

THE NETWORK. INTUITIVE.

4 steps to a new era in networking

Cisco Services can guide you toward a network that constantly learns, adapts, and protects. With Cisco DNA as your platform, your organization can innovate faster, reduce costs, simplify processes, and stay secure.

Step 1: Create a strategic plan.

- Evaluate what you have and what you need to get you where you need to go.
- Develop a strategy, roadmap, and network design for your new DNA solution.
