

Secure-24

HOW A HOSTING COMPANY LEVERAGES CISCO UCS

Sean Donaldson, CTO - Secure-24

AGENDA

- About Secure-24
- Challenges
- Creating a Cloud Infrastructure to Support a Cloud Application, Middleware and Database
- Leveraging Cisco UCS to Overcome Challenges
- Q&A

ABOUT SECURE-24

- Secure-24 is a Cisco Powered Cloud managed hosting provider
- All Cisco network and server infrastructure
- Oracle Platinum Partner
- Winner of Computerworld's Best Places to Work In IT for 3 consecutive years
- 15 years of experience delivering hosting & managed cloud solutions to enterprises world-wide

FOUNDED

Secure-24 was founded in 2001 and since then has grown to 500+ employees and has received recognition as one of Computerworld's Best Places to Work in IT for the last 3 years.

HEADQUARTERS

Secure-24 is headquartered in Southfield, MI

GLOBAL OPERATION CENTERS

Serving customers around the globe, Secure-24 has two (2) Operation Centers in Michigan, one (1) in Nevada and one (1) in Hyderabad India.

DATA CENTERS

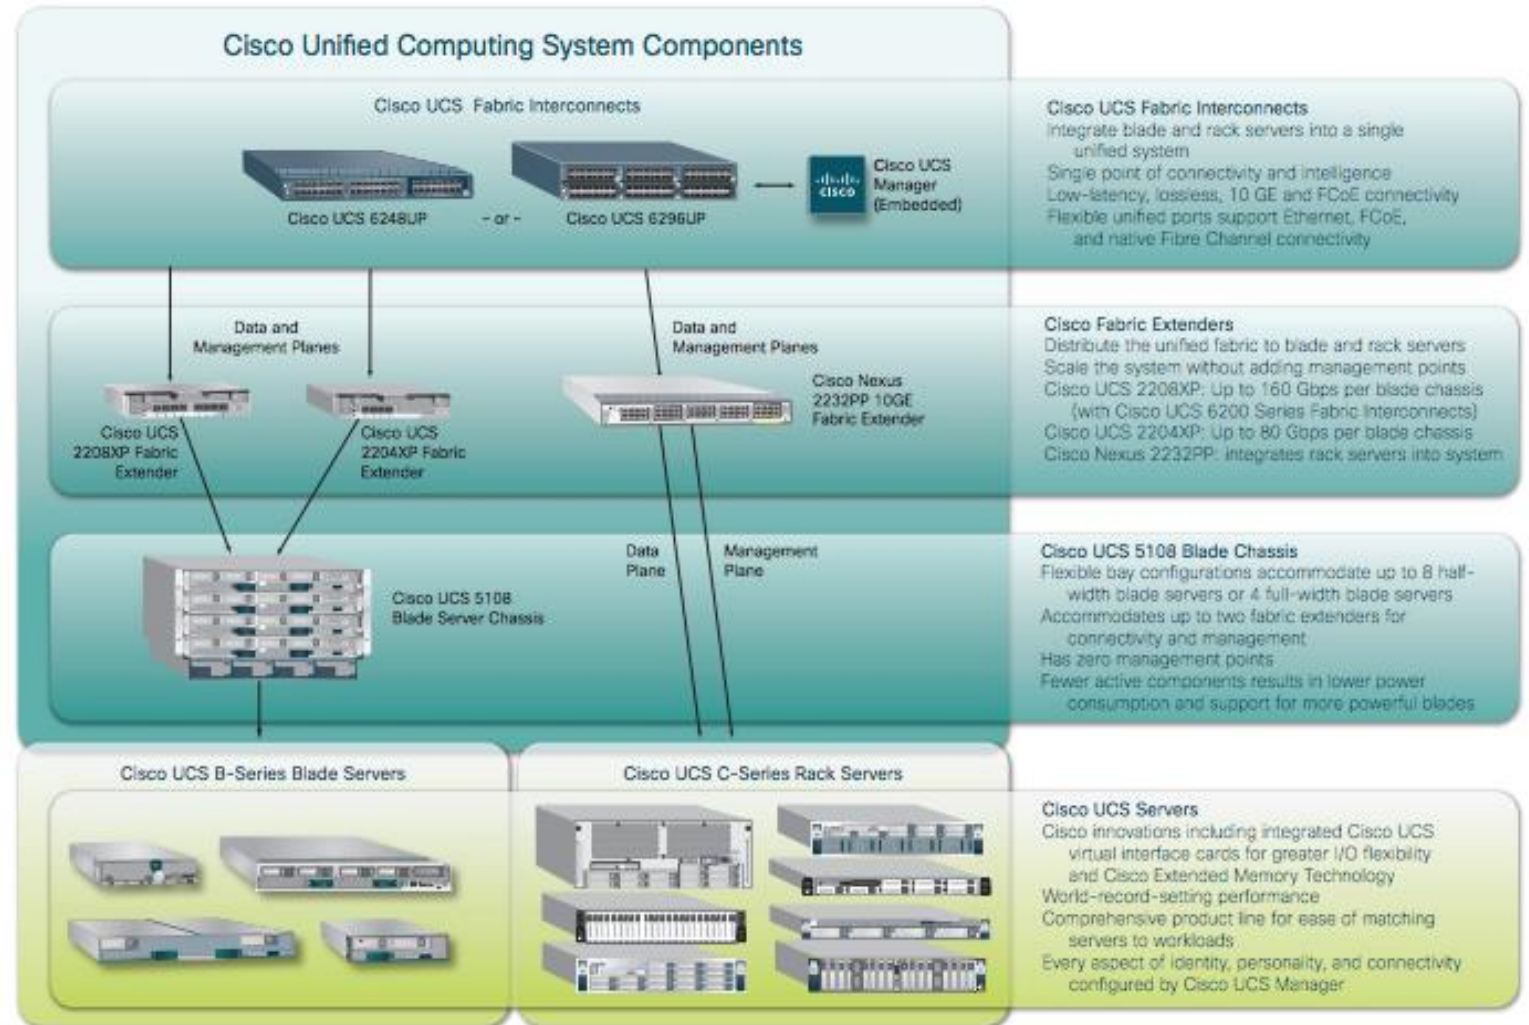

Secure-24 has three (3) data centers in Michigan, one (1) in Nevada, plus several global partnerships. We only choose the safest locations for our data centers.

