

# Security Connections

November 2015

## Spotlight

Our Fall "Security Everywhere Extended" launch leads the news this month, including: Media highlights include:

- eWeek: Cisco Adds Threat Awareness, Cloud Access Security Broker Offerings. "Cisco's Security Everywhere strategy now extends deeper into the cloud, on-premises and everywhere in between. Cisco announced that it is expanding its Security Everywhere initiative with a cloud access security (CAS) broker offering, an update to its Identity Services Engine (ISE) and the Threat Awareness Service."
- IT World Canada: Cisco's Threat Awareness Service Aimed to Help SMBs, Cisco announced a Threat Awareness Service tailored for SMBs that gives more visibility into suspicious network behavior.
