

## Scale to everyone.

“We used to spend all our time answering questions, but now we’ve moved manual, repetitive tasks to Cisco Webex Teams. This self-serve model has freed us up to work on strategic initiatives to improve our company’s culture!”

**Connect your team.** Download the Cisco Webex Teams app. Create a space to keep your team synched. Create spaces about specific HR topics to keep employees informed. Answer their questions and keep your finger on the organizational pulse.

[Download Cisco Webex Teams](#) | [Create a team](#)  
[Create spaces](#)

**Share crucial information.** Use spaces as discussion forums so employees can learn from peers what may be best for them. Post updates to benefit packages, share policies, and promote development programs. Employees can search for documentation and updates in topic-specific spaces.

[Send a message](#) | [Share files](#)

**Spread the word.** Launch new initiatives or events with impact. Seek feedback and spread the word, fast. @Mention people whose attention you need. High visibility will help drive awareness, adoption, and success.

[@Mention a person](#)

**Be available.** Use 1:1 spaces for employees with specific, private questions. When needed, they can have a video call with you, the HR specialist, to resolve issues quickly. Enable employees to get answers and to get back to work.

[Call your teammate](#)

**Include everyone.** Add people outside your company to spaces so you can communicate with outside suppliers and partners effectively and securely. Use Webex Teams as your meeting platform too.

“Before, we were stretched. Now we add more value across the business.”
