

Optimize Employee Productivity with Hybrid Work

HR leaders are seeking better insights into how, when, and where their people perform best. So they can support them with a work strategy that will drive productivity.

“Most organizations have seen rises in individual and team productivity and employee engagement, and, ... a rise in the satisfaction of their customers as well.”¹

“43% of respondents said that flexibility in working hours helped them achieve greater productivity.”²

Hybrid work offers a distinct opportunity to give your employees the flexibility they want, while driving the productivity goals your organization needs.

- ✓ Support employees that need to focus with quiet workspaces
- ✓ Enable people that prefer to collaborate and spark ideas with more open, social environments
- ✓ Better understand opportunities and risks at specific locations
- ✓ Empower workers to use their preferred devices
- ✓ Know which locations are best suited to specific talent and responsibilities
- ✓ Equip employees with dependable, interoperable tools and applications to make technology an enabler, instead of an obstacle

Cisco Hybrid Work solutions ensure that your organization is empowering every individual to work their best, securely and consistently, with the tools and environments best aligned to their needs.

Provide every individual the ability to succeed in any workspace. Cisco Hybrid Work supports:

- ✓ Secure collaboration
- ✓ Secure access
- ✓ Home office
- ✓ Individual office, common, collaborative/meeting spaces
- ✓ Contact center

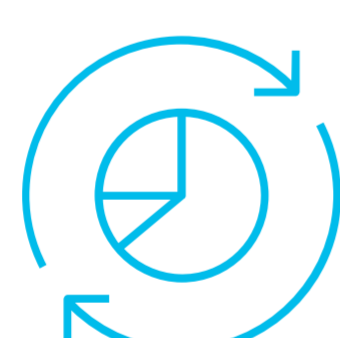

Credit union helps employees work more efficiently in every location

After migrating to a remote work model in response to the Covid pandemic, a credit union wanted a smarter, data-driven workspace strategy to help its 400 employees save time and get more done.

Ambition

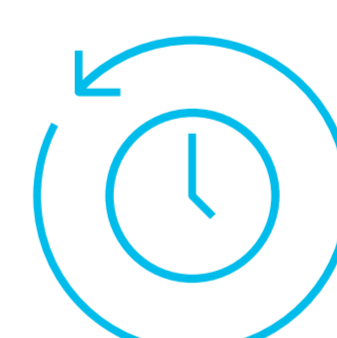

A credit union with 90,000 customers wanted to give its employees flexible work options and gain a better understanding of how and where they work, to align its workspaces to their needs. It needed:

A more data-driven workspace strategy

A secure, consistent work experience for employees in the office, at home, and on the move

An employee-centric experience to encourage productivity and save time

Action

By building on its investment in collaboration and gathering more data and analytics about its employees' work behaviors, the credit union created a springboard for improved employee productivity. The credit union:

Tracks devices and applications connecting to the Cisco network to better optimize their performance at every environment

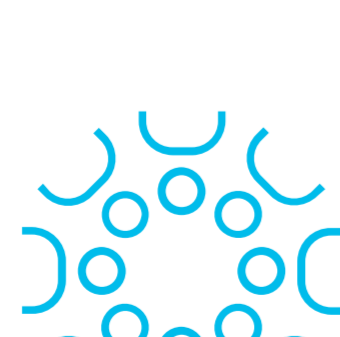

Gives loan officers the option of working from home up to three days a week with Webex collaboration

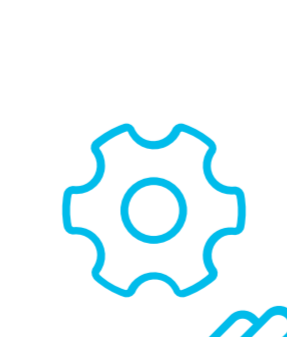

Supports contact center employees working at home or in the office with secure network access and consistent tools and headsets

Achievement

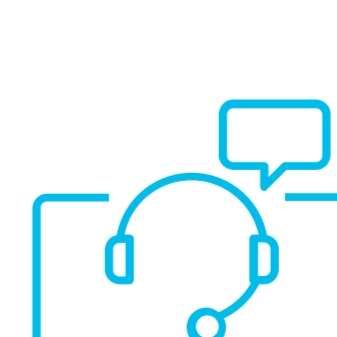

The Cisco solution gave HR at the credit union a better understanding of how employees work, how often they collaborate, and which tools and services they need to do their jobs. It also enabled the organization to make sure every location was equipped to help employees work their best, at any task. The solutions:

Help the credit union determine the strongest mix of on-site and offsite employees

Give loan officers the ability to serve customers from home, securely and efficiently

Let contact center employees stay productive anywhere, and save commute time

Discover how Cisco can help you optimize employee productivity by empowering them to work their best in any space, in any workstyle.
