

Express Specialization Requirements

The Express Specialization consists of six tracks. You can achieve Express Specialization by completing any one of these tracks:

- Collaboration Express Track
- Data Center Express Track
- Networking Express Track
- Security Express Track
- Service Provider Express Track
- Video Express Track

Express Specialization uses a new flexible application process. Only one track is required, but multiple tracks may be achieved at the same time. Only one Express Specialization will be awarded regardless of how many tracks are achieved. Additional tracks may be achieved at any time, and they will not affect the anniversary date of your Express Specialization.
