THE NETWORK. INTUITIVE.

4 steps to a new era in networking

Cisco Services can guide you toward a network that constantly learns, adapts, and protects. With Cisco Digital Network Architecture (DNA) as your platform, your organization can innovate faster, reduce costs, simplify processes, and stay secure.

Step 1: Create a strategic plan.

- Evaluate what you have and what you need to get you where you need to go.
- Develop a strategy, roadmap, and network design for your new DNA solution.

Learn more about DNA Advisory Service >

Step 2: Validate and migrate.

- Build and test your solution in our full production lab.
- Implement a customized migration plan.

Network Migration Services >
Implementation Services >

Cut deployment times by 50% 

75% less downtime¹

Step 3: Train your team.

- Stay ahead of transitions with in-depth and overview courses.
- Build new skills to implement and manage your DNA solution.
