Cisco UCS Solution Accelerator Pak Configurations for VMware Desktop Virtualization Workloads

Solution Accelerator Pak

IT environments of all sizes need to deliver high performance and a reliable user experience consistently, across all devices—wherever users need to be productive. Cisco and VMware desktop virtualization solutions help you achieve this with:

- Reduced capital outlay
- Lower operating costs
- Fast provisioning
- Simplified management and security
- Flexible scalability as your demand evolves

Take advantage of these special promotions to accelerate your ROI and start transforming your work environment into secure, mobile, virtual workspaces.

Solution Accelerator Pak bundles are updated on a regular basis. For more information on the latest bundles, contact your Cisco sales representative or visit www.cisco.com/go/vdi.
