Of all Fortune 500 customers have invested in UCS

Cisco Application Centric Infrastructure (ACI):

- Multi-Tenant Isolation
- Workload Optimization
- Workload Prioritization

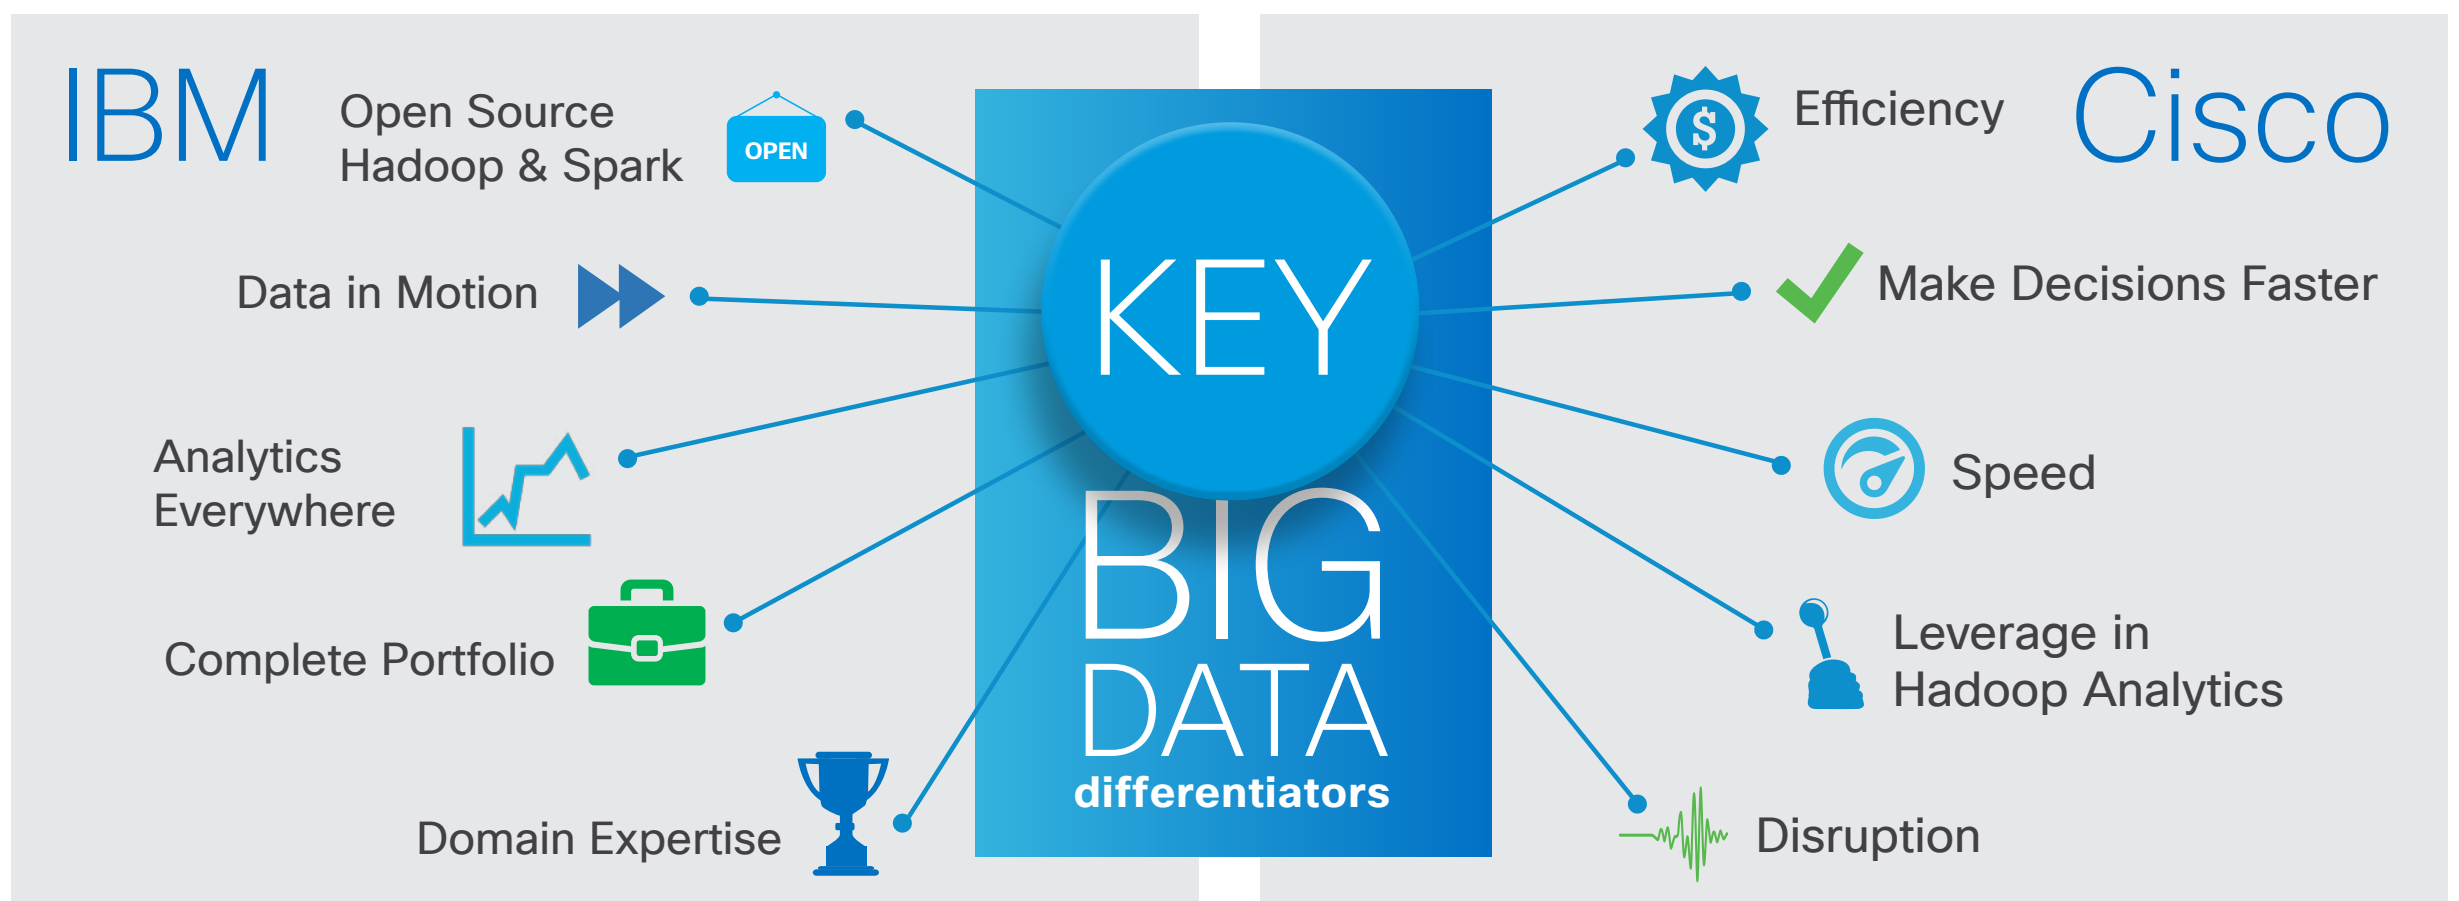

Cisco UCS powered by Intel® Xeon® processor

## Cisco and IBM deliver industry-leading solutions to help businesses accelerate big data analytics

Combine innovations from Cisco UCS such as programmable infrastructure with the industry's premier Hadoop distribution that delivers critical insights anywhere. Cisco and IBM provide enterprises

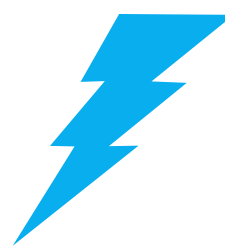

with transparent infrastructure management and integration of Hadoop with other information solutions to help enhance data manipulation and management tasks.

Enterprise Ready

Powerful Real Time Analytics

Validated and Proven

IBM BigInsights for Apache™ Hadoop is an industry standard Hadoop offering that combines the best of open source software with enterprise-grade capabilities. It helps organizations to cost effectively manage and analyze big data—the volume and variety of data that customers and businesses create and collect every day.
