Take your asset management experience to the next level

Building on the power of Cisco Smart Accounts to organize and manage licenses, **My Cisco Entitlements** takes visibility and control to the next level by creating a secure, simple solution that provides access to lifecycle actions for all your Cisco assets and entitlements.

With the flexibility of personas, you can classify and categorize assets the way you want and grant access to your Partners and Cisco Account Managers, as needed.

Maximize your return on investments through the insights gained from end-to-end visibility of your products and services now. Enable proactive asset management and reduce out-of-compliance risk. In the future, begin a return material authorization or perform moves, adds, changes and deletes from the **My Cisco Entitlements** platform.

View Details About Services & Subscriptions, Licenses and Devices

Using tabs you can filter, sort, view and export detailed information about active and expiring assets and entitlements.

Monitor and manage Classic, Smart and Enterprise licenses and usage data.

Understand which devices are nearing end of support including specific device information, support dates, contract numbers and locations.

Start the Journey...

Prerequisite: Activate your Smart Account (SA)

Step 1: Establish Anchor Location
