Collaboration is more important than ever.

> Innovative collaboration techniques can improve your company’s productivity by 20 to 30%.

But are your collaboration tools really working?

Only Cisco Webex Control Hub offers insight into meetings, messaging, calling, devices, and contact center information.

- On-premises and hybrid management
  - Manage on-premises and hybrid cloud collaboration environments with on-premises connectors like Cisco Webex Edge Video Mesh and on-premises keys.

- Super-simple user management
  - Zero-touch provisioning makes it easy to import and sync users from any identity provider—whether on-premises or in the cloud.

- Accelerate adoption, understand ROI
  - Understand how your organization uses Webex services and measure ROI and usage trends.

- Deliver a better experience
  - Identify issues by user, location, and device and rapidly drill down to the info you need to address them.

Now, there’s a solution.

Cisco Webex® Control Hub
