Start Provisioning

To provision users to Secure Access, you must authenticate to your identity provider (IdP). Generate a token and then use it and the listed provisioning URL to provision users through your IdP. [Help](#)

Provisioning token

Once generated, copy and save this authentication token. It is required when configuring your IdP.

⚠ For security reasons, your token will only be displayed once.
For future reference, copy this token and keep it in a safe place

Token
