

CISCO CONNECT 2015

Bucharest, March 2015

Elena Paun

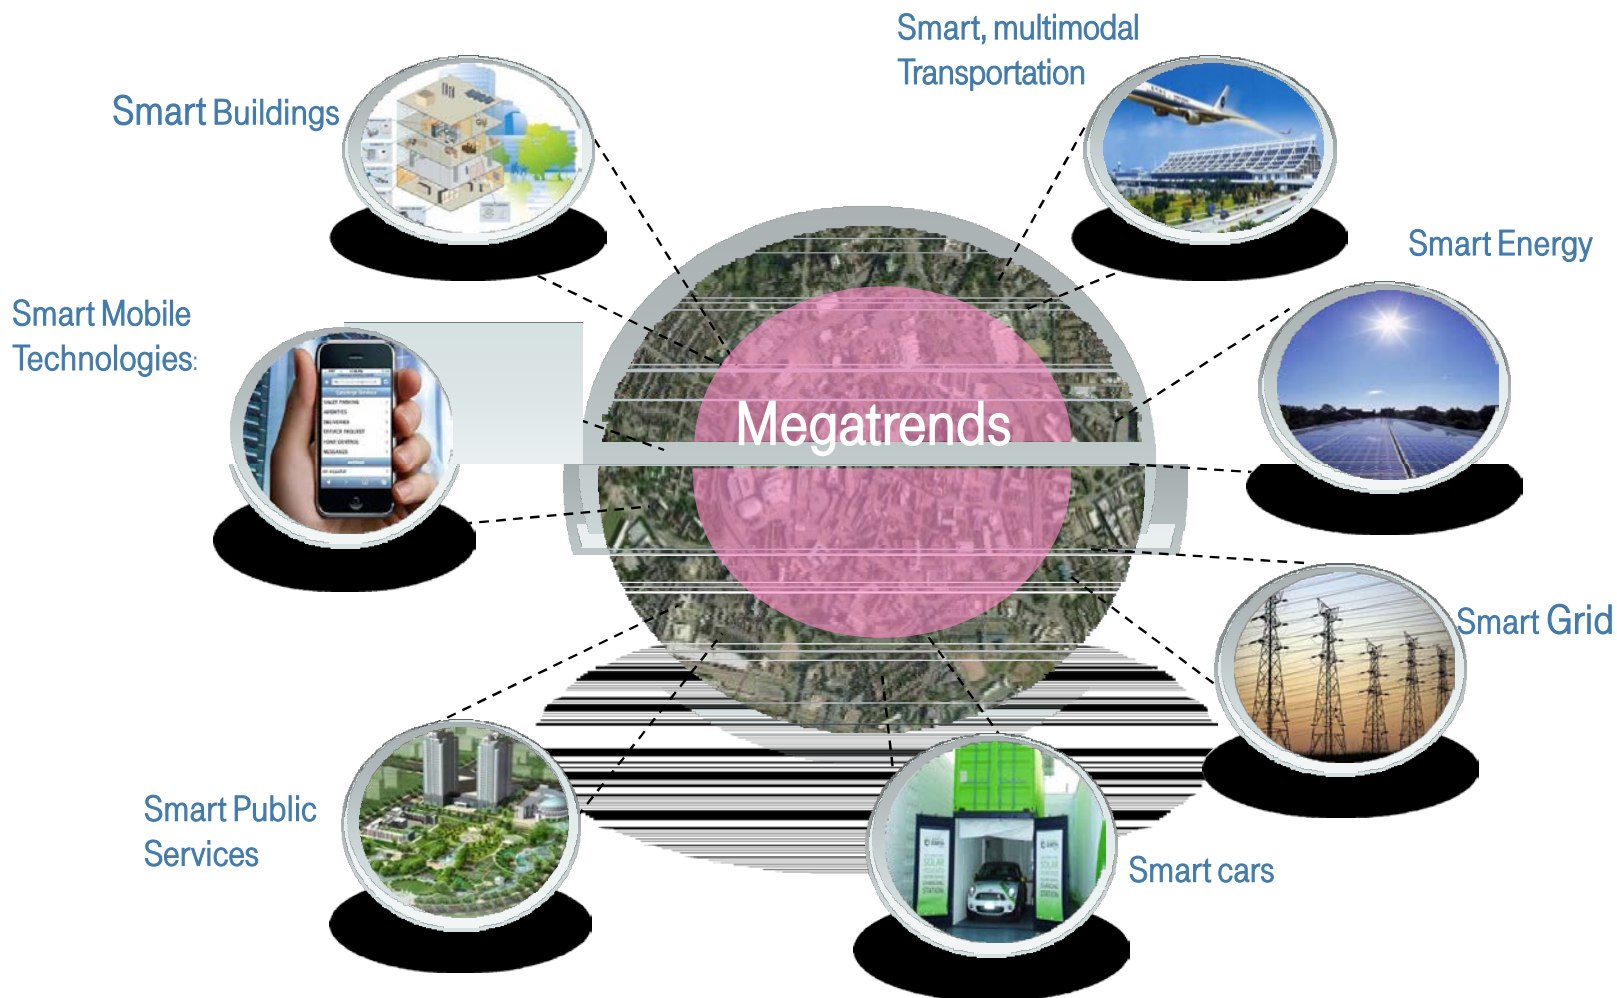

Business Development Manager

ICT Division, B2B Commercial Segment Telekom Romania

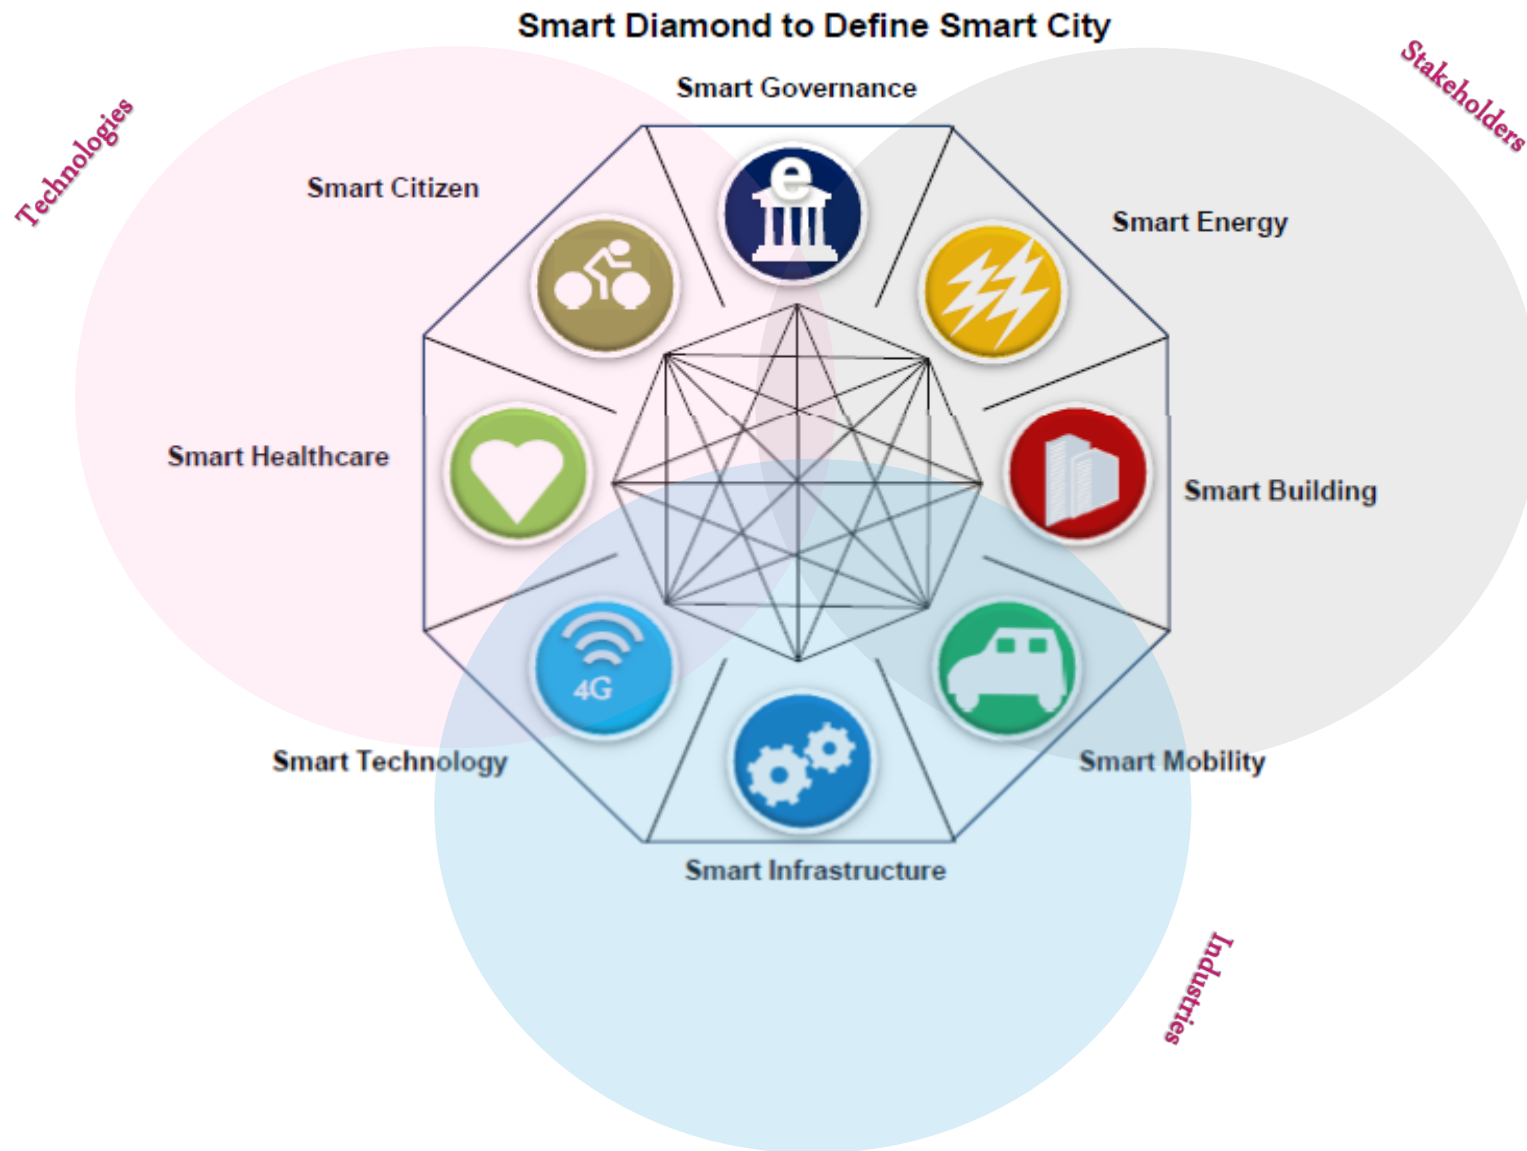

EXPERIENȚE ÎMPREUNĂ.

How smart is a smart City?

Smart Cities powered by smart synergies

DT's vision on Smart Cities

“A smart city is an **Ecosystem** characterized by a **partially digitized** set of processes and striving to **increase** its **self-awareness and efficiency**, through **ICT** and a **higher degree of participation** from its Citizens, Authorities, Businesses”.

DT M2M Competence Center, 2014
