Spanning 59,000 square feet in the heart of midtown Manhattan, Cisco’s New York City Talent and Collaboration Center is designed specifically for the realities of hybrid work. Over 70% of the usable square footage is dedicated to collaboration, including over 90 video-enabled spaces specifically designed for collaboration, learning, and socializing.

Built on a Power over Ethernet (PoE) foundation, 100% of the lighting, shading, and environmental controls are connected to the network, allowing us to achieve new levels of manageability, breakthroughs in health and wellness, as well as contributing to Cisco’s corporate goal of reaching net zero emissions across our value chain by 2040.*

Most importantly, when combined with other technology elements, such as Cisco Catalyst networking solutions, Webex devices, Meraki Cameras, and Cisco Smart Workspaces, the NYC Talent and Collaboration Center is a digital real estate platform that continues to delight employees and visitors alike.

* By reducing our absolute Scope 1, 2, and 3 emissions 90% compared to fiscal 2019 and neutralizing any remaining emissions by removing an equal amount from the atmosphere.

Enabling Technology

Smart Cameras

High-definition Indoor Security Cameras

Providing local storage of video and advanced object detection to support people counting.
Enabling Technology
Cisco Smart Workspaces

Workplace visualization tool, leveraging data sources across all technology platforms to help employees make better decisions within the work environment.

- Overall floor occupancy from smart cameras at points of entry/exit
- Indoor air quality from wired sensors in lighting platform, Webex Devices in collaboration spaces/individual spaces
- Desk occupancy from Webex Desk Hubs located at hotdesks
- Collaboration space availability using presence and people counting data from Webex devices
The 9400 chassis provides connectivity for IT elements (video devices, wireless APs, IP Phones, smart cameras, etc.).

The 90-watt UPOE+ 9300 stackable switching platforms is used to connect and power OT/smart building components (lighting, shading, thermostats, sensors, etc.).

6E-compliant Wireless Access Points (APs) provide secure network connectivity for employees and guests.

Built-in temperature, humidity, and air quality (VoC) sensors provide additional data on environmental performance.
Enabling Technology

Room Signage

Webex Room Navigator
Wall Mounted Version

Bookable Rooms

The Webex Navigator — through its integration with O365, Exchange and Google Calendar — enables seamless room booking, calendar view, meeting information, and meeting extension with a few taps on the touch screen.

Adhoc Rooms

The Webex Navigator uses an in-house developed web app to change the display and LED light based on occupancy, green available, and red for occupied.

Digital Signage

Appspace Digital Signage on LG 55” Display

Simultaneous display of local office signage within the Webex app, via Appspace bot.
Hot Desk

Overview

Providing areas for people to do focus work or passively participate in a remote meeting is critical in the hybrid work environment, and the hot desk is the perfect space for these activities.

Features

- Webex Desk Hub
- Webex Desk Camera
- 24” or 27” display
- Teknion Navigate Height-Adjustable Table
- Humanscale Liberty Task chair

Quiet Room (1 and 2 Person)

Overview

The one and two-person quiet rooms are the perfect space when you need privacy to take a video call, carry out focused work, collaborate with another individual, or simply need a bit more screen space to get your job done.

Features

- Webex Desk (1 person) and Desk Pro (2 person)
- Teknion Navigate Height-Adjustable Table
- Allermuir Kin chair

1 Person Quiet Room

- Apply semi-transparent privacy film to sidelight for privacy

2 Person Quiet Room

- Place entrance on adjoining wall for best experience

Note: Optimal size is nominal 8’x6’, with a 5’ table, 1 person room can go to 7’x5’ with a 4’ table if needed
Traditional Huddle Room

Overview

Making it easy for small groups to come together to share information, brainstorm, and solve problems is absolutely critical. In this office, we’ve replaced personal offices with dozens of huddle rooms and smaller collaboration spaces, each designed for this exact purpose. All of these spaces are video-enabled, ensuring the right resources can come together, regardless of where they are.

The Traditional Huddle Room is the perfect space for small group collaboration, especially when you need to bring in that important remote participant. Wireless sharing allows you to display content effortlessly in local and virtual meetings.

Features

- Webex Room Bar
- Single 43" display (LG or Samsung)
- Neinkamper Gateway table
- Teknion Zone chairs

Medium Brainstorming Room

Overview

This brainstorming space is built for when larger groups need to ideate. The table orientation and shape ensure everyone can be seen and heard, and the density of the space is gracious, allowing ample space to move within the room. The Webex Board is multifunctional, enabling video calls, content sharing, and whiteboarding.

Large Collaboration Room

Overview

A collaboration space specifically designed for large groups, dual screens allow simultaneous in-person attendees to see both remote participants and content. The rear-mounted Webex Precision 60 Camera automatically captures presenters as they move in the front of the room. The optional Webex Board Pro, operating in companion mode, allows co-creation capabilities to be brought into a video meeting.

Features

- Webex Room 70D G2 w/ Wall Stand or Dual 75” Displays (LG or Samsung) with Webex Room Kit Codec Pro
- Webex Board Pro 75
- Rear-mounted Webex Precision 60 Camera

Training Room

Overview

Designed for delivering true hybrid learning events, this training room leverages three large displays, multiple cameras, and Cisco’s “Classroom” mode to provide an unparalleled experience to all participants. The solution supports multiple learning scenarios, including local presenter to a local audience, local presenter to a local and remote audience, remote presenter to a local and remote audience, and discussion mode. In the meeting, whiteboarding and annotation are supported by the Webex Board Pro operating in Companion Mode.

Features

- Webex Room Kit Pro
- Wall mounted Quad Cam
- Triple 85” LG displays
- Rear mounted 65” display (confidence monitor)
- Audio Science ceiling microphones
- Ceiling speakers
- Overhead mounted Webex Precision 60 Camera
- Wall mounted Webex Board Pro 75