Secure-24 has 14 years of experience delivering managed IT operations, application hosting and cloud services to enterprises worldwide. We manage SAP, Hyperion, PeopleSoft, JD Edwards, Oracle E-Business Suite and other mission critical applications across all industries for businesses of every size.

CISCO UCS

- Cisco UCS is a scalable, distributed, unified system with a single point of connectivity and management
- Flexible Options
- Trusted Infrastructure
- TDI Certified

HOW OUR CUSTOMERS BENEFIT FROM CISCO UCS

- High End Server Computing (i.e. Cisco UCS)
 - Provides high performance and low latency processing
- Environment Optimized for Virtualization
 - Low latency
 - Supports Oracle Linux, Oracle VM and Oracle containers
- Time to Deploy is Key in Today's Environment

CASE STUDY EXAMPLE: STATE GOVERNMENT

How Secure-24 used Cisco UCS to streamline IT and save costs.

CHALLENGES:

- Create cost effective solution for running a Health Insurance Exchange
- Highly available
- Compliant
- Disaster Recovery with low RPO / RTO

SOLUTION:

- Oracle database & middleware
- Cisco UCS running Oracle VM
- Cisco Nexus 5K core switching.
- Oracle Enterprise Manager used for management of the environment.
- Automation integrated with Oracle VM Manager

Performance. Innovation. Trust.
We are the Managed Cloud.
