

Cisco Spark Room 55

Cisco Spark Room 70

The Cisco Spark Room 55 and Room 70: Bringing advanced experiences to every room

Benefits

- **Powerful collaboration devices:** Fully integrated systems include 55 or 70" 4K screen(s), powerful digital camera(s), stereo speakers; brings more intelligence and usability to your small-to-large meeting rooms for up to 7 people and 14; based on Cisco Spark Room Kit and Room Kit Plus technology.
- **Smart meetings:** Powerful, integrated camera(s) deliver intelligent viewing capabilities, such as automatic framing and speaker tracking; automatic noise suppression reduces meeting interruptions; see white board content and annotations shared from Cisco Spark Board; participate in white boarding sessions through Cisco Spark app (cloud registered endpoints only).
- **Smart presentations:** Dual screens/dual content sources supported, wireless sharing, and 4K content make for great presentations.
- **Smart rooms:** People count for usage metrics and resource allocation; in-room controls through the Cisco Touch 10 provide enhanced functionalities.
- **Flexibility:** Built for both on-premises and cloud deployment, protecting your investment.

Cisco Spark™ Room 55 and Room 70

As part of the Cisco Spark™ Room Series, Room 55 and Room 70 combine an unmatched video and audio experience with a sophisticated, Red Dot–awarded design to create compelling team collaboration systems. Room 55 and Room 70 are all-in-one, integrated systems that are easy to install, use, deploy, and manage. Room 55 comes with one 55-inch screen and is ideal for rooms that seat up to 7 people. Room 70 is offered in two configurations – single or dual 70-inch screens – and can accommodate up to 14 people.

Room 55 and Room 70 are crafted with high-quality components:

- Professional 4K display(s) for longevity and minimal latency.
- Powerful digital zoom camera(s) for discreet tracking.
- Sophisticated speaker system and amplifier to deliver rich sound.
- Light industrial design that combines aluminum and fabric for a sustainable and humanizing effect.

With [Cisco Spark Room Kit](#) and Room Kit Plus, respectively, as their base technology, Room 55 and Room 70 bring capabilities such as speaker tracking, best overview, automatic wake-up, and people count to enable even smarter meetings, smarter presentation capabilities, and smarter room and device integrations. These features and functionalities further remove the barriers to usage and deployment of video in small-to-large meeting rooms.

Room 55 and Room 70 are rich in functionality and experience but are priced and designed to be easily scalable to all of your meeting rooms and spaces, whether registered on premises or to Cisco Spark through the Cisco® Collaboration Cloud.
