

Software for a Secure, Intelligent Wireless Network

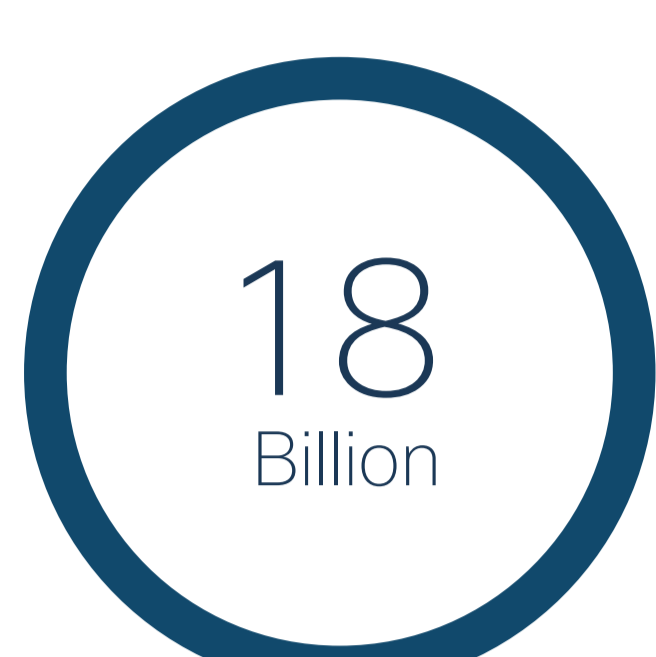

Cisco DNA software subscription for Access Wireless

Wireless is the primary access in the digital world.

In 2022, there is projected to be 4.8 billion internet users.*

In 2022, there is projected to be 18 billion devices and connections.*

Cybercrime damages will cost the world \$6 trillion annually by 2021.**

Wi-Fi related issues are more commonly reported compared to other network issues***

* Cisco VNI Global IP Traffic Forecast, 2017-2022
 **Cisco/Cybersecurity Ventures 2019 Cybersecurity Almanac
 *** Monster Cloud Cyber Security Survey, 2019

What if your network could constantly scale, adapt and protect for:

- ✔ Exceptional wireless connectivity and scalability
- ✔ Automating policy deployment across the network
- ✔ Gaining user insights and experiences to provide personalized services
- ✔ Providing secure access and segment unsecured devices from the network
- ✔ Protecting the network from interference sources and wireless attacks

