Get scalable training with big savings
With a Stealthwatch Training Subscription, you’ll receive all our training options rolled into one plan at discounted rates. From self-directed training to instructor-led training with hands-on labs and use case workshops, this program offers you comprehensive, flexible training which includes a Stealthwatch Learning Advisor who will map out a learning plan designed specifically for you. And it’s transferrable when changes occur in your organization.

Get up to speed fast at no cost
With our self-directed training, you’ll focus on Stealthwatch core concepts, including components, flow basics, the interface, basic setup, and configuration through online tutorials, interactive demonstrations, and guided practice that can help you get up to speed fast. Get these options at no extra charge with a Stealthwatch Support Maintenance Agreement.

“The training was very intuitive and the hands-on experience was exceptional.”
— IT Systems Analyst, $1.8B American jewelry retailer.

Pay as you go to accelerate your skills
Boost your efficiency with our interactive virtual instructor-led courses delivered in hands-on labs. Then, gain high-intensity competence with our half-day use case workshops that take you on deep dives into Stealthwatch. These are available throughout the year and are updated to current versions of Stealthwatch regularly.

“Prior to taking this Stealthwatch for Security Ops VILT course, I felt very overwhelmed working with Stealthwatch. Now that I have been through this course, I feel like I have a much better understanding of Stealthwatch and feel more confident using our system.”
— Singaporean student, $10.5B investment management company.
