilities
- 55 inch displays High quality LED Screens
- 2 Integrated bass units for powerful multimedia sound
- Integrated Cable Management
Integrated dual camera, with automatic speaker tracking capabilities

Unparalleled dual-camera option: Making participants in a video meeting see the active speaker on the other end of a conference—in full view.

Speaker Tracking can be turned on or off at the users convenience. When not tracking, the two cameras can be used individually (e.g., one camera covering the room, while the other is capturing a local whiteboard).

Active speaker tracking allows participates to engage in the meeting, not the technology.

Zpátky do minulosti …

• Data and information sharing
  • No other way than physical presence
  • Moving data was more expensive than moving people

• Resource sharing
  • Hardware was more expensive than people
  • Real estate cost relatively low
  • Travel impact, cost, personal time not an issue

• Collaboration
  • If I need you to do my job, you need to be there (i.e. synchronous)
Takto jsme pracovali
A to, co jsem dělali zde, se přesune...
Welcome to the place where your team works

Cisco Spark
Introducing Cisco Spark

An app that instantly creates a place for teams to work together, where their work can live, and a way to stay connected to it all.

Making Teamwork Simpler.

- Unlimited virtual rooms
- Persistent and secure messaging and file sharing
- Face-to-face meetings with screen sharing
- Superior business class experience
Cisco Collaboration Cloud
Continuous Delivery That’s Connected and Secure

Engage with users, analyze insights, constantly improve and deploy
Enable a highly trusted cloud service
Integrate cloud services with premises/partner solutions
Delivered by partners with enhanced management and visibility for IT administrators
Spark nabízí

### Pro každého a zdarma

- Unlimited rooms and participants
- 1:1 and group messaging
- File sharing
- Face-to-face meetings in rooms of up to 3 participants
- Mobile calendar and contacts integration
- Online self service
- End to end content encryption