Cisco Wireless: Transforming the way we connect

Greater Range

Higher Density

Power Efficient

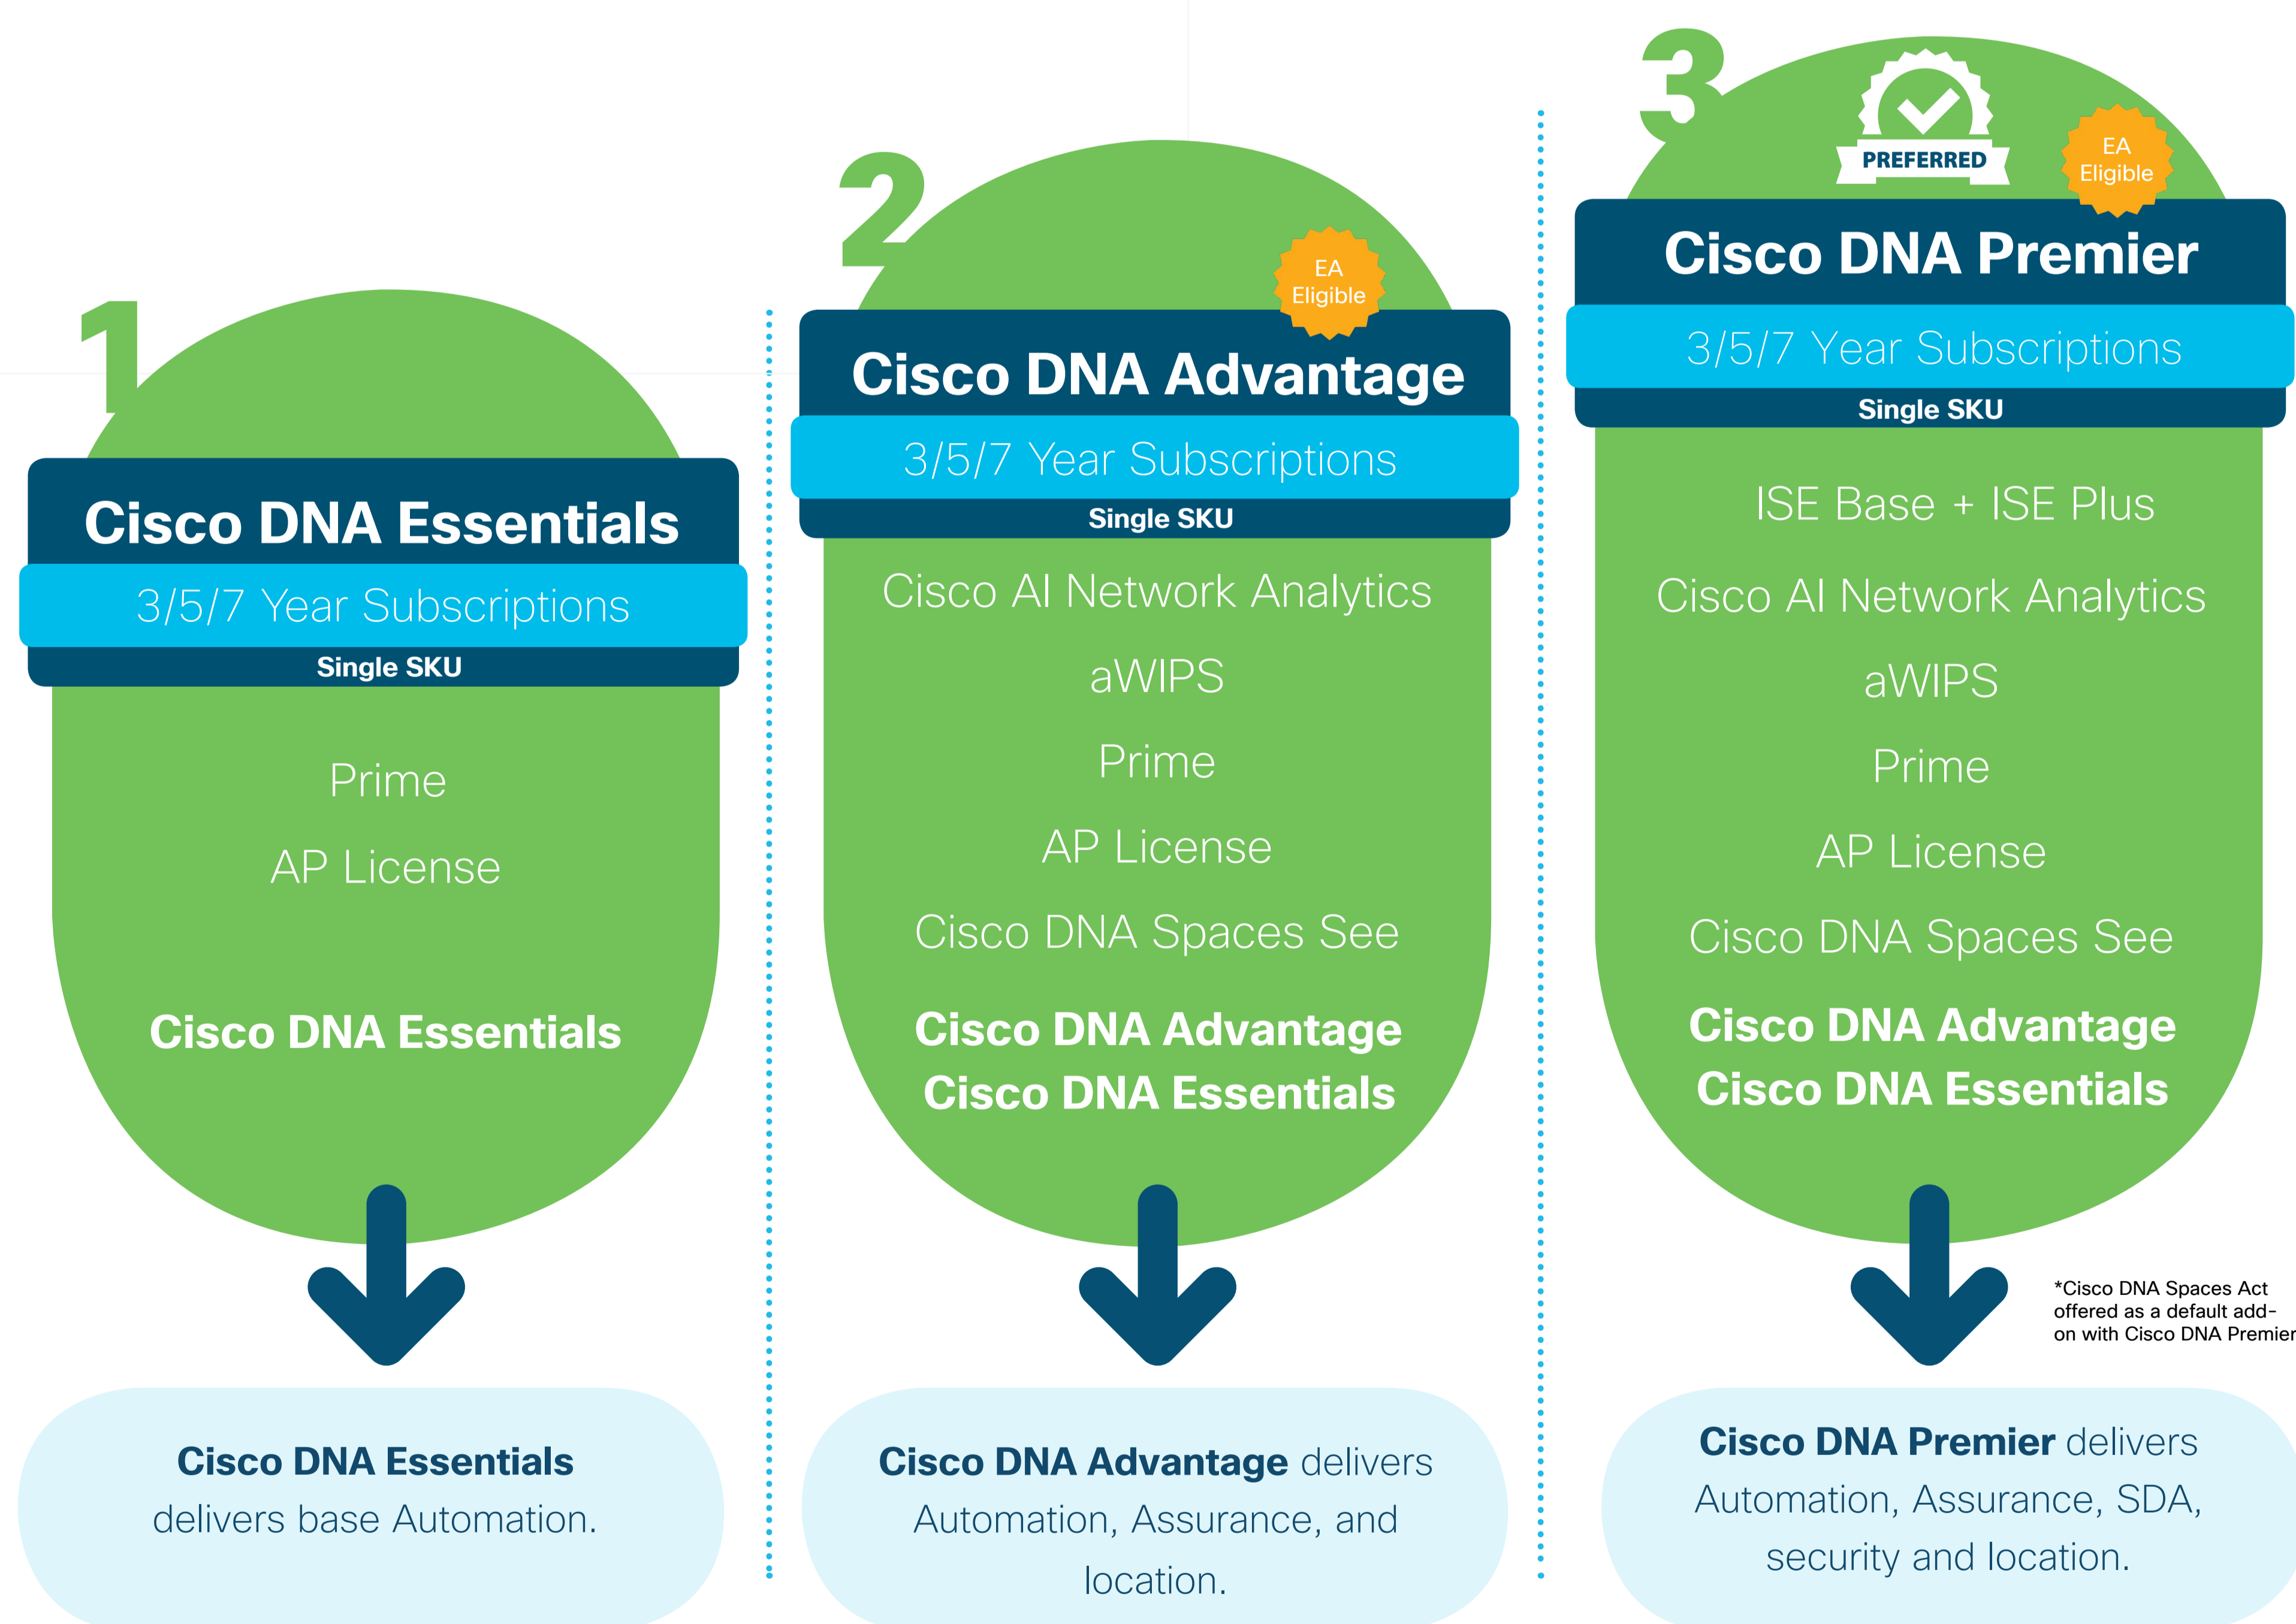

Increased Data Rates

Reduced Latency

Three Ways of Buying

APs: Cisco® Catalyst® 9100, Wave 2 APs, Wave1 APs
