Dimension Data Czech Republic a.s.
What do workspaces look like today?

**Behaviour**
- Important to be seen in the office mentality
- Leaders lack the support to run flexible teams
- Negative perceptions of flexible working

**Environment**
- Inefficient use of space
  - “Building improvement” is often raised as an issue
- Lack of collaborative and flexible working areas

**Meetings**
- Uncomfortable seating and poor room layout
- Difficult to book meeting rooms
- Breakout spaces last choice for meetings

**Collaboration**
- Tools do not always support flexible working
- Often time-consuming to access technology
- Under-utilisation due to a lack of user awareness
Which workspace trends are influencing companies?

- Cost of real estate and occupancy
- The use of multiple mobile devices and the need for access from any location is now commonplace
- Increasing push for sustainable workplaces
- Changing workplace patterns and culture
- The next generation of workers

At the same time ... a major shift in the enterprise: from desktop computing to user-centric computing.

The move to user-centric computing:
- Users
- Desktops / laptops
- Tablets
- Phones
- Applications
- Data
- PC
- Applications
- Data
What do workspaces look like **tomorrow**?

**Behaviour**
- Support for full mobility
- Mitigation of noise levels
- Efficient desk and space utilisation

**Environment**
- Combination of private and shared work areas
- Lower real estate costs through better utilisation
- Improved convenience and flexibility of space

**Meetings**
- Improved design of existing spaces
- More efficient booking and usage practices
- Additional [and better] enclosed and open spaces

**Collaboration**
- Culture of collaboration
- Collaboration tools to suit all ways of working
- Better information access and management
What Workspaces for Tomorrow will offer

**Environment**
- Modern, attractive, collaborative and creative
- Design influenced by employees
- Fewer desks & offices
- Bookable meeting rooms

**People**
- Solutions appropriate to local culture
- Training / coaching for managers and employees
- Flexible working protocols agreed by whole team

**Technology**
- Devices tailored to fixed, mobile & remote workers
- Multiple connectivity options
- Improved ordering processes, education and support

- Employees given a **choice of** where and how they work
- Investment in **modern, collaborative office space**
- Technology that **enables** employees to **work** in their **office**, elsewhere on campus, or **remotely**
The objective is to fully leverage our joint capabilities, and areas where we complement, to establish next steps to advance a client’s solution architecture across technology and environment.

We engage with architectural and office design firms to assist our clients with transforming their physical space into modern collaborative environments.
