

## A scalable, efficient Big Data platform with Cisco and Hortonworks

### Cisco UCS Integrated Infrastructure:

Efficiency

Speed

Disruption

**46,500+**

Unique UCS customers

**100+**

Unique World Record Performance Benchmarks to date

**22,200+**

Repeat UCS customers

more than  
**85%**

Of all Fortune 500 customers have invested in UCS

Cisco Application Centric Infrastructure (ACI):

- Multi-Tenant Isolation
- Workload Optimization
- Workload Prioritization

Cisco UCS powered by Intel® Xeon® processor

### Hortonworks and Cisco UCS deliver performance, availability, and security to Big Data deployments for your enterprise.

**#1**

Apache Hadoop Committers

With 30 out of 92 Apache Hadoop committers, Hortonworks employs the largest group of committers under one roof; more than double any other company.

**#1**

With 198 committer seats across the 20+ Apache projects within HDP

Hortonworks employs the largest group of Apache committers focused on the data access, security, operations, and governance needs of the enterprise Hadoop market; more than double any other company.

#### Plug and play storage scalability:

A leading North American insurance company reduced processing of their customers' data from 14 days to 2 days thanks to HDP and Cisco UCS. Their analysts can run 10 to 15 times more analytic models.

Once UCS was configured (in less than 4 days), a leading North American telco company deployed Hortonworks HDP on all of the initial 165 servers in less than 20 minutes.
