

Cisco and Cloudera: The Future of Data Management

Cisco UCS Integrated Infrastructure:

Efficiency

Speed

Disruption

46,500+

Unique UCS customers

100+

Unique World Record Performance Benchmarks to date

22,200+

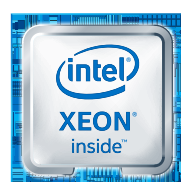

Repeat UCS customers

more than
85%

Of all Fortune 500 customers have invested in UCS

Cisco Application Centric Infrastructure (ACI):

- Multi-Tenant Isolation
- Workload Optimization
- Workload Prioritization

Cisco UCS powered by Intel® Xeon® processor

Big Data interface with visibility for admins, data and analytics managers.

Cloudera Enterprise for Big Data:

Unified

One integrated system, bringing diverse users and application workloads to one pool of data on common infrastructure; no data movement required

Secure

Perimeter security, authentication, granular authorization, and data protection

Governed

Enterprise-grade data auditing, data lineage, and data discovery

Managed

Native high-availability, fault-tolerance and self-healing storage, automated backup and disaster recovery, and advanced system and data management

Open

Apache-licensed open source to ensure your data and applications remain yours, and an open platform to connect with all of your existing investments in technology and skills

60X

faster

“Data reloads at a rate of three months per day, whereas it used to take a full day to reload 1.5 days’ data—that’s 60X faster.”

–Sanjay Saraf, CTO and Senior Vice President, Western Union

500X

faster

“Processing data 500x faster, speeding timely decisions with Cisco UCS and Cloudera.”

–A large healthcare organization that manages 850,000 patients every year

75X

more accurate

“Data analysis is 75X more accurate, supporting better decision-making using Cisco UCS and Cloudera.”

–A Fortune 500 Insurance Company
