

Webex Instant Connect

Accelerating the growth of virtual healthcare

Webex Instant Connect empowers providers and engages patients for secure, efficient virtual care.

Simple

Secure

Compliant

Efficient

Webex is helping extend the reach of healthcare by supporting new care models and delivering better patient experiences with Instant Connect. This tool connects patients and healthcare services through highly secure, browser-based video consultations.

Today's healthcare organizations are increasingly seeing real value in telehealth. According to Gartner, 50% of healthcare providers will integrate digital monitoring, diagnostics and care management into clinical workflows by 2024.¹

93% of physicians who have used telehealth said it improves patients' access to care, and 71% said it enables high-quality communication with patients.²

Solution:

Webex Instant Connect extends secure telehealth access anywhere.

Webex Instant Connect lets healthcare staff and patients collaborate face to face for simple, easy-to-use video telehealth consultations. It integrates seamlessly with Electronic Medical Records (EMR) systems, enabling providers and patients to schedule and launch virtual visits within an Epic EHR portal or in a browser, while protecting patient identity.

Benefits

Enhancing healthcare accessibility and efficiency:

- Connect patients with remote experts
- Improve virtual patient care
- Reduce cost of healthcare resources and operational expenses
- Enable HIPAA compliance with secure technology
- Limit physical contact when required
- Address health issues wherever patients are
- Reduce patient no-shows due to commute, traffic, child care, and work time off situations
- Shorten wait times to see a provider and extend patient access to specialists who live further away

Activate your organization

Leverage our solution

Connecting is simple

1. Provider logs into EMR portal and schedules a telehealth appointment
2. Patient clicks “Join” from the EMR portal
3. A secure URL is generated
4. Provider clicks “Start consultation” to launch the telehealth session

Getting started is easy

1. Visit instant.webex.com
2. Select “Activate Instant Connect”
3. Log in as Webex admin
