

## Be a Top Talent Magnet.

“It used to take so long to find, interview, select, and onboard people. Our processes were too disjointed. We were slowed down by email and our calendars. We couldn’t line up interviews fast enough. Getting consensus was difficult. We now go from potential to possibility in half the time.”

**Create a space for the hiring team.** Have your team download Cisco Webex Teams. Start talking to gain consensus on the skill set you need.

[Download Cisco Webex Teams](#) | [Create a space](#)

**Share resumes and explain the interview process.**

Use the space to keep the hiring team in sync. Share feedback and thoughts about applicants.

[Share files](#)

**Meet with the hiring team** before interviews within the Cisco Webex Teams space. See the team’s schedules with one button. Use video for better communication. Discuss what candidate qualities will make the right fit.

[Schedule a meeting](#)

**Create a space with each candidate** to easily stay in touch and keep them informed every step of the way. Provide interview details and get fast feedback. If they impress you, impress them back with quick communication. Use the shared space to host all interviews via video.

[Add external participants](#) | [Call the candidate](#)

**Offer fast.** Once you’ve made a decision, don’t let them go. Use their space to discuss the offer together and adjust where necessary.

[Send a message](#)

**Streamline on-boarding.** Keep things moving and start the on-boarding process quickly. Begin form-filling now so when they start, they’re already part of the team and ready to make an impact.

“We’ve cracked the code to identify and onboard the best people!”
